

Global Rules America Britain And A Disordered World

[#global rules](#) [#disordered world](#) [#America Britain](#) [#geopolitics](#) [#world order](#)

Explore the complex interplay between established global rules and the prominent roles of America and Britain within an increasingly disordered world. This analysis delves into how these Western powers navigate and contribute to the shifting international landscape, examining the challenges to stability and the evolving nature of global governance in a turbulent era.

Highlight & Introduction

The World Bank has always been an arm of US Military: A response

Impact of US agricultural policies on global markets and developing countries.

Misunderstanding of money and balance of payments by Paul Krugman leads to flawed economic theories and discussions on de-dollarization.

US imperialism drives de-dollarization by imposing economic austerity on global countries through international monetary policies.

Impact of abandoning the gold standard on US military spending and global economy.

Neoliberalism profits from financializing assets, not producing goods/services, by privatizing infrastructure funded by loans.

Land rent and banking privileges in European economy explained by Marx in 19th century.

Impact of financial management on workers' wages and employment.

Federal Reserve increased interest rates to lower wages and unemployment, impacting banks and assets.

Challenges in modern industrialization and workforce training in a postindustrial economy.

China embraced Friedman's economic ideas to promote wealth creation and innovation, guiding beneficial enrichment.

Analysis of economic interests of left and right in imperialism, focusing on financial gain over social issues.

US manipulation in the Middle East through propaganda and military actions, controlling the region by supporting Israel.
