Assuming that the complex phenomena underlying the operation of the immune system may be better understood through the collaborative efforts of theorists and experimentalists viewing the same phenomena in different ways, the Sante Fe Institute and the Theoretical Division of Los Alamos National Laboratory cosponsored a workshop entitled "Theoretical Immunology." The workshop focused on themes spanning the field of immunology, with emphasis on areas where the theorists have made the most progress. This book covers the discussions at that workshop on the topics of immune surveillance, mathematical models of HIV infection, complexities of antigen-antibody systems, immune suppression and tolerance, and idiotypic networks. In each of these areas there is reason to believe that advances can be made either through interactions among experimentalists and theorists or through the critical look experimentalists and theorists will bring to bear upon one another's work.

The Ant and the Grasshopper - Ladybird Readers Level 1

Blizzard is based on John Rocco's childhood experience during the now infamous Blizzard of 1978, which brought fifty-three inches of snow to his town in Rhode Island. Told with a brief text and dynamic illustrations, the book opens with a boy's excitement upon seeing the first snowflake fall outside his classroom window. It ends with the neighborhood's immense relief upon seeing the first snowplow break through on their street. In between the boy watches his familiar landscape transform into something alien, and readers watch him transform into a hero who puts the needs of others first. John uses an increasing amount of white space in his playful images, which include a gatefold spread of the boy's expedition to the store. This book about the wonder of a winter storm is as delicious as a mug of hot cocoa by the fire on a snowy day. Praise for *Super Hair-o* and *the Barber of Doom* "With a light, humorous touch, Rocco reveals that sometimes the Kryptonite is all in your head." --Publishers Weekly "Bold, colorful pen-and-ink illustrations burst with power from each spread in comic-book style. This story will make a feel-good impression on budding comic book/superhero fans." --School Library Journal Praise for *Blackout* "The plot line, conveyed with just a few sentences, is simple enough, but the dramatic illustrations illuminate the story...Not all young readers will have experienced a blackout, but this engaging snapshot could easily have them wishing for one." --Kirkus Reviews (starred review) "The colorful pictures work beautifully with the book's design. Rocco uses comic-strip panels and a brief text to convey the atmosphere of a lively and almost magical urban landscape. Great bedtime reading for a soft summer night." --School Library Journal (starred review) 2012 Caldecott Honor Book New York Times Notable Book Wall Street Journal Best Book of the Year Publisher's Weekly Best Book of the Year School Library Journal Best Book of the Year Kirkus Reviews Best Book of the Year -- Praise for *Fu Finds the Way* "Rocco's story flows smoothly and his illustrations are rich and appealing..." --Kirkus Reviews
