"Complete PET is the most authentic exam preparation course available. Each unit of the Student's Book covers one part of each PET paper and provides thorough exam practice. Grammar and vocabulary exercises target areas that cause most problems for PET candidates, based on data from the Cambridge Learner Corpus, taken from real candidate scripts. The CD-ROM provides additional exam-style practice."--Publisher's description.

The Strange Adventures of a House-boat

The history of America at sea is presented through the travels of Seabird, a carved ivory gull.

On Scene

After years of researching, building and testing many designs, Charlie Mathys has found the answers to inexpensive "Electric Propulsion for Boats." This book starts with an overview of his successes and failures. With each success Charlie moves ahead until you have an excellent understanding of electric propulsion for boats. This book delves deeply into the technical aspects of electric propulsion. However the information remains extremely easy to understand. The book will take you through each phase of the required work thoroughly, with detailed explanations for each step along the way. You will not find another book that explains all aspects of this subject so completely or in such an easily understood format. Although Charlie has limited the examples to smaller boats, the processes can easily be modified for larger vessels. If you have an interest in quiet, clean and green propulsion for your boat, this book is the perfect place to start your project

In the tradition of the preceding volumes - the first of which was published in 1964 - this work synthesizes edited documents, including correspondence, ship logs, muster rolls, orders, and newspaper accounts, that provide a comprehensive understanding of the war at sea in the spring of 1778. The editors organize this wide array of texts chronologically by theater and incorporate French, Italian, and Spanish transcriptions with English translations throughout.

Boating Life

ONE MAN BELIEVES HE CAN GAIN CONTROL OF THE MOST POWERFUL NAVAL FORCE IN THE WORLD — AND HIS ENEMY WILL NEVER KNOW! While the two superpowers are apparently relaxing under the spirit of glasnost, Nicholas Koniev, a Soviet strategic and technical genius and a Spetznaz-trained warrior, is leading a near-suicidal mission into the American submarine base of Bangor, Washington — home of the vital Trident missile subs. He appears to be using mini-sub to seed the harbor with sonar-activated mines that will deny the Tridents access to the Pacific, but appearances are deceiving. His actual mission is a one-man quest to neutralize the Trident system forever. Bernie Ryng, a seasoned Navy SEAL with a string of legendary exploits to his credit, is heading a small, elite team of SEALs and trained dolphins to reinforce the Tridents' security. A beautiful Englishwoman on a lonely island is the only human being who may be able to help Koniev escape. As Ryng closes in, Koniev alone knows that there are two prizes he's after...
