Hi everyone! My name is Sarah, I'm 24 years old, and I live in London, United Kingdom.

For the past three years, I've been working in politics

In 2020, I started Baselang with the Real World program

And in early 2021, I started the DELE program

Today I'm going to talk about my Baselang experience.

And I started to think I wasn't good enough with languages at all

however, in 2018, after graduated, I decided to travel to South America

Where I started my Spanish language learning journey.

The first time, I tried Duolingo, but when I arrived in South America

I realized that my Speaking and Listening skills were still lacking

But when I was in Colombia, I went to a Spanish school for two weeks.

When I returned to the UK, it was difficult to continue learning Spanish

Without the immersive experience

I went to evening classes after work at a school in London

But, in just three weeks. I improved my level a lot and gained confidence and now.

Also, the course is good because it has instructors who are very friendly and easy-going.

Because here in the UK, we were in a lockdown for about a year

Both of these things will help you a lot.

Good luck! Cheers!
