The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800

More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

The Casuist Uncas'd

The Casuist Uncas'd, in a Dialogue Betwixt Richard and Baxter

'Between Horror and Hope' is a study of Paul's metaphorical language of death in Romans 6:1-11. The scholarly debate focuses on two main issues; the origin of the 'commentatio mortis' tradition and its

development. Dr. Sabou argues that the origin of this terminology is original to Paul; that it was the apostle's own insight into the meaning of Christ's death (a "death to sin") and his understanding of the identity of Christ in his death (as the anointed davidic king) which guided him to create this metaphor of "dying to sin" as a way of describing the relationship of the believer with sin. On the development of this language of death, the author argues that this language conveys two aspects — horror and hope. The first is discussed in the context of crucifixion in which Paul explains the believer's "death to sin" by presenting Christ's death as the death of the anointed davidic king who won the victory over sin and death by rising from the dead. Paul affirms that believers are "coalesced" with what was "proclaimed" about Christ's death and resurrection, thereby allowing him to assert that the releasing of the body from the power of sin is a result of "crucifixion." This "crucifixion" is the "condemnation" inflicted on our past lives in the age inaugurated by Adam's sin and this is such a horrible event that believers have to stay away from sin since sin leads to such punishment. In contrast, hope is presented in the context of "burial." The believers' "burial with" Christ points to the fact that they are part of Christ's family and this is accomplished by the overwhelming action of God by which he pushes us toward the event of Christ's death, an act pictured in baptism. It is this "burial with" Christ that allows believers to share with Christ in newness of life.

The Antinomians have long been positioned on the fringe of mid-seventeenth-century English religion, placed there by detractors like the theologian Richard Baxter (1615-1691). This study considers the intellectual career of Baxter from the vantage point of his deep hostility to Antinomian doctrine - a doctrine that both contemporaries and historians have judged to be subversive, immoral and radical. Baxter's antipathy towards the Antinomians is all the more intriguing given his initial support of the doctrine. Cooper examines the reasons for this shift of opinion, arguing that Baxter's hostility had much to do with the context of the English Civil War. Drawing out long-hidden revelations buried deep within Baxter's correspondence, Cooper demonstrates that he blamed the Antinomians for the war and that they provided a means of channelling his anxiety. The Antinomian debate serves as a case study of the structure of seventeenth-century English polemic which essentially refused any middle ground to an opponent. Thus Baxter and others portrayed the Antinomians as more radical than they ever really were. This study of Baxter's thought provides a window on the colour and drama of his seventeenth-century English world.

The British Museum Catalogue of Printed Books, 1881-1900: Le B to Lindemayr

A classic study of popular resistance to the momentous changes of 17th century England In 17th Century England, the law was not an instrument of justice - it was an instrument of oppression. The enclosures of common land, loss of many traditional rights and draconian punishments for minor transgressions changed the lives of the peasantry and created a landless class of wage labourers. In this, the last book published during his lifetime, renowned historian of the English Revolution Christopher Hill explores the immense social changes that occurred and the expressions of liberty against the law through the literary culture of the times and the hero-worship of the outlaw. As well as chapters on gypsies and vagabonds, Hill analyses class, religion and the shift away from the importance of the church after the Reformation. *Liberty Against the Law* is a late classic of Hill's work, and essential reading for anyone interested in the history and politics of the 17th Century.

Richard Allestree says, "meditation is a serious and solemn considering of heavenly things in the word of God, to the end that Christians may understand how much of God's word concerns them, and that their hearts may be raised to holy passion and resolution to do what it says every day they live here on earth." Godly meditation is part of the three legs to the stool of a Christian's spiritual devotions. Spiritual devotions, or the three spiritual disciplines comprise Bible reading, prayer and pondering the word of God, or what we call godly meditation. This meditation is the musing and mental study of heavenly truths. It is working the practical truths of the Bible into one's soul. In this, Christians are captivated with God's disclosure of heavenly truths to them in the bible. In the bible God displays himself to them. God is the infinite First-being, worthy of all love for Himself, and communicates that love to His people.

They in turn love him back. Loving him back includes thinking about him. Though Christians live in the world, they have communion with the God of heaven through the word of God, throughout the whole course of their lives. They do this through godly meditation. Allestree not only shows what meditation is, and how it is to be done, but gives the reader twenty-eight meditations so that he can enter into a profitable time of daily meditation by practical example. This work is not a scan or facsimile, has been carefully transcribed by hand being made easy to read in modern English, and has an active table of contents for electronic versions.

Heresiography: Or, A Description of the Heretickes and Sectaries of These Latter Times

Conal Condren examines the criteria for judging both works of political theory and texts associated with related academic genres. He discusses the rhetoric surrounding terms like originality, "influence," and "coherence," the value of these terms as criteria of textual assessment, and their use in charting the history of texts. Originally published in 1985. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Epistolae Ho-Elanae

First modern edition of a controversial seventeenth-century political and religious work.

The Church history of England

From the day Jorge Bergoglio stepped out on the loggia of St. Peter's down to the present, Catholics have been confused and dismayed by many of the words and actions of Pope Francis. Not content to allow errors to be spread (whatever their source or putative justification), international groups of pastors and scholars composed documents of inquiry, appeal, critique, and, finally, accusation: the *Dubia* of the Four Cardinals, the Theological Censures of *Amoris Laetitia*, the Filial Correction Concerning the Propagation of Heresies, the Open Letter to the Bishops of the Catholic Church, the Appeal to the Cardinals, and the Protest against Pope Francis's Sacrilegious Acts. These historic interventions, which made news around the world at the time of their first appearance and garnered the support of hundreds of thousands of concerned Catholics, are gathered here in a definitive edition for the benefit of all who seek to adhere to "the faith delivered once for all to the saints" (Jude 3). The six documents are accompanied by a selection of important articles and interviews prompted by them, which criticize, defend, or develop their evaluation of Pope Francis.

The Practical Works of Richard Baxter: with a Life of the Author and a Critical Examination of His Writings by William Orme
