Why buy our paperbacks? Standard Font size of 10 for all books High Quality Paper Fulfilled by Amazon Expedited shipping 30 Days Money Back Guarantee BEWARE of Low-quality sellers Don't buy cheap paperbacks just to save a few dollars. Most of them use low-quality papers & binding. Their pages fall off easily. Some of them even use very small font size of 6 or less to increase their profit margin. It makes their books completely unreadable. How is this book unique? Unabridged (100% Original content) Font adjustments & biography included Illustrated About The Invisible Man by H. G. Wells The Invisible Man is a science fiction novella by H. G. Wells. Originally serialized in Pearson's Weekly in 1897, it was published as a novel the same year. The Invisible Man of the title is Griffin, a scientist who has devoted himself to research into optics and invents a way to change a body's refractive index to

that of air so that it absorbs and reflects no light and thus becomes invisible. He successfully carries out this procedure on himself, but fails in his attempt to reverse it. While its predecessors, *The Time Machine* and *The Island of Doctor Moreau*, were written using first-person narrators, Wells adopts a third-person objective point of view in *The Invisible Man*.

The Invisible Man

With an all-new illustrations, experience this classic pioneering tale of science fiction by H.G. Wells. West Sussex. A mysterious man in a long-sleeved trench coat, gloves, and a wide-brimmed hat arrives at Mr. and Mrs. Hall's inn. His face is almost entirely concealed (much like most of his personality and identity), except for a fake pink nose. He keeps to himself, working in his rooms during the day, only leaving at night. Griffin's peculiar habits quickly make him the talk of the town. After his landlady demands he pay his rent, he reveals his invisibility to her. In an altercation, the invisible man is forced out of the inn without his scientific equipment and notebooks. He sheds his clothing, but arms himself with an iron pipe. After being trailed by a stranger who accidentally pushes him into the bushes, the invisible man commits his first murder. Soon he meets Thomas Marvel and recruits him to be his assistant. But Marvel has other plans and reports Griffin to the police. Outcast and deranged, the invisible man takes shelter in the house of Dr. Kemp, a former acquaintance from medical school. There, he reveals his true identity, the origins of his invisibility, and his plot for revenge. Meanwhile, Kemp has already reported Griffin to the authorities, and tragedy ensues. Originally published in 1897, *The Invisible Man* is considered a landmark work of H.G. Wells and helped established him as the father of science fiction. Prepare to be captivated by the stunning new art by renowned illustrator, Howie Green, in this handsome new edition of a time-honored tale.

The Strange Man's ArrivalThe stranger came early in February, one wintry day, through a biting wind and a driving snow, the last snowfall of the year, over the down, walking as it seemed from Bramblehurst railway station, and carrying a little black portmanteau in his thickly gloved hand. He was wrapped up from head to foot, and the brim of his soft felt hat hid every inch of his face but the shiny tip of his nose; the snow had piled itself against his shoulders and chest, and added a white crest to the burden he carried. He staggered into the Coach and Horses, more dead than alive as it seemed, and flung his portmanteau down. "A fire," he cried, "in the name of human charity! A room and a fire!" He stamped and shook the snow from off himself in the bar, and followed Mrs. Hall into her guest parlour to strike his bargain. And with that much introduction, that and a ready acquiescence to terms and a couple of sovereigns flung upon the table, he took up his quarters in the inn.

The Invisible Man

"With his face swaddled in bandages, his eyes hidden behind dark glasses and his hands covered even indoors, Griffin - the new guest at the Coach and Horses - is at first assumed to be a shy accident victim. But the true reason for his disguise is far more chilling: he has developed a process that has made him invisible, and is locked in a struggle to discover the antidote. Forced from the village and driven to murder, he seeks the aid of his old friend Kemp. The horror of his fate has affected his mind, however - and when Kemp refuses to help, he resolves to wreak his revenge."--BOOK JACKET.

The Invisible Man

The Invisible Man is the most famous novel by the famous English writer H.G. Wells. It describes the fate of the scientist-physicist Griffin, who invented a machine that makes a person invisible. But for all the sensationalism of the discovery it concealed in itself a lot of pretty uncomfortable situations. In such situations the main hero of the novel always finds himself. The tragic story of a talented scientist who imagines himself a "superman" is distinguished by a tense, almost detective storyline and strikes a combination of psychological and everyday authenticity with the fantasy of the events taking place.

The Invisible Man by H.G. Wells. Illustrated edition

This masterpiece of science fiction is the fascinating story of Griffin, a scientist who creates a serum to render himself invisible, and his descent into madness that follows.

The Invisible Man Illustrated

The narrator begins telling his story with the claim that he is an "invisible man." His invisibility, he says, is not a physical condition--he is not literally invisible--but is rather the result of the refusal of others to see him. He says that because of his invisibility, he has been hiding from the world, living underground and stealing electricity from the Monopolated Light & Power Company. He burns 1,369 light bulbs simultaneously and listens to Louis Armstrong's "(What Did I Do to Be So) Black and Blue" on a phonograph. He says that he has gone underground in order to write the story of his life and invisibility. As a young man, in the late 1920s or early 1930s, the narrator lived in the South. Because he is a gifted public speaker, he is invited to give a speech to a group of important white men in his town. The men reward him with a briefcase containing a scholarship to a prestigious black college, but only after humiliating him by forcing him to fight in a "battle royal" in which he is pitted against other young black men, all blindfolded, in a boxing ring. After the battle royal, the white men force the youths to scramble over an electrified rug in order to snatch at fake gold coins. The narrator has a dream that night in which he imagines that his scholarship is actually a piece of paper reading "To Whom It May Concern . . . Keep This Nigger-Boy Running." Three years later, the narrator is a student at the college. He is asked to drive a wealthy white trustee of the college, Mr. Norton, around the campus. Norton talks incessantly about his daughter, then shows an undue interest in the narrative of Jim Trueblood, a poor, uneducated black man who impregnated his own daughter. After hearing this story, Norton needs a drink, and the narrator takes him to the Golden Day, a saloon and brothel that normally serves black men. A fight breaks out among a group of mentally imbalanced black veterans at the bar, and Norton passes out during the chaos. He is tended by one of the veterans, who claims to be a doctor and who taunts both Norton and the narrator for their blindness regarding race relations.

The Invisible Man is the story of a weird scientist who is forced in the hell he created for himself through his experiments. This science fiction novella was written by H. G. Wells in 1897. It was originally serialized in Pearson's Magazine, and was later published as a novel. Invisibility has always been an exciting idea among scientists. However, Wells scripted the idea onto paper and created a character, who eventually became immortal among readers. The present book brings an illustrated story of the man who struggled hard to make his dream come true and then strived harder to come out of that nightmare.

Classical Science-Fiction novel by H. G. Wells A strange-looking stranger comes to Iping Village during a blizzard. His strange movements, his dressing, the fact that his face is completely covered in bandages and that he does not take his glasses off his eyes for a moment are greeted with suspicion and sometimes hostility by the villagers. Soon, gossip about him will lead to a series of events that gradually go astray.

Herbert George Wells, better known as H. G. Wells, was an English writer best known for such science fiction novels as The Time Machine, The War of the Worlds, The Invisible Man and The Island of Doctor Moreau. He was a prolific writer of both fiction and non-fiction, and produced works in many different genres, including contemporary novels, history, and social commentary. He was also an outspoken socialist. His later works become increasingly political and didactic, and only his early science fiction novels are widely read today. Wells, along with Hugo Gernsback and Jules Verne, is sometimes referred to as "The Father of Science Fiction".

A mysterious man, Griffin, arrives at the local inn of the English village of Iping, West Sussex, during a snowstorm. The stranger wears a long-sleeved, thick coat and gloves; his face is hidden entirely by bandages except for a fake pink nose; and he wears a wide-brimmed hat. He is excessively reclusive, irascible, and unfriendly. He demands to be left alone and spends most of his time in his rooms working with a set of chemicals and laboratory apparatus, only venturing out at night. While Griffin is staying at the inn, hundreds of strange glass bottles (that he calls his luggage) arrive. Many local townspeople believe this to be very strange. He becomes the talk of the village. Meanwhile, a mysterious burglary occurs in the village. Griffin has run out of money and is trying to find a way to pay for his board and lodging. When his landlady demands that he pay his bill and quit the premises, he reveals part of his invisibility to her in a fit of pique. An attempt to apprehend the stranger is frustrated when he undresses to take advantage of his invisibility, fights off his would-be captors, and flees to the downs. There Griffin coerces a tramp, Thomas Marvel, into becoming his assistant. With Marvel, he returns to the village to recover three notebooks that contain records of his experiments. When Marvel attempts to betray the Invisible Man to the police, Griffin chases him to the seaside town of Port Burdock, threatening to kill him. Marvel escapes to a local inn and is saved by the people at the inn, but Griffin escapes. Marvel later goes to the police and tells them of this "invisible man," then requests to be locked up in a high-security jail. Griffin's furious attempt to avenge his betrayal leads to his being shot. He takes shelter in a nearby house that turns out to belong to Dr. Kemp, a former

acquaintance from medical school. To Kemp, he reveals his true identity: the Invisible Man is Griffin, a former medical student who left medicine to devote himself to optics. Griffin recounts how he invented chemicals capable of rendering bodies invisible, and, on impulse, performed the procedure on himself.

H. G. Wells: The Invisible Man

Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of "the Brotherhood"

Jazz Fish Zen

In this renowned novel by H.G. Wells, a heavily disguised man takes up residence at a rural English inn and begins performing secret experiments, leading to intense curiosity from the locals. Eventually, the mysterious man, a scientist who has discovered the key to invisibility, clashes with the villagers and progressively becomes more unhinged and dangerous as he uses his powers for self-serving purposes. Published and set at the turn of the 20th century, the book highlights the perils of unchecked scientific hubris.

Invisible Man

Hear the riveting stories of Black artists who drew--mostly covertly behind the scenes--superhero, horror, and romance comics in the early years of the industry. The life stories of each man's personal struggles and triumphs are represented as they broke through into a world formerly occupied only by whites. Using primary source material from World War II-era Black newspapers and magazines, this compelling book profiles pioneers like E.C. Stoner, a descendant of one of George Washington's slaves, who became a renowned fine artist of the Harlem Renaissance and the first Black artist to draw comic books. Perhaps more fascinating is Owen Middleton who was sentenced to life in Sing Sing. Middleton's imprisonment became a cause célèbre championed by Will Durant, which led to Middleton's release and subsequent comics career. Then there is Matt Baker, the most revered of the Black artists, whose exquisite art spotlights stunning women and men, and who drew the first groundbreaking Black comic book hero, Vooda! The book is gorgeously illustrated with rare examples of each artist's work, including full stories from mainstream comic books from rare titles like *All-Negro Comics* and *Negro Heroes*, plus unpublished artist's photos. *Invisible Men* features Ken Quattro's impeccable research and lean writing detailing the social and cultural environments that formed these extraordinary, yet invisible, men!

The Invisible Man

The Invisible Man is a science fiction novel by H. G. Wells. Originally serialized in Pearson's Weekly in 1897, it was published as a novel the same year. The Invisible Man tells the story of Griffin; a scientist who has devoted himself to research into optics and invents a way to change a body's refractive index to that of air so that it absorbs and reflects no light and thus becomes invisible. He successfully carries out this procedure on himself, but fails in his attempt to reverse it.

Invisible Men: The Trailblazing Black Artists of Comic Books

Wells, a master of science fiction, brings you this gripping tale, guaranteed to hold your attention till the very end. H. G. The Blue Grass Cook Book (Illustrated Edition)

It is not wise for a man who can get sea-sick in a rowboat on a mill-pond to attack a Japanese dinner just after a seventeen days' voyage across the Pacific. I was just that unwise, and for that reason perhaps can do but scant justice in this Land of the Rising Sun, to a soup in which floats bits of strange fishes from the vasty deep, unknown green things and an island of yellow custard; to slices of many colored raw fish, tough cocks' combs (real ones) or even to the stewed chicken which at this dinner at least had been shorn of everything except bones and tough sinews. The other day I tried it again with no better success, and now with the prospect of rice for food three times a day in the field around Port Arthur and no bread (there can be no more serious deprivation to a Southerner) I am suddenly asked to think of a Kentucky table and that turbaned mistress of the Blue Grass kitchen, a Kentucky cook!

The Greatest Works of E. F. Benson (Illustrated Edition)

This carefully edited collection has been designed and formatted to the highest digital standards and adjusted for readability on all devices. Edward Frederic Benson (1867–1940) was an English novelist, biographer, memoirist, archaeologist and short story writer, known professionally as E.F. Benson. He started his novel writing career in 1893 with the fashionably controversial Dodo, which was an instant success, and followed it with a variety of satire and romantic and supernatural melodrama. He repeated the success of Dodo, with sequels to this novel, but the greatest success came relatively late in his career with The Mapp and Lucia series consisting of six novels and two short stories. The novels feature humorous incidents in the lives of (mainly) upper-middle-class British people in the 1920s and 1930s, vying for social prestige and one-upmanship in an atmosphere of extreme cultural snobbery. Benson was also known as a writer of atmospheric, oblique, and at times humorous or satirical ghost stories.

Gone

Dynamic naturalist Michael Blencowe has travelled the globe to uncover the fascinating backstories of eleven extinct animals, which he shares with charm and insight in Gone. 'Really, really well written' – CHRIS PACKHAM Inspired by his childhood obsession with extinct species, Blencowe takes us

around the globe – from the forests of New Zealand to the ferries of Finland, from the urban sprawl of San Francisco to an inflatable crocodile on Brighton's Widewater Lagoon. Spanning five centuries, from the last sighting of New Zealand's Upland Moa to the 2012 death of the Pinta Island Giant Tortoise, Lonesome George, his memoir is peppered with the accounts of the hunters and naturalists of the past as well as revealing conversations with the custodians of these totemic animals today. Featuring striking artworks that resurrect these forgotten creatures, each chapter focuses on a different animal, revealing insights into their unique characteristics and habitats; the history of their discovery and just how and when they came to be lost to us. Blencowe inspects the only known remains of a Huia egg at Te Papa, New Zealand; views hundreds of specimens of deceased Galapagos tortoises and Xerces Blue butterflies in the California Academy of Sciences; and pays his respects to the only soft tissue remains of the Dodo in the world. Warm, wry and thought-provoking, *Gone* shows that while each extinction story is different, all can inform how we live in the future. Discover and learn from the stories of the: Great Auk. A majestic flightless seabird of the North Atlantic and the 'original penguin'. Spectacled Cormorant. The 'ludicrous bird' from the remote islands of the Bering Sea. Steller's Sea Cow. An incredible ten tonne dugong with skin as furrowed as oak bark. Upland Moa. The improbable birds and the one-time rulers of New Zealand. Huia. The unique bird with two beaks and twelve precious tail feathers. South Island Kōkako. The 'orange-wattled crow', New Zealand's elusive Grey Ghost. Xerces Blue. The gossamer-winged butterfly of the San Francisco sand dunes. Pinta Island Tortoise. The slow-moving, long-lived giant of the Galápagos Islands. Dodo. The superstar of extinction. Schomburgk's Deer. A mysterious deer from the wide floodplains of central Thailand. Ivell's Sea Anemone. A see-through sea creature known only from southern England. A modern must-read for anyone interested in protecting our earth and its incredible wildlife, *Gone* is an evocative call to conserve what we have before it is lost forever.

It took less than a hundred years of human influence in Mauritius to wipe out the Dodo. The delicate balance of nature was suddenly tipped and became a threat to the survival of the Dodo, which had reigned supreme on this island for thousands of years. For nearly two hundred years after its extinction, the Dodo was forgotten, and there were some doubts as to whether it actually lived at all. It seemed that these strange birds had only been part of the imagination and exaggeration of sailors. Today, the once remote island of Mauritius is home to over a million people of European, African, Indian and Chinese origin. It can boast of being one of the most stable democratic countries in the world and it is host to thousands of tourists who find shops full of Dodos in many forms, shapes and sizes. Yet, there is an unfortunate lack of information about this island's unique national icon. This book allows the reader to examine various eyewitness writings, drawings, paintings and skeletal remains, which depict the Dodo as it actually was, and helps us to understand how it was driven to extinction. It also traces what happened after the final demise of the bird, and how worldwide evidence was pieced together to provide a reasonable idea of how the Dodo lived and died.--Back cover.

Dodo

Uninhabited by humans, the Mascarene Islands of the Indian Ocean were once home to an extraordinary range of birds and reptiles: giant tortoises, parrots, skinks, geckos, burrowing boas, flightless rails and herons, and, most famously, dodos. But the discovery of the three isolated islands in the 1500s, and their colonization in the 1600s, led to dramatic ecological changes. The dodo became extinct on its home island of Mauritius within several decades, and over the next 150 years most native vertebrates suffered the same fate. This fascinating book provides the first full ecological history of the Mascarene Islands as well as the specific story of each extinct vertebrate, accompanied by Julian Hume's superb color illustrations.

On August 9, 2010, 33 teams from 21 countries were dispatched to search for the Lost Frogs identified by Conservation International. On their list were a host of species including, in the top ten most wanted, the Rio Pescado Stubfoot Toad, found only in Ecuador - which was to prove a triumphant rediscovery. Several months, a number of key rediscoveries - such as the Elegant Tropical Frog, last seen in 1937 and the Chalazodes Bubble-nest Frog - last seen in 1874 and two new species later, the Search for Lost Frogs had generated more than 650 news articles in 20 countries and over a billion potential viewers. Author Robin Moore was responsible for spearheading the Search for Lost Frogs and coordinating the teams. He also co-led two expeditions to Colombia and Haiti. In Colombia in search of the Mesopotamia Beaked Toad, the steamy jungles of the Choco yielded not the desired species but a brand new one - the Mr. Burns Toad, so-called because of an uncanny resemblance to the Simpsons' character; the species was selected as one of Time magazine's top ten new species of 2010. In Haiti the team found six frogs last seen 20 years before, including the Ventriloqual Frog, named for its ability to throw its voice. This fascinating new book tells the story of the expedition - its highs and lows, discoveries and failures and the campaign's ongoing work. Despite the campaign, one third of the world's amphibians remain threatened with extinction. Most of the species searched for were not found. But those that were provide a glimmer of hope. Understanding why these species have survived when many others have not should help us understand what makes these species different. In Search of Lost Frogs is a story of perseverance, disappointment, rediscovery, resilience, but ultimately of hope, written with passion and illustrated with the author's superb photographs.
