The Origin Of The Distinction Of Ranks; Or, An Inquiry Into The Circumstances Which Give Rise To Influence And Authority In The Different Members Of Society

This classic work of social theory explores the historical development of social hierarchy and inequality. Millar argues that the concept of rank and social hierarchy is rooted in differences of wealth and power, and examines the ways in which these differences have been manifested throughout history. Drawing on a wide range of historical and literary sources, Millar provides a compelling analysis of the origins and mechanisms of social inequality. The Origin of the Distinction of Ranks, Etc. Third Edition Enlarged

John Millar of Glasgow (1735-1801) was a Scottish philosopher and historian. He studied at Glasgow, where he became one of the most important followers of the founder of economics science, Adam Smith. In 1761 Millar became professor of civil law at Glasgow, and soon his lectures gained him nationwide fame. In his Origin of the Distinction of Ranks, published in 1778, he advanced the view that all social relations, even relations between the genders, are determined by the economic system. Such a view became later known as the economic determinism. His Historical View of the English Government (1803) was one of the most important contemporary histories of England, representing a milestone in the development of historiography. Amongst his other works are Letters of Crato (1796) and Letters of Sidney (1796).

The Origin of the Distinction of Ranks ; Or an Inquiry Into the Circumstances which Give Rise to Influence and Authority in the Different Members of Society

This book analyses in depth the distinctively Scottish themes in the work of Sir Neil MacCormick, the world-renowned legal philosopher and prominent Scottish public intellectual who died in 2009 after holding the Regius Chair in Public Law and the Law of Nature and Nations at Edinburgh University for 36 years. MacCormick's work, and works about MacCormick, attract both a domestic and an international audience. Readers will gain an understanding of how MacCormick's Scottish roots, interests and commitments coloured his work - both his distinctively Scottish writings and the overall intellectual outlook that informed his broader legal and philosophical writings. The book provides a well rounded appreciation of the Scottish dimension in MacCormick's thinking and writing. It focuses on a number of prominent Scottish themes in MacCormick's work and life and is structured around four key themes: 1) the nature and identity of a legal system; 2) sovereignty, European integration and Scottish independence; 3) the legacy of the legal and political thought of the Scottish enlightenment; and 4) the role of the academic in the Scottish public sphere.

The Origin of the Distinction of Ranks

Influential German sociologist Franz Oppenheimer invigorated the intellectual discourse of the early twentieth century with the controversial ideas he sets forth in his masterwork, The State. In it, Oppenheimer rejects the centuries-old notion of the social contract espoused by political philosophers such as John Locke. Instead, he posits that the state is a tool of oppression via which the ruling classes exert their power over less fortunate groups.

The Origin of the Distinction of Ranks; Or, an Inquiry Into the Circumstances Which Give Rise to Influence and Authority, in the Different Members of Society. by John Millar, ... the Third Edition, Corrected and Enlarged

Adam Smith's contribution to economics is well-recognised but in recent years scholars have been exploring anew the multidisciplinary nature of his works. The Adam Smith Review is a refereed annual review that provides a unique forum for interdisciplinary debate on all aspects of Adam Smith's works, his place in history, and the significance of his writings for the modern world. It is aimed at facilitating debate between scholars working across the humanities and social sciences, thus emulating the transdisciplinary reach of the Enlightenment world which Smith helped to shape. The fifth volume of the series is a special issue to commemorate the 250th anniversary of the publication of *The Theory of Moral Sentiments*. Contributors to this volume include Stephen Darwall, Fonna Forman-Barzilai, Patrick Frierson, Charles L. Griswold Jr, Ryan Patrick Hanley, Alice MacLachlan, Bence Nanay, Angelica Nuzzo, D.D. Raphael, Ian Simpson Ross, Emma Rothschild, Geoffrey Sayre-McCord, Arby Ted Siraki and Robert Urquhart, who discuss: The phenomenology of moral life Sympathy, moral judgment and the impartial spectator Issues such as aesthetics, value, honour, resentment, praise-worthiness, cosmopolitanism and religion
