Textbook of Israeli Hebrew

The aim of this book is to enable the student to read, write, and speak acceptable Israeli Hebrew and to understand less complex biblical Hebrew. A unique feature is the author's use of the principles of structural analysis. For students who are not acquainted with a language other than English, he elucidates those features of the language that are unfamiliar in the structure of English. The student is trained, from the first, to read "unvocalized" script as the native reader does, and "reading clues" (word and phrase patterns) are provided for this purpose. The work is organized into sections that can be worked through in an academic year—presentation of features, text samples, exercises, grammatical synopses, and individual and comprehensive glossaries. This text may be used by teachers without specialized training in linguistics. It can be used by self-teaching students as well as by those at college level, and it will be valuable for immigrants to Israel.

A textbook of Israeli Hebrew

A textbook for Modern Hebrew that is communicatively inspired and structured around functional goals.

A Textbook of Israeli Hebrew

This is the first textbook written for the purpose of teaching biblical Hebrew to college-level students who already know some modern, Israeli Hebrew. Marc Brettler provides a clear, comprehensive book with numerous well-constructed exercises to help students either make the transition from modern Israeli Hebrew to biblical Hebrew or deepen their understanding of biblical Hebrew. The book is also ideal for individuals who might like to study independently, and for serious Jewish adult-education programmes. Biblical Hebrew for Students of Modern Israeli Hebrew is unique in its emphasis on phonology, based on the conviction that a strong grounding in phonology makes it possible to learn biblical Hebrew grammar in a much more systematic fashion. This method also allows verbal conjugations to be taught much more quickly and systematically. Although the text is not inductive, it uses authentic biblical texts throughout to illustrate fundamental points, and it contains many biblical texts in the exercises.

Students progressing through the book will quickly be encouraged by a sense of accomplishment as they encounter and understand well-known biblical passages.

Each year, Israel's young men and women are drafted into compulsory military service and are required to engage directly in the Israeli-Palestinian conflict. This conflict is by its nature intensely complex and is played out under the full glare of international security. So, how does Israel's education system prepare its young people for this? How is Palestine, and the Palestinians against whom these young Israelis will potentially be required to use force, portrayed in the school system? Nurit Peled-Elhanan argues that the textbooks used in the school system are laced with a pro-Israel ideology, and that they play a part in priming Israeli children for military service. She analyzes the presentation of images, maps, layouts and use of language in History, Geography and Civic Studies textbooks, and reveals how the books might be seen to marginalize Palestinians, legitimize Israeli military action and reinforce Jewish-Israeli territorial identity. This book provides a fresh scholarly contribution to the Israeli-Palestinian debate, and will be relevant to the fields of Middle East Studies and Politics more widely.

To prevent such confusion and prepare the students to reading and writing Hebrew without a hassle, in this book all Hebrew words are given without the Nekudot, except for those that require the use of these symbols for grammatical reasons. To provide students with a more convenient and practical approach, in this book all Hebrew words are transliterated. The English transliteration shows the correct pronunciation of each word.

Comprehensive Hebrew for Beginners

How is the Israel/Palestine question narrated in Western academia? What ideas dominate the key textbooks on the subject and what is presented as 'truth'? This book answers these critical questions. It is widely known that Western support of Israel played a vital role in the realization of Zionist objectives in Palestine. But academic support of Israel in the West has been a neglected issue, with Western academic knowledge being regarded as impartial and objective. This book reveals that this understanding of Western academic knowledge is wrong when it comes to the Israel/Palestine question. Rather, knowledge has been biased, misleading, and dogmatic and Western college students are subscribing to 'factual histories' based on theories at best, if not fiction. The book is the first empirical investigation able to document this partial reporting of history. Seyed Hadi Borhani examines the most popular college-level textbooks used to teach the history of the Israel/Palestine in Western universities, combining 'textbook analysis' (to determine how the dominant academic texts report the question) and a 'context analysis' (to identify who 'manufactures' the dominant knowledge). The book provides a historical map of how the Israel-Palestine conflict is understood in the West. The book can be used as a critique for students and professors to use alongside textbooks and is a vital and much-needed intervention into the state of affairs in Western academia.

Textbooks on Israel-Palestine

The appearance in 1992 of 'In Search of Ancient Israel' generated a still raging controversy about the historical reality of what biblical scholars call 'Ancient Israel'. But its argument not only takes in the problematic relationship between Iron Age Palestinian archaeology and the biblical 'Israel' but also outlines the processes that created the literature of the Hebrew bible--the ideological matrix, the scribal milieu, and the cultural adoption of a national literary archive as religious scripture as part of the process of creating 'Judaisms'. While challenging the whole spectrum of scholarly consensus about the origins of 'Israel' and its scriptures, it is written more in the style of a textbook for students than a monograph for scholars because, its author believes, it offers an agenda for the next generation of biblical scholars. 'In this reader-friendly polemic, Davies brilliantly addresses an essential issue and at numerous points represents a vanguard in biblical studies' (Robert B. Coote, Interpretation). 'A rich mine of provocative

quotations, will provoke considerable opposition and debate, and deserves to be read and reflected on by all biblical scholars' (Keith Whitelam, SOTS Book List).

How can we define "Judaism," and what are the common threads uniting ancient rabbis, Maimonides, the authors of the Zohar, and modern secular Jews in Israel? Michael L. Satlow offers a fresh perspective on Judaism that recognizes both its similarities and its immense diversity. Presenting snapshots of Judaism from around the globe and throughout history, Satlow explores the links between vastly different communities and their Jewish traditions. He studies the geonim, rabbinical scholars who lived in Iraq from the ninth to twelfth centuries; the intellectual flourishing of Jews in medieval Spain; how the Hasidim of nineteenth-century Eastern Europe confronted modernity; and the post-World War II development of distinct American and Israeli Jewish identities. Satlow pays close attention to how communities define themselves, their relationship to biblical and rabbinic texts, and their ritual practices. His fascinating portraits reveal the amazingly creative ways Jews have adapted over time to social and political challenges and continue to remain a "Jewish family."

Zeh Lo Nora: Reference Book for Students of Hebrew

Israeli history textbooks in the past contained many biases, distortions, and omissions concerning the depiction of Arabs and the history of the Arab-Israeli conflict. Today these misrepresentations are gradually being corrected. This study encourages the depiction of a balanced portrait in all textbooks. By reviewing curricula and textbooks used in the Israeli educational system since the establishment of Israel, the author assesses the impact of Zionist historiography and the Zeitgeist on the portrayal of Arabs in textbooks. The study unravels the biases, distortions, omissions, and stereotypes through the analysis of several major historical events such as the 1948 war, the refugee question, the 1967 war, and the peace process.
