Unterricht eines alten Beamten an junge Beamte, Kandidaten und Praktikanten

The international financial crisis of 2007-08 and the ensuing scandals continue to raise important debates about the role of institutions in maintaining trust and fighting corruption, as well as in sustaining economic growth and political stability in a globalized world. This book proposes to historicize these problems by looking at the ways in which early-modern Europe responded to similar challenges brought about by the rising costs of international warfare in a period marked by the development of commercial capitalism and the rise of fiscal states. Building upon the expertise of a group of fiscal historians who are leaders in their respective fields, ten chapters successively examine how Spain, Britain, France, the Southern Low Countries, the Netherlands, Sweden and Prussia dealt with domestic conflicts arising from the business of war, especially issues of financial profit, fraud and corruption. Through

a series of case studies, this volume explores how the various European polities engaged with the transformative effects of warfare on the relationship between private and public interests, paving the way for institutional reforms and transformed ethics.

Unterricht eines alten Beamten an junge Beamte, Kandidaten und Praktikanten

This book deals with corruption and bureaucratisation in Bavaria and Prussia around 1800. The author argues that a new notion of corruption appeared in the late 18th century and became the main interpretive frame by 1800. The latter was carried especially by a younger generation of royal servants and targeted the old administrative structure, particularly patronage and both sale and inheritance of offices. In his book, he furthermore shows that the new notion of corruption was closely interrelated with the state reforms in both monarchies around 1800: The reformers used corruption charges to delegitimise the old administrative structures and, thus, cleared the way for the implementation of the new bureaucratic system. The old (corrupt) practices nevertheless did not disappear completely. It was especially patronage that survived in a different shape: Academic networks and other social innovations gained in importance, whilst kinship and origin lost their prominence for an administrative career.

The War Within

Die Entwicklungsgeschichte des Privatrechts und der Privatrechtswissenschaft ist intensiv erforscht und dokumentiert worden; das gleiche gilt für die deutsche Verfassungsgeschichte der Neuzeit. Für das Strafrecht und die Staatsrechtswissenschaft liegt wenigstens eine größere zusammenfassende Darstellung vor. Die Geschichte des öffentlichen Rechts als Wissenschaftsgeschichte ist dagegen ein Waisenkind der Rechtshistorie geblieben. Michael Stolleis legt hier nun erstmals eine eingehende Darstellung vor. Der Autor zeichnet die verschlungenen Wege nach, auf denen die Lehre des Staats- und Verwaltungsrechts den Staat der frühen Neuzeit bei seiner Entwicklung begleitete und formen half. Er fragt nach der Bedeutung des römischen Rechts für den Staat der frühen Neuzeit, nach der Geschichte der Unterweisung in Politik und nach der Entwicklung der Lehre vom guten Regiment. Die wichtigsten Juristen und ihre Werke zum öffentlichen Recht werden in eingehenden Analysen vorgestellt. Michael Stolleis untersucht dabei auch, wann und an welchen Universitäten die ersten Versuche unternommen wurden, ein eigenständiges öffentliches Recht zu entwickeln und zu lehren. Der erste Band des Werkes reicht vom 16. Jahrhundert bis zum Ende des Alten Reichs (1806). Verfassungs-, Verwaltungs- und Universitätsgeschichte werden hier mit der Geschichte von Staat, Gesellschaft und Kirche, aber auch mit der literatur- und Gelehrten-geschichte des Heiligen Römischen Reichs Deutscher Nation verwoben. So ist ein einzigartiges Panorama der Zeit der Glaubenskämpfe, von Barock und Aufklärung entstanden.

Moralische Erneuerung

This book is about authority, more precisely, about figures of authority. The editors have put together an international group of renowned scholars to discuss the emergence of modern notions of authority from different angles. Modern authority is no longer legitimated by status and social position, but rather by institutional affiliation and performance. To research the genealogy and intricacies of this kind of authority, the chapters in this volume cast a closer look at the various institutional actors on whom authority has been bestowed. The authors use a case study approach to look at the instances in which modern authority emerged, was ridiculed, contested, or even failed. Taken together, the individual contributions shed new light on the intricate relationship between the subjects and their organisations; they challenge any Whig historiography of rationalisation and modernisation, and they help us to rethink the inter-relationship between modern and even postmodern institutional arrangements on the one hand, and their subjects on the other.

The National Union Catalog, Pre-1956 Imprints

This book deals with the rules that are in force in Europe for juvenile offenders. The aim of the rules is to uphold the rights and safety of juvenile offenders subject to sanctions or measures and to promote their physical, mental and social well-being when subject to community sanctions or measures, or any form of deprivation of liberty. It is based on Recommendation Rec(2008)11 of the Committee of Ministers of the Council of Europe on the European Rules for juvenile offenders subject to sanctions or measures, which was adopted on 5 November 2008. The first part of the book contains the text of the recommendation and is followed by a commentary which explains in finer detail the rules and the points raised by the text. The final section provides an analysis of the national replies to a questionnaire related to the treatment of juvenile offenders. This work will be of interest to human rights scholars, researchers and students of law, criminology and international relations.

Geschichte des öffentlichen Rechts in Deutschland Bd. 1: Reichspublizistik und Policeywissenschaft 1600-1800

Chronicling South Africa's 2012 politics and the state of the nation, this humorous compilation by one of the country's most well-known political satirists also delves into more personal topics. From President Zuma's five million rand court case against cartoonist Zapiro to the African National Congress's court action against Brett Murray, this book exposes the South African national conscience throughout 2012.

Figures of Authority

In March 2010, Robert Menasse went to Brussels to begin researching a novel about the European Union. Instead of producing a work of fiction, however, his extended stay in Brussels resulted in *The European Courier*, a text in which he examines the European community from its beginnings in the transnational "Montanunion" (European Coal and Steel Community, 1951) to the current "financial crisis" of the European Union. In the course of his analysis, Menasse focuses on the institutional structures and forces that work to advance--or obstruct--the European project and its goal of a truly postnational European democracy. Given the internal tensions among the European Commission, the European Parliament, and the European Council, Menasse argues that what is frequently misunderstood as a financial crisis is, in fact, a political one. As Menasse claims in *The European Courier*, "Either the Europe of nation-states will perish or the project of transcending the nation-states will."

Handbuch Der Verwaltungslehre Und Des Verwaltungsrechts Mit Vergleichung Der Literatur Und Gesetzgebung Von Frankreich, England Und Deutschland

The Party Program: Essence, Principles and Goals of the NSDAP is translated from the 1943 edition of *Das Parteiprogramm: Wesen, Grundsätze und Ziele der NSDAP*. It had originally appeared in 1922 as the NSDAP's first official party publication. Softcover. 64pp.

European Rules for Juvenile Offenders Subject to Sanctions Or Measures

225 delectable recipes designed for the convection oven. Convection ovens have become increasingly popular because they cook faster and produce better results than conventional ovens. But because they work differently from standard ovens, preparing favorite recipes can prove challenging. All the recipes in *The Convection Oven Bible* are specifically developed for today's convection ovens. Some 125 brand new recipes are added to those from *The Best Convection Oven Cookbook* to create a wide array of tantalizing recipes, including: Pesto stuffed roast chicken Sirloin steak Provencal Macadamia-crusted salmon with pineapple tartar sauce Roasted beef tenderloin with peppercorn sauce Fall-off-the-bone ribs Cranberry croissant bread pudding B and B maple French toast Speedy polenta gratin Almost hot cross buns Amaretto jelly roll Overnight meringues with chocolate. The author also provides information on converting and adapting favorite recipes, menu suggestions, cookware recommendations and details on oven settings. With delicious results guaranteed every time, *The Convection Oven Bible* is indispensable for all home cooks.

Zapiro

An insightful meditation on time, relationships and identity, *The Folded Clock* is a funny, thoughtful and inquisitive diary for fans of Olivia Laing and Jenny Offill. Like many young people, Heidi Julavits kept a diary. Decades later she found her old diaries in a storage bin, and hoped to discover the early evidence of the person (and writer) she'd since become. Instead, they 'revealed me to possess the mind of a paranoid tax auditor'. Thus was born a desire to try again, to chronicle her daily life as a fortysomething woman, wife, mother and writer. The dazzling result is *The Folded Clock*, in which the diary form becomes a meditation on time and self, youth and aging, betrayal and loyalty, friendship and romance, faith and fate, marriage and family, desire and death, gossip and secrets, art and ambition. *The Folded Clock* is as playful as it is brilliant, a tour de force by one of the most gifted prose stylists in the English language.

Enraged Citizens, European Peace and Democratic Deficits

New York Apartments presents the interiors of 25 of the most elegant apartments in the city. This spectacular array of residences reflects the absolute best in New York living, from the Upper East Side and Upper West Side to Central Park South, SoHo, and TriBeCa.

The Party Program

Man up! No more feeding broccoli to the dog, or hiding your lettuce under your napkin-- It's time to get healthy and really improve your life. Want to boost your testosterone, improve sexual virility, promote prostate health, hair growth, and build muscle? *Green Foods for Men* offers 50 green easy-to-find superfoods, a green juicing and cleanse program, and a seven-day quick-start program for rapid weight loss and fast health and fitness improvements. Men's fitness expert Michael De Medeiros and registered dietician Jenny Westerkamp give you the facts along with macronutrient data of each green ingredient and an explanation for how to implement it into your healthy diet. Take the guess work out of eating healthy, man up and eat your greens. "I LOVE this book!! Perfect for guys on so many levels: it's filled with eye candy (beautiful pics of sexy veggies), the BIG payoff (why guys should bother eating these greens for better health and&€"you know [wink]) and an overall fun and snappy read (perfect for either the "I-just-want-to-know-this" or binge reader)."--David Grotto, M.S., R.D.N., L.D.N., author of *The Best Things You Can Eat* "Being a professional athlete, I am always looking for a competitive advantage. This book gave me that. My energy levels skyrocketed, allowing for a better training regimen. I'm no longer too tough to eat greens."--Tim Fugger, NFL linebacker

My Water-cure

Take your tarot reading to a higher level. With an emphasis on tarot's astrological influences and a number of detailed sample readings, *Tarot Beyond the Basics* shows the way to becoming an advanced practitioner. Here, Anthony Louis shares how-to instructions for working with reversals, number symbolism, intuition, the four elements, and the philosophical roots of tarot. Explaining astrology for tarot readers clearly and in a way that makes sense, Louis shows how to use the tarot to give powerful readings that change people's lives. The "real" tarot exists in the mind of each reader and is interlaced with his or her stories and experiences. The abundance of knowledge presented in *Tarot Beyond the Basics* is sure to make your readings come alive with meaning and significance.

The Convection Oven Bible

This book provides an overview on the major findings of a questionnaire survey of academic profession in international perspective. More than 25,000 professors and junior staff at universities and other institutions of higher education at almost 20 countries from all over the world provide information on their working situation, their views and activities. The study "The Changing Academic Profession" is the second major study of its kind, and changes of views and activities are presented through a comparison of the findings with those of the earlier study undertaken in the early 1990s. Major themes are the academics' perception of their societal and institutional environments, the views on the major tasks of teaching, research and services, their professional preferences and actual activities, their career, their perceived influence and their overall job satisfaction. Emphasis is placed on the influence of recent changes in higher education: the internationalisation and globalisation, the increasing expectation to provide evidence of the relevance of academic work, and finally the growing power of management at higher education institutions. Overall, the academics surveyed show that worldwide discourses and trends in higher education put their mark on the academic profession, but differences by country continue to be noteworthy. Academics consider themselves to be more strongly exposed to mechanism

of regulations, incentives and sanctions as well as various assessments than in the past; yet their own freedom, and responsibilities and influence shape their identity more strongly and are reflected in widespread professional satisfaction.

The Folded Clock

Straight from Trolltech, this book covers all one needs to build industrial-strength applications with Qt 3.2.x and C++--applications that run natively on Windows, Linux/UNIX, Mac OS X, and embedded Linux with no source code changes. Includes a CD with the Qt 3.2 toolset and Borland C++ compilers--including a noncommercial Qt 3.2 for Windows available nowhere else.

Münchener neueste Nachrichten

The approach to managing human resources has changed significantly in China over the last twenty-five years as its transformation from a state planned economy to a market-oriented economy continues. By adopting a broad notion of HRM, while remaining sympathetic to the strong emphasis on relationship management in the Chinese culture, Fang Lee Cooke builds on the foundations of traditional Chinese HRM practice and brings it right up to date, including analysis of currently under-explored issues such as diversity management, talent management, new pay schemes, and performance management. Including extensive first hand empirical data and pedagogical features such as vignettes, case studies, and further reading lists. This book will be of great use on upper level undergraduate, post graduate and MBA courses covering international/Chinese management and HRM as well as appealing to practitioners, students and scholars of Chinese Business, Asian Business and Human Resource Management.

New York Apartments

Over the 20th century, Morocco has become one of the world's major emigration countries. But since 2000, growing immigration and settlement of migrants from sub-Saharan Africa, the Middle East, and Europe confronts Morocco with an entirely new set of social, cultural, political and legal issues. This book explores how continued emigration and increasing immigration is transforming contemporary Moroccan society, with a particular emphasis on the way the Moroccan state is dealing with shifting migratory realities. The authors of this collective volume embark on a dialogue between theory and empirical research, showcasing how contemporary migration theories help understanding recent trends in Moroccan migration, and, vice-versa, how the specific Moroccan case enriches migration theory. This perspective helps to overcome the still predominant Western-centric research view that artificially divide the world into 'receiving' and 'sending' countries and largely disregards the dynamics of and experiences with migration in countries in the Global South. This book was previously published as a special issue of The Journal of North African Studies.

Siegfried

The book analyzes how modern portfolio theory and dynamic term structure models can be applied to government bond portfolio optimization problems. The author studies the necessary adjustments, examines the models with regard to the plausibility of their results and compares the outcomes to portfolio selection techniques used by practitioners. Both single-period and continuous-time bond portfolio optimization problems are considered.

Green Foods for Men

Book 3 of an exclusive 6-consecutive-month release Amish serial novel. In The Hope of Spring, part three of New York Times Bestselling author, Wanda E. The Discovery--A Lancaster County Saga Book 1 - Goodbye to Yesterday Book 2 - The Silence of Winter Book 3 - The Hope of Spring Book 4 - The Pieces of Summer Book 5 - A Revelation in Autumn Book 6 - A Vow for Always

Tarot Beyond the Basics

Including a section on infant care, Soranus' Gynecology represents ancient gynecological and obstetrical practice at its height. An introduction and notes by Temkin provide insight into the work's historical and scientific background.

The Changing Academic Profession

When attorney Chance and deputy sheriff Xav team up to protect a witness, will chasing bad guys be the only action?

C++ GUI Programming with Qt3

Kritik der reinen Vernunft Zweite hin und wieder verbesserte Auflage (1787) by Immanuel Kant is a rare manuscript, the original residing in some of the great libraries of the world. This book is a reproduction of that original, typed out and formatted to perfection, allowing new generations to enjoy the work. Publishers of the Valley's mission is to bring long out of print manuscripts back to life.

Human Resource Management in China

Idol worship may seem like just a curious anachronism to our modern sensibilities. The Old Testament is replete with God's commands against it and Israel's temptation to it, but the average reader of today may feel quite insulated from the whole matter. Idolatry is dismissed as ancient naiveté, the impulse of the unlearned, and a superstition that the enlightened man has outgrown. In the following pages, Michael Bunker strikes at the heart of such comfortable assumptions by demonstrating that idolatry is still as alive and malignant as ever, the difference between the ancient world and ours being only that idolatry has become more subtle and idolaters more sophisticated. Instead of having outgrown idolatry, men have nurtured and perfected it. No longer do we craft our idols out of wood and stone, leaving their obvious lifelessness to unsettle our consciences; now we give our idols the breath of life by enshrining them in unbiblical ideas, selfish values and worldly assumptions. Idolatry has always been a matter of the heart; the external manifestations merely change with the times and fall in and out of fashion. The purpose of this present volume is to expose and tear down the subtle idols of the heart that have been enshrined all around us and within us.

Revisiting Moroccan Migrations

Focuses on the ongoing negotiations of professional autonomy and managerial discretion and provides insight into the broad restructuring of faculty, with conclusions that extend beyond unionized faculty to all of academe.

American Military Government in Germany

After more than four decades and scores of books, documentaries, and films on the subject, what more can be said about the assassination of President John F. Kennedy? A great deal, according to the author. This provocative, rigorously researched book presents evidence and compelling arguments that will make you rethink the entire sequence of terrible events on that traumatic day in Dallas. Drawing on his fifteen years of experience as an experimental physicist for the US Navy, the author demonstrates that the commonly accepted view of the assassination is fundamentally flawed from a scientific perspective. The physics behind lone-gunmen theories is not only wrong, says Chambers, but frankly impossible. This is the first book to: identify the second murder weapon, prove the locations of the assassins, and demonstrate multiple shooters with scientific certainty. It concludes with a persuasive chapter on why this horrible event, now almost half a century old, should still matter to us today. Originally published as a hardcover in 2010, this paperback edition contains a new preface and postscript in which the author addresses some interesting developments since the book was first published as well as the fiftieth anniversary of the assassination. For anyone seeking a fresh understanding of the JFK assassination, this is an indispensable book.

The Little, Brown Compact Handbook

Every portrait has something behind the subject - and while that background is not the focus of the image, it's a factor that can make or break the shot. In Backdrops and Backgrounds, Ryan Klos takes readers through the full range of options. For studio shoots, he outlines how to select, care for, position and light a wide range of backdrops. For location shoots, Klos covers the selection, modification

and lighting of backdrops in urban, residential, rural and park settings. Readers will learn essential techniques to capturing the perfect portrait.

Bond Portfolio Optimization

The Hope of Spring
