ENGLISH LANGUAGE LABORATORIES

Doing business nowadays often means globally, whether with clients, customers, or business partners. Communicating your message effectively—online or in person—has become a must. If you want the best outcome, you must serve the growing need for cultural training that links awareness to action. “A masterclass in authentic global communication. Full of specific frameworks and actionable tips, it is a must-read for anyone looking to bolster or refine their professional communication toolkit.”—Elizabeth Owens Skidmore, Sponsorship Specialist, Bell Canada In our increasingly interconnected world, effective communication is the formula for success in any industry. Whether you're speaking in public, writing an email, or navigating an important negotiation, how you present yourself through language is all-important in today's global business world. In *How to Communicate Effectively with Anyone, Anywhere*, two New York University professors reveal a new approach to global communication across key performance areas, including effective emailing, public speaking, and negotiation. *How to Communicate Effectively with Anyone, Anywhere*, with key illustrations, is part instructional text, part empowering workbook, containing practical and proven strategies that can be put to immediate use, along with exercises designed to impart valuable self-discovery and position you as an effective global communicator. You will gain not only the practical skills essential for operating across cultural settings but also a firm foundation for managing global transactions, international relationships, and worldwide innovation. We all know how to email, right? But contacting counterparts in China, Brazil, or Germany with success requires us to upgrade our skills with key strategies for an expanded and productive network of global interaction. Each chapter contains a practical, easy-to-implement framework that functions as a “blueprint” for global communication and how each skill can best be used virtually in remote work scenarios. For professionals looking to take their skill set to the next level, this book's approach is the key to connecting professional skills to a larger practice of global understanding, ultimately leading to you communicating effectively and impactfully with anyone, anytime, and anywhere.

Communicating in Business

This review describes accountability arrangements to combat corruption in the infrastructure sector. The sustainability of the livelihoods of the poor in low- and middle-income countries is compromised by corruption in the delivery of infrastructure services. Such services include water supply, sanitation, drainage, the provision of access roads and paving, transport, solid waste management, street lighting and community buildings. For this reason, The Water, Engineering Development Centre, (WEDC) at Loughborough University in the UK is conducting research into anti-corruption initiatives in this area of infrastructure services delivery. This series of reports has been produced as part of a project entitled Accountability Arrangements to Combat Corruption, which was initially funded by the Department for International Development (DFID) of the British Government. The purpose of the work is to improve governance through the use of accountability arrangements to combat corruption in the delivery of infrastructure services. These findings, reviews, country case studies, case surveys and practical tools provide evidence of how anti-corruption initiatives in infrastructure delivery can contribute to the improvement of the lives of the urban poor. The main objective of the research is the analysis of corruption in infrastructure delivery. This includes a review of accountability initiatives in infrastructure delivery and the nature of the impact of greater accountability.

Start With Why

NATIONAL BESTSELLER A charmingly relatable and wise memoir-in-essays by acclaimed writer and bookseller Mary Laura Philpott, “the modern day reincarnation of...Nora Ephron, Erma Bombeck, Jean Kerr, and Laurie Colwin—all rolled into one” (The Washington Post), about what happened after she checked off all the boxes on a successful life’s to-do list and realized she might need to reinvent the list—and herself. Mary Laura Philpott thought she’d cracked the code: Always be right, and you’ll always be happy. But once she’d completed her life’s to-do list (job, spouse, house, babies—check!), she found that instead of feeling content and successful, she felt anxious. Lost. Stuck in a daily grind of overflowing calendars, grueling small talk, and sprawling traffic. She’d done everything “right” but still felt all wrong. What’s the worse failure, she wondered: smiling and staying the course, or blowing it all up and running away? And are those the only options? Taking on the conflicting pressures of modern adulthood, Philpott provides a “frank and funny look at what happens when, in the midst of a tidy life, there occur impossible-to-ignore tugs toward creativity, meaning, and the possibility of something more” (Southern Living). She offers up her own stories to show that identity crises don’t happen just once or only at midlife and reassures us that small, recurring personal re-inventions are both normal and necessary. Most of all, in this “warm embrace of a life lived imperfectly” (Esquire), Philpott shows that when you stop feeling satisfied with your life, you don’t have to burn it all down. You can call upon your many selves to figure out who you are, who you’re not, and where you belong. Who among us isn’t trying to do that? “Be forewarned that you’ll laugh out loud and cry, probably in the same essay. Philpott has a wonderful way of finding humor, even in darker moments. This is a book you’ll want to buy for yourself and every other woman you know” (Real Simple).

English365 1 Teacher's Guide

A haunting, provocative novel, *You Feel It Just Below the Ribs* is a fictional autobiography in an alternate twentieth century that chronicles one woman’s unusual life, including the price she pays to survive and the cost her choices hold for the society she is trying to save. Born at the end of the old world, Miriam grows up during *The Great Reckoning*, a sprawling, decades-long war that nearly decimates humanity

and strips her of friends and family. Devastated by grief and loneliness, she emotionally exiles herself, avoiding relationships or allegiances, and throws herself into her work—disengagement that serves her when the war finally ends, and The New Society arises. To ensure a lasting peace, The New Society forbids anything that may cause tribal loyalties, including traditional families. Suddenly, everyone must live as Miriam has chosen to—disconnected and unattached. A researcher at heart, Miriam becomes involved in implementing this detachment process. She does not know it is the beginning of a darkly sinister program that will transform this new world and the lives of everyone in it. Eventually, the harmful effects of her research become too much for Miriam, and she devises a secret plan to destroy the system from within, endangering her own life. But is her “confession” honest—or is it a fabrication riddled with lies meant to conceal the truth? A jarring and uncanny tale of loss, trauma, and the power of human connection and deception, *You Feel It Just Below the Ribs* is a portrait of a disturbing alternate world eerily within reach, and an examination of the difficult choices we must make to survive in it.

Get your message across the right way with clear communication *Message Not Received* provides the tools and techniques that make an effective writer and public speaker. Particularly on topics related to data and technology, effective communication can present a challenge in business settings. This book shows readers how those challenges can be overcome, and how to keep the message from getting lost in the face of mismatched levels of knowledge, various delivery media, and the library of jargon that too often serves as a substitute for real, meaningful language. Coverage includes idea crystallization, the rapidly changing business environment, Kurzweil's law of accelerating change, and our increasing inability to understand what we are saying to each other. Rich with visuals including diagrams, slides, graphs, charts, and infographics, this guide provides accessible information and actionable guidance toward more effectively conveying the message. Today, few professionals can ignore the tsunami of technology that permeates their lives, advancing far more rapidly than most of us can handle. As a result, too many people think that successful speaking means using buzzwords, jargon, and invented words that sound professional, but don't actually communicate meaning. This book provides a path through the noise, helping readers get their message across succinctly, efficiently, and effectively. Adapt your approach for more effective communication Learn the critical skill of crystallizing ideas Tailor your style to the method of delivery Ensure that your message is heard, understood, and internalized It doesn't matter whether you're pitching to a venture capitalist, explaining daily challenges to a non-tech manager, or speaking to hundreds of people – jargon-filled word salad uses a lot of words to say very little. Better communication requires a different approach, and *Message Not Received* gives you a roadmap to more effective speaking and writing for any audience or medium.

Communicating in Business English
