The Adventures of Jill Berrisford

Separated by years of absence, two friends meet to say goodbye to another friend after his death in the hometown of their past. Old feelings come into play while surrounded by a cloud of mystery over the death of their friend, who possessed a strange relationship with the world of wishes. Dreams and wishes are no longer confined to the imagination.

The Adventures of Jill Berrisford

This is the story of a young boy and his piano. The young boy is an autistic child with other problems as well, but has a great ability and passion for music. As he grows older life deals him many pleasures and, at the same time, as many problems. Success mingles with loneliness, while optimism and depression alternate between periods of mental aberration. The story is told by him as he sees the world through his eyes, which is different from the way that a normal person might see it. In following his point of view and by witnessing his reactions it is hoped that the reader might become more aware and develop a deeper understanding of people whom we consider to be mentally abnormal and function on a different level.

The Time of the End in the Book of Daniel

In this, the first of her adventures, Jill Berrisford is adopted by a stray cat. She soon becomes aware that the cat is not all it seems. For instance, it has something about its person belonging to a pair of small time crooks. And they are willing to do anything to get it back. Where the cat is hiding the stolen property, and what Jill and her new friend do to foil the crooks, are all revealed in this action packed adventure. Set in the tranquil village of Roxdale in the Yorkshire Dales, this story makes a good read for the young and not-so-young alike.

International Companion Encyclopedia of Children's Literature

Children's literature continues to be one of the most rapidly expanding and exciting of interdisciplinary academic studies, of interest to anyone concerned with literature, education, internationalism, childhood or culture in general. The second edition of Peter Hunt's bestselling International Companion Encyclopedia of Children's Literature offers comprehensive coverage of the subject across the world, with substantial, accessible, articles by specialists and world-ranking experts. Almost everything is here, from advanced theory to the latest practice – from bibliographical research to working with books and children with special needs. This edition has been expanded and includes over fifty new articles. All of the other articles have been updated, substantially revised or rewritten, or have revised bibliographies. New topics include Postcolonialism, Comparative Studies, Ancient Texts, Contemporary Children's Rhymes and Folklore, Contemporary Comics, War, Horror, Series Fiction, Film, Creative Writing, and 'Crossover' literature. The international section has been expanded to reflect world events,

and now includes separate articles on countries such as the Baltic states, the Czech and Slovak Republics, Iran, Korea, Mexico and Central America, Slovenia, and Taiwan.

Key Themes in Health and Social Care is a learning resource for students in health and social care. It provides an overview of foundational issues and core themes in the field and introduces key areas of debate, moving from an introductory level to in-depth discussion as the book progresses. Divided into three parts: the first part sets the scene, addressing introductory psychology and sociology, social policy, equality and diversity, skills for practice, and working with people the second part considers key themes such as the contribution of philosophy and politics; criminal justice; management of services; the relationship between place and wellbeing; research in health and social care; theories of counselling; housing and the built environment the third part looks at discrete areas of practice such as mental health; substance abuse, protection work; health promotion; disability studies; working with men; child welfare and public responsibility. Each chapter begins with an outline of the content and learning outcomes and includes reflective exercises to allow students to reflect on what they have read, review their learning and consolidate their understanding. Time-pressed readers wanting to 'dip into' the book for relevant areas can do so but, read from cover to cover, the book provides a comprehensive introduction to the key areas of contemporary health and social care practice. It will be particularly helpful for students undertaking health and social care undergraduate and foundation degrees.

The British National Bibliography

The perfect Christmas gift for the bookworm in your life. 'Beautiful and moving... It will kickstart a cascade of nostalgia for countless people' Marian Keyes When Lucy Mangan was little, stories were everything. They opened up different worlds and cast new light on this one. She was whisked away to Narnia - and Kirrin Island - and Wonderland. She ventured down rabbit holes and womble burrows into midnight gardens and chocolate factories. No wonder she only left the house for her weekly trip to the library. In Bookworm, Lucy brings the favourite characters of our collective childhoods back to life and disinters a few forgotten treasures poignantly, wittily using them to tell her own story, that of a born, and unrepentant, bookworm. 'Passionate, witty, informed, and gloriously opinionated' Jacqueline Wilson 'A deliciously nostalgic treat' Good Housekeeping 'Lucy Mangan has enough comic energy to power the National Grid' The Spectator

From the Sunday Times bestseller comes a heartwarming and uplifting story of how three women find themselves empowered by unexpected pregnancies 'Every time you discover a new Milly book, it's like finding a pot of gold' heat Three South Yorkshire friends, all on the cusp of 40, fall pregnant at the same time following a visit to an ancient fertility symbol. For Helen, it's a dream come true, although her husband is not as thrilled about it as she had hoped. Not only wrestling with painful ghosts of the past, Helen has to deal with the fact that her outwardly perfect marriage is crumbling before her eyes. For Janey, it is an unmitigated disaster as she has just been offered the career break of a life-time. And she has no idea either how it could possibly have happened, seeing as she and her ecstatic husband George were always so careful over contraception. For Elizabeth, it is mind-numbing, because she knows people like her shouldn't have children. Damaged by her dysfunctional childhood and emotionally lost, she not only has to contend with carrying a child she doubts she can ever love, but she also has to deal with the return to her life of a man whose love she must deny herself. Praise for Milly Johnson: 'A glorious, heartfelt novel' Rowan Coleman 'Absolutely loved it. Milly's writing is like getting a big hug with just the right amount of bite underneath. I was rooting for Bonnie from the start' Jane Fallon 'Bursting with warmth and joie de vivre' Jill Mansell 'Warm, optimistic and romantic' Katie Fforde

Mountaineering Literature

Barbara Annis, the world's leading corporate gender specialist, believes that men and women don't understand each other because they don't appreciate the different ways men and women relate, communicate, problem-solve, and make decisions. In this original, solutions-based book, Annis explains exactly where we differ and how to improve the way we communicate with one another. Learn of cutting-edge, scientific research into the different neurological frameworks and functions of the male and female brains and how these innate biological differences determine how we: View the world; Solve problems; Make decisions; Prioritize; Manage emotions; Deal with stress; Work in teams; and Lead.

Jill's Gymkhana

From the author of the Pegasus series comes the second book in a spellbinding fantasy series for fans of Rick Riordan and Shannon Messenger, in which Riley's return home is short-lived and full of unforeseen danger. Riley thought that her adventure was over when she arrived back home in Colorado. Although she misses her dad, she's back with her mom and brother and has caught up with her classes at school. Though Maggie, Pea, and her aunt have to hide in their basement apartment during the day, they are making the most of things and settling into their new life. But things get much more complicated when a gang of thieves plagues Riley's neighborhood and her family takes in a group of children who don't know about the Atlanteans living in the basement. To make matters worse, the Atlanteans are becoming gravely ill, and everyone starts to worry that they may not be able to survive so far from the island's magic. As tensions escalate, their only option is to return to Atlantis—and face all the enemies they made during their escape, plus a few new ones.

World-renowned experts on gender intelligence Barbara Annis and Keith Merron suggest it's time to move beyond arguments based on politics and fairness, building an economic business case for gender diversity in the workplace. Despite forty years of laws, quotas, diversity training, and legal expenses aimed toward equalizing pay, opportunities, and working conditions between the sexes, the glass ceiling remains firmly intact. For too long, companies have played the "numbers game"—attempting to tackle gender imbalance by forcing affirmative action policies and numeric standards on organizations to increase the representation of women in management. Yet, these efforts have rarely been sustained. In this groundbreaking comprehensive analysis, based on more than twenty-five years of in-depth surveys involving 100,000 men and women across dozens of Fortune 500 companies, Barbara Annis and Keith Merron provide a deeper understanding of the multiplicity of forces that have combined to create and perpetuate gender inequality. Gender Intelligence exposes common false assumptions that prevent men and women from successfully performing together at work—myths exacerbated by worn-out theories of gender blindness and sameness thinking. It shows how a small but growing number of courageous, leading-edge companies have broken through the barriers to successfully advance women, making the remarkable transformation from compliance to choice—from pressure to preference—and show how it can be done in any business. Gender Intelligence features 17 illustrations.

My Mum's Growing Down

This book uses the work of Bolognese physician and anatomist Gaspare Tagliacozzi to explore the social and cultural history of early modern surgery. It discusses how Italian and European surgeons' attitudes to health and beauty – and how patients' gender – shaped views on the public appearance of the human body. In 1597, Gaspare Tagliacozzi published a two-volume book on reconstructive surgery of the mutilated parts of the face. Studying Tagliacozzi's surgery in context corrects widespread views about the birth of plastic surgery. Through a combination of cultural history, microhistory, historical epistemology, and gender history, this book describes the practice and practitioners considered to be at the periphery of the "Scientific Revolution." Historical themes covered include the writing of individual cases, hegemonic and subaltern forms of masculinity, concepts of the natural and the artificial, emotional communities and moral economies of pain, and the historical anthropology of the culture of beauty and the face and its disfigurements. The book is essential reading for upper-level students, postgraduates, and scholars working on the history of medicine and surgery, the history of the body, and gender and cultural history. It will also appeal to those interested in the history of beauty, urban studies and the Renaissance period more generally.

The Oxford Encyclopedia of Children's Literature: Dubo-Lowr

****THE GRIPPING THRILLER PREVIOUSLY PUBLISHED AS TWO O'CLOCK BOY**** 'A fantastic debut: dark, addictive and original. I couldn't put it down' Robert Bryndza, author of *The Girl in the Ice* 'Do you want a thriller that grips from the first line? Do you want a thriller to leave you gasping for air? Connor Laird frightens people: he's intense, he's fearless, and he seems to be willing to do anything to protect himself and those he loves. He arrives in the Longacre Children's Home seemingly from nowhere, and instantly becomes hero and villain to every other child there. Thirty years later, someone is killing all of those who grew up in the Longacre, one by one. Each of them has secrets, not least investigating cop DI Ray Drake. One by one the mysteries of the past are revealed as Drake finds himself in a race against time before the killer gets to him. Who is killing to hide their secret? And can YOU guess the ending?' 'Grips from the start and never lets up' *The Times* 'Wreaks havoc with your assumptions. Hill has a hell of a career ahead of him' Alex Marwood, author of *The Wicked Girls* and *The Darkest Secret* 'A cracking debut. I can't wait to see more of Ray Drake.' Mark Billingham, #1 bestselling author of *Love Like Blood* and *In The Dark* 'Utterly gripping, packed with unforgettable characters - and SO well-written. The twists had me reeling!' Louise Voss

Children's Book Review

A world list of books in the English language.

A deadly game of cat and mouse - and the police aren't the ones doing the hunting. A gripping new serial killer thriller from the bestselling author of Cry Baby When police are called to a murder scene in the Liverpool suburbs, even the most jaded officers are disturbed by what they find. DS Nathan Cody, still bearing the scars of an undercover mission that went horrifyingly wrong, is put on the case. But the police have no leads, except the body of the bird - and the victim's missing eyes. And then the killer strikes again, and Cody realises the threat isn't to the people of Liverpool after all - it's to the police. PRAISE FOR A TAPPING AT MY DOOR 'Cody is up there with the best in every sense . . . A thrilling series opener' Weekend Sport 'A harrowing page-turner from a writer who seems to know your darkest fears. Terrific!' David Mark, bestselling author of Dark Winter 'The Liverpool setting makes for an interesting change, the characters are well drawn and the plot builds to a taut and tense conclusion. In all, a worthy addition to the annals of British detective fiction' The Sydney Morning Herald 'The best crime fiction novel I've read. It's an outstanding book, and it's one that I am going to be recommending to everybody' Book Addict Shaun 'A deliciously dark and compelling investigation . . . a well-executed thriller, with plenty of scope and a firm foundation for a projected series' Raven Crime Reads 'I was sucked in and had tears in my eyes and a lump in my throat. At other points, I just couldn't turn the pages fast enough. Jackson's writing is flawless' Rebecca Bradley, Murder Down to A Tea

Adventures of a Bystander

Peter Drucker's lively and thoughtful memoirs are now available in paperback with a new introduction by the author. He writes with wit and spirit about people he has encountered in a long and varied life, including Sigmund Freud, Henry Luce, Alfred Sloan, John L. Lewis, and Marshall McLuhan. After beginning with his childhood in Vienna during and after World War I, Drucker moves on to Europe in the 1920s and early 1930s, describing the imminent doom posed by Hitler and the Nazis. He then goes on to describe London during the 1930s, America during the New Deal era, the World War II years, and beyond. According to John Brooks of The New York Times Book Review, "Peter Drucker is at a corner cafe, delightfully regaling anyone who will listen with tales of what must be one of the more varied—and for a practitioner of such a narrow skill as that of management counseling, astonishing—of contemporary professional lives." Dorothy Rabinowitz of the Washington Post writes, "The famous are here as well as the infamous.... All are the beneficiaries, for better or for worse, of Drucker's unerring eye for psychological detail, his remorseless curiosity, and his imaginative sympathy.... Drucker's book appears in a stroke to have restored the art of the memoir and of the essay." Adventures of a Bystander reflects Drucker's vitality, infinite curiosity, and interest in people, ideas, and the forces behind them. His book is a personal and informal account of the rich life of an independent man of letters, a life that spans eight decades and two continents. It will be of interest to scholars and professionals in the business world, historians, sociologists, and admirers of Peter Drucker.

Adventures of a Bystander

After his pregnant wife is senselessly killed in a clash between the mysterious super-powered 'costumes', ex-Navy SEAL Jon Hayes fights to discover the truth about their identity and origins. For Jon Hayes, the super-powered 'costumes' are just part of ordinary life in New York City, until the day his pregnant wife Melanie is senselessly killed in a clash between Captain Light and The Jade Shade. But as Hayes struggles to come to terms with his loss, and questions for the first time who the costumes are and where they come from, the once sharp lines of his reality begin to blur... If Hayes wants to uncover the shocking truth about the figures behind the costumes, and get justice for his fallen family, he'll have to step out of the background, and stop being a bystander. File Under: Superhero Fantasy [It's Clobberin' Time | Hayes One | Panel Beater | No Capes]

Bystander 27

Eric is the new kid in seventh grade. Griffin wants to be his friend. When you're new in town, it's hard to know who to hang out with—and who to avoid. Griffin seems cool, confident, and popular. But something isn't right about Griffin. He always seems to be in the middle of bad things. And if Griffin doesn't like you, you'd better watch your back. There might be a target on it. As Eric gets drawn deeper into Griffin's dark world, he begins to see the truth about Griffin: he's a liar, a bully, a thief. Eric wants to break away, do the right thing. But in one shocking moment, he goes from being a bystander . . . to the bully's next victim. This title has Common Core connections.

"3 story paths, 37 choices, 14 endings"--Cover.

The Temptation to Do Good

In this engaging, insightful, and inspiring narrative, Hermann Simon, the world-renowned management thinker, consultant, pricing expert, entrepreneur, and leading authority on the "hidden champions" business model, highlights the influences on his remarkable journey from humble origins on a German farm to advising and sharing the stage with global leaders in industry, academia, and politics. Born in 1947 in the rural Eifel region of Western Germany, Simon's coming of age parallels that of a country struggling to come to terms with the legacy of World War II and reinvent itself as a new world power. His colorful anecdotes of a youth spent in an agricultural community that in many ways operated as it had since the Middle Ages, reflect the establishment of core values, such as trust, focus, quality, and commitment that served as an anchor against the accelerating pace of technological, economic, political, social, and cultural change in the subsequent decades. Simon takes readers on a journey through time and space, as his—and our—world transformed from isolated to connected, local to global, revealing lessons learned from the extraordinary people (from Peter Drucker to Henry Kissinger) and places he has encountered along the way, through a career that has evolved from research and education to management consulting to leadership and strategy development on a broad scale. His particular interest in the Mittelstand, or "hidden champions," the small and medium-sized companies that exemplify the German business philosophy and served as the engine of its economic revival, becomes a powerful metaphor of his own experiences in blazing new trails while staying true to one's roots. For anyone familiar with Simon's work and contributions, *Many Worlds, One Life* reveals unique insights into the man himself and the origins of his ideas on successful leadership and business strategy. But more generally, readers in any field or discipline will recognize how their own stories reflect

their ties to the past, their accomplishments in an increasingly complex environment, and, ultimately, their roads to the stars. "Hermann Simon is one of the very few people who combine a truly global mindset with strong local roots. This rare combination makes him a superb bridge-builder at a time of increasing friction in our global trading system. World-renowned management scholar, successful entrepreneur, engaged citizen - this book tells his life's amazing story in a compelling way." U. Mark Schneider, CEO, Nestlé "From the moment I met Hermann Simon, through each successive encounter, I have enjoyed increasing returns which are rare in most relationships. Hermann, please continue to open further fields of inquiry in business theory and practice, always with an eye to aligning profit, high purpose, and passion." Philip Kotler, Professor Emeritus of Marketing, Kellogg School of Management, Northwestern University "Among the politicians, officials, scholars, and entrepreneurs that Hermann Simon has close acquaintance with, it is a great honor that I am writing a letter of recommendation for this book and Dr. Simon. As a worldly renowned business manager and scholar, his wise words have always inspired and awakened business leaders (and engineers) like me. I bought the book and finished it on the spot before I left the bookstore. This book is about his life rather than his studies. This book also proves that he is a good essayist as much as he is a scholar. As you navigate into his youth in a German farmhouse, you will notice that he has always captured the details of daily life and social surroundings. It is the encounter of such details and awakening of his senses that have led him to become the pride of modern Europe's business management studies. My favorite part in his book is the chapter, 'The School of Life'. He has listed the things he has learned throughout his life and said they are 'subjective and incomplete.' As I read through his book, it felt as if I were having a cup of tea with him over family, future, health, management, leadership, time management, and other lifetime subjects. His value and love for humanity is truly special. In this book, he acknowledges that his life is divided in two: one from his Eifel village and one from the globalized world. The division of the old and the present, or the division of time and space, which usually starts from village and ends in a city, was unavoidable to anyone our age who has gone through rapid urbanization and industrialization. Such sense of separation, however, does not always lead to enlightenment. The enlightenment that he is sharing with us is the fruit of his lifetime effort. When you read his stories from his childhood to recent research and studies, you will learn the never-changing truth that 'Great discernment is cultivated rather than is born.' I also think this book will be a milestone for the younger generations who still have more road to travel." Dr. Chang Gyu Hwang, former CEO, Samsung Electronics and KT Korea Telecom "In his autobiography, Professor Hermann Simon narrates his experience of growing from the countryside to the international stage and becoming a common friend in Chinese and German economic circles. It can be said that with the impetus of globalization, his Hidden Champion Theory has been widely practiced in both Germany and China. The combination of the Hidden Champion Theory and the pragmatic development of small and medium-sized enterprises has promoted the craftsmanship, deepened international cooperation, and enriched the connotation of Sino-German economic and trade cooperation. In recent years, Sino-German pragmatic economic and trade cooperation has maintained a continuous development momentum. Both the industrial chain and the supply chain cooperation are safe and stable. In the future, we will look forward to collaborating more with the German business community to uphold multilateralism, promote trade and investment liberalization and facilitation, assist cooperation in various fields to achieve positive results, push the continuous expansion of two-way opening forward." MEI LIU Dianxun - Director General of Investment Promotion Agency of Ministry of Commerce, P.R.China

The Concept of the Corporation

This innovative collection of essays shows how linguistic diversity has inspired people across time and cultures to embark on adventurous journeys through the translation of texts. It tells the story of how ideas have travelled via the medium of translation into different languages and cultures, focusing on illustrated examples ranging from Greek papyri through illuminated manuscripts and fine early books to fantasy languages (such as J.R.R. Tolkien's Elvish), the search for a universal language and the challenges of translation in multicultural Britain. Starting with the concept of Babel itself, which illustrates the early cultural prominence of multilingualism, and with an illustration of a Mediterranean language of four millennia ago (Linear A) which still resists deciphering, it goes on to examine how languages have interacted with each other in different contexts. The book also explores the multilingual transmission of key texts in religion, science (the history of Euclid), animal fable (from Aesop in Greek to Beatrix Potter via La Fontaine, with some fascinating Southeast Asian books), fairy-tale, fantasy and translations of the great Greek epics of Homer. It is lavishly illustrated with a diverse range of material, from papyrus

fragments found at Oxyrhynchus to Esperanto handbooks to Asterix cartoons, each offering its own particular adventure into translation.

The Battle of Bunker Hill

Peter Drucker has been called the inventor of modern management. This user-friendly book helps readers grasp all of Drucker's key ideas on leadership, strategy, innovation, personal effectiveness, career development, and many other topics.

Many Worlds, One Life

Millions revere Drucker as “the father of modern management”—this is the first book to share his reflections on self-management • Based on Bruce Rosenstein's 20 years-plus study of Drucker's life and thought • Helps you construct a complete life plan through exercises, questions, and illustrative anecdotes and quotes How can we have a rich and fulfilling life? For Peter Drucker, one of the most influential thinkers of modern times, the secret was “living in more than one world”—enjoying a diverse set of interests, activities, acquaintances, and pursuits. Drucker was able to do this despite extraordinary demands on his time, and now Bruce Rosenstein shows how the man who transformed organizational management can transform the way you manage your personal and professional life. An enormously influential business author and consultant, Drucker also wrote extensively on self-development and self-management, but these writings are scattered throughout dozens of books and articles. For the first time Rosenstein brings these ideas together into a straightforward framework that guides you in building a multifaceted life and career. It's the next best thing to being mentored by Drucker himself. Rosenstein shares Drucker's advice for, first, honing in on your core competencies—developing your main talents, clarifying your values, and managing your time. With this firm foundation established he uses Drucker as both source and example to show how to enrich your life by developing parallel and second careers, making a difference in the lives of others through voluntarism and service, and using teaching and lifelong learning as complimentary ways of staying engaged and up to date. By living in more than one world you gain new insights, see your world from fresh perspectives, access ever-changing sources of inspiration and stimulation. Peter Drucker managed a varied professional life as a writer, educator, and consultant, and was deeply immersed in literature, music, and art. But he wasn't superhuman. This is a life that can be lived by anybody who has the tools and Bruce Rosenstein provides them in this thoughtful and inspiring book.

Babel

Equipped with his cheerful optimism and a pith helmet, this Odysseus in a dinghy takes you with him from the borders of north Wales to the Black Sea - 4,900 kilometers over salt and fresh water, under sail, at oars, or at the end of a tow rope - through twelve countries, 282 locks, and numerous trials and adventures, including an encounter with Balkan pirates.

Inside Drucker's Brain

Eric Jerome Dickey introduces a hit man like no other in this New York Times bestseller—the first “gritty, graphic...[and] amazing” (Booklist) novel in the Gideon series. In a wicked world of sex and violence, where the wronged demand the ultimate revenge, his is the last face the offender sees.... Gideon is more than a contract killer—he's the master of the game. Now he's got the job of a lifetime. The prize is the woman he desires and a cool million. The problem is it's just the kind of hit that can make him more enemies. Like the two beautiful strangers on Gideon's tail. Are they there to protect him or bring him down? There's one way to find out. Follow them into an underworld where killers and victims alike thrive on the darker passions of revenge and desire.

Living in More Than One World

This is a reprint of a previously published work. She was the predecessor of modern theorists on management. Almost everything written today about leadership and organizations comes from Mary Parker Follett's writings.

The Unlikely Voyage of Jack De Crow

In this book, the authors explore and discuss the development of one of the most interesting and dynamic of photographic genres. Hailed as a landmark work when it was first published in 1994,

Bystander is widely regarded by street photographers as the "bible" of street photography. It covers an incredible array of talent, from the unknowns of the late 19th century to the acknowledged masters of the 20th, such as Atget, Stieglitz, Strand, Cartier-Bresson, Brassai, Kertesz, Frank, Arbus, Winogrand, and Levitt to name just a few. In this new and fully revised edition, the story of street photography is brought up to date with a re-evaluation of some historical material, the inclusion of more contemporary photographers, and a discussion of the ongoing rise of digital photography.

Invent Radium Or I'll Pull Your Hair

First you marry a man who does not want children. He cheats and you divorce him. Then you marry the love of your life and find out he does not want to have children with you either. The three he has are more than enough. Although you always wanted to be a mother, you decide he is worth the sacrifice, expecting to have a long happy life together. But that's not what happens. This is the story of how a woman becomes childless by marriage and how it affects every aspect of her life. This is the book of my heart, the one I had to write. Ever since I realized I was not going to have children, I have felt recurring grief and an emptiness in my heart. I am different from most women, but I have found that I am not alone. There are many of us childless women, and I think it's important to share our stories about what it's like when you don't have children in a world where most girls grow up to become mothers. I hope this book offers comfort to those who are childless and understanding to those who are not. If it makes you smile here and there, even better.

Sleeping with Strangers

An all-true accidental spiritual adventure, "Roll Around Heaven" is filled with polished prose and travel-writer Maxwell's eye-opening and often humorous experiences. Her work will resonate with seekers and cynics, nature lovers and travel enthusiasts alike.

Mary Parker Follett Prophet of Management

Using simple text and illustrations, this book describes a child's first visit to an aquarium.

A Definitive Overview of Peter Drucker's Contributions to Management "Flaherty has accomplished the impossible: making a systematic thinker out of me. I am particularly impressed by his skill in balancing chronology and themes, and that over a sixty-year time span. I have learned a great deal about my work from this book." —Peter F. Drucker "Peter F. Drucker is the organizational thought leader of the twentieth century. For the sake of our economy, our community, and our society, every citizen needs to be familiar with his work. John Flaherty's book is both an intellectual adventure and a practical guide to Peter Drucker's thinking. Peter Drucker: Shaping the Managerial Mind should be in the book bag of everyone hoping to lead change or build an effective organization." —Frances Hesselbein, chairman of the board, The Peter F. Drucker Foundation for Nonprofit Management "At last! This much-needed comprehensive review of Drucker's thought will prove invaluable for those seeking a course in Drucker 101." —Sally Helgesen, author of *The Web of Inclusion: Building a New Architecture for Great Organizations* "There is no doubt that Peter Drucker is our most significant contributor to the concept of modern management. There is also no doubt that John Flaherty has produced our most significant analysis of Drucker's contributions to date. The scope of this effort is extraordinary." —Leonard A. Schlesinger, senior vice president for development and professor of sociology and public policy, Brown University To leaders, students, and admirers everywhere, he is "the father of modern management" and "the man who invented corporate America." According to *Forbes* magazine, he is still "the youngest managerial mind" after sixty prolific years of writing, lecturing, and consulting. He is Peter F. Drucker, the world's most widely read and influential thinker on business and management. While there have been several books about Peter Drucker and his life, this is the first to present a comprehensive synthesis and in-depth analysis of his works and insights on management. Drawing from over forty years as a student, follower, and friend, John E. Flaherty has created a definitive account of Drucker's managerial achievements. An expert on management himself, Flaherty provides readers with a practical overview of Drucker's most important contributions to management and business strategy. He not only captures Drucker's fundamental management concepts and ideas but also shows how these principles have current relevance for today's practitioners. For those new to Peter Drucker, this essential compendium is a crash course on his most profound discoveries on management, change, entrepreneurial endeavor, and executive effectiveness. For those who have read Drucker's extensive writings, this significant volume

offers deeper insight into his more novel and far-reaching concepts. Filled with useful summaries and checklists of key lessons, Peter Drucker: Shaping the Managerial Mind distills a lifetime of wisdom and experience for managers and students everywhere.

Childless by Marriage

The world is not what you think. Beneath skyscrapers' leering gargoyles, factories belching smoke and streets packed with the human throng lurk things we are not meant to see. Creatures dwell in the shadows and hidden places. They watch you, stalk you and prey upon your body and soul. The life you lead is a lie. Your darkest fears aren't make-believe. They're real. And now that you have glimpsed this world of darkness, there's no place to hide. The Storytelling System Rulebook is a stand-alone game for the World of Darkness, and is meant for use with Vampire: The Requiem, Werewolf: The Forsaken and Mage: The Awakening.

Roll Around Heaven

Spanning a diplomatic career of four decades, this unique memoir offers an insider's account of such pivotal events in Pakistan's history as the Tashkent Conference, the Bangladeshi war, nuclear policy, and Bhutto's rise and fall.

My First Trip to the Aquarium

"Get ready to slip on your psychic walking shoes and follow Louisa into the unseen world around us. Ramble through tales of dead relatives who insist on having the last annoying word, ghosts behaving badly, inspiring near-death experiences, and dreams foretelling the future. Along the way, you'll find comfort, laughter, and some spine-tingling moments that may have you looking over your shoulder! A great guilty pleasure for those who love reading true paranormal tales." -Concetta Bertoldi, renowned psychic medium and New York Times bestselling author of Do Dead People Watch You Shower? When Ronnie attempted suicide, his departed father rushed back to prevent it. Christine peered into her daughter's room one day to discover her child's invisible friend was real. Linda dreamed about a shoot-out at a local bar-and that may have been what saved her life the next day. This sequel to Loitering at the Gate to Eternity chronicles more than one hundred psychic tales from everyday people working in the fields of science, education, finance, entertainment, pastoral services, and more. It also highlights scientific studies into consciousness, near-death experiences, and reincarnation. When you finish reading this astonishing anthology, you may never view "reality" the same way again.

Peter Drucker

This sweeping survey of the history of work, from hunter-gatherers to dotcom telecommuters, deftly compresses thousands of years of human evolution into an incisive volume. It is a book about work, about the organization and management of work, but it is also a book about people.

World of Darkness Core Rulebook

Peter Drucker was timely and inopportune at the same time. It is clear that from his continual formation there has been born a singular, and at the same time multi-faceted, philosophy, which is deliberately difficult to summarize. This book shows the lesser-known side of Peter Drucker as far as his views on his own ideas are concerned.

Memoirs of a Bystander

Danny is looking for an adventure. "Adventures are everywhere, just keep your eyes wide open Danny!" his uncle tells him. However, the chances look grim, until he finds a mysterious box. The series "The Incredible Ordinary Hero or The Brave Bystander" empowers children to step up to face various daily incidents. By following Danny and Emma's adventure, children will also become familiar with first aid measures in different situations.

Sightseeing in the Undiscovered Country

Edwardo is an ordinary boy, so sometimes he can be a bit grubby or clumsy, a bit cruel or noisy or rude. The more that he is criticised, the worse he becomes, until one day they call him 'The Horriblest Boy

in the Whole Wide World'. Just then, Edwardo's luck begins to change, and a series of chance events reveal that really he is a lovely boy, and has been all along.

The History of Work

Using a fictionalized approach, readers join a family as they explore the sand, sun, and waves at the beach for the first time. Colorful illustrations capture the vibrancy of the beach in a way that is sure to captivate beginning readers. Easy-to-follow, accessible text and a useful picture glossary aid in the development of vocabulary skills and the retention of new facts.

Managing People and Organizations

In 1911, a young Peruvian boy led an American explorer and Yale historian named Hiram Bingham into the ancient Incan citadel of Machu Picchu. Hidden amidst the breathtaking heights of the Andes, this settlement of temples, tombs and palaces was the Incas' greatest achievement. Tall, handsome, and sure of his destiny, Bingham believed that Machu Picchu was the Incas' final refuge, where they fled the Spanish Conquistadors. Bingham made Machu Picchu famous, and his dispatches from the jungle cast him as the swashbuckling hero romanticized today as a true Indiana Jones-like character. But his excavation of the site raised old specters of conquest and plunder, and met with an indigenous nationalism that changed the course of Peruvian history. Though Bingham successfully realized his dream of bringing Machu Picchu's treasure of skulls, bones and artifacts back to the United States, conflict between Yale and Peru persists through the present day over a simple question: Who owns Inca history? In this grand, sweeping narrative, Christopher Heaney takes the reader into the heart of Peru's past to relive the dramatic story of the final years of the Incan empire, the exhilarating recovery of their final cities and the thought-provoking fight over their future. Drawing on original research in untapped archives, Heaney vividly portrays both a stunning landscape and the complex history of a fascinating region that continues to inspire awe and controversy today.

The Incredible Ordinary Hero Or the Brave Bystander

A graphic novel in which a bunny, a cat, and a dog attempt to solve the mystery of what has happened to Professor Walter and his dangerous invention.

Edwardo the Horriblest Boy in the Whole Wide World

Figures in the Carpet presents a stellar roster of first-rate historians dealing seriously with a perennially important subject. The case studies and more theoretical accounts in this book amount to an unusually perceptive assessment of how 'the person' has been viewed in American history.

My First Trip to the Beach

A unique, indispensable resource for both student and scholar, this collection gathers together key material to enable readers to explore the impact of Drucker's ideas.

Cradle of Gold

Welcome to Dopeworld. Ecstasy in London, crack in Los Angeles, LSD in Tokyo, heroin in Sofia, cocaine in Medellin, bounty hunting in Manila, opium in Tehran. Get ready for your next fix. _____ Dopeworld is a bold and intoxicating journey into the world of drugs. From the cocaine farms in South America to the streets of Manila, we trace the emergence of psychoactive substances and our intimate relationship with them. With unparalleled access to drug lords, cartel leaders, street dealers and government officials, Niko Vorobyov attempts to shine a light on the dark underbelly drug world. At once a bold piece of reportage and a hugely entertaining and perverse travelogue, Dopeworld reveals how drug use is at the heart of our history, our lives, and our world. _____ With echoes of Gomorrah and Fear and Loathing in Las Vegas, Dopeworld is a brilliant and enlightening journey across the world, examining every angle of the drug war.

Harum Scarum

The work "The Allegory of the Cave," also known as the Cave Allegory or Cave Parable, is an extremely intelligent allegory with a philosophical and pedagogical intent, written by the Greek philosopher Plato. It is found in the work "The Republic" and aims to exemplify how human beings can free themselves

from the condition of darkness that imprisons them through the light of truth. It is a timeless text whose message fits perfectly into contemporary times when sectarian ideologies still permeate many societies. Furthermore, reading "The Allegory of the Cave" allows for a beneficial reflection by rescuing and presenting important philosophical values to readers.

Figures in the Carpet

"Anyone who enjoyed [the] thrilling tales of Indiana Jones will enjoy this book..." -- David A. McCormick
The Saudi king is dying, and a successor must be chosen from the next generation, the grandsons of the assassinated Abdul Aziz and the founder of the kingdom. One prince, His Royal Highness Rashid Abdul Aziz is determined to rule, but royal blood is not enough. He needs to demonstrate he is worthy of the crown. If his wife can find the first Qur'an, used by the Prophet, Prince Rashid will be the next king. The prince fears, however, that the exquisite find won't be enough. Secretly, he orders terrorists to eliminate his half-brothers and cousins. Rashid needs someone he can trust. He asks Amy Prowers, to assist his wife, Princess Hassa, on the excavation and to validate the finding. Though Amy is not an archaeologist, her aunt's private international organization, the Committee, has access to experts in the ancient city of Ubar in the Empty Quarter. Eager to help her deceased husband's friend, Prince Rashid, Amy arrives and discovers there is more at stake than ancient cultures. The kingdom is a breeding ground for a new generation of terrorists. A secret sect called the Black Princes put Amy's life at risk as she becomes a participant in her friend's quest for the Saudi throne.

In 1982, Italian financier Roberto Calvi, known as "God's Banker," was discovered hanging under London's Blackfriars Bridge. What wasn't found was the briefcase he was known to have had with him the night before, reportedly stuffed with incriminating documents, a special key, and a computer disk filled with codes, which together unlock a piece of the Vatican's troubled past. When the briefcase mysteriously reappears in the Vatican Secret Archives, Father Michael Dominic and his team-Hana, Marco, Karl, Lukas, the feisty young nun Sister Teri, and Dominic's new assistant, Ian-are up against two powerful and enigmatic organizations, Opus Deus and the ultra-secret, outlawed Masonic Lodge P2, who savagely fight for control of the briefcase and its contents. Their goal? To carry out one of the most dangerous conspiracies the Church has ever faced-all happening during an unexpected conclave to elect a new pope. From Rome, Italy, to Geneva, Switzerland, join Dominic and friends as they fend off plotters, kidnappers, and blackmailers who have threaded their way into Vatican politics for decades, in a conspiracy known as The Opus Dictum.

Alfred P. Sloan Jr. became the president of General Motors in 1923 and stepped down as its CEO in 1946. During this time, he led GM past the Ford Motor Company and on to international business triumph by virtue of his brilliant managerial practices and his insights into the new consumer economy he and GM helped to produce. Bill Gates has said that Sloan's 1964 management tome, *My Years with General Motors*, "is probably the best book to read if you want to read only one book about business." And if you want to read only one book about Sloan, that book should be historian David Farber's *Sloan Rules*. Here, for the first time, is a study of both the difficult man and the pathbreaking executive. *Sloan Rules* reveals the GM genius as not only a driven manager of men, machines, money, and markets but also a passionate and not always wise participant in the great events of his day. Sloan, for example, reviled Franklin Roosevelt and the New Deal; he firmly believed that politicians, government bureaucrats, and union leaders knew next to nothing about the workings of the new consumer economy, and he did his best to stop them from intervening in the private enterprise system. He was instrumental in transforming GM from the country's largest producer of cars into the mainstay of America's "Arsenal of Democracy" during World War II; after the war, he bet GM's future on renewed American prosperity and helped lead the country into a period of economic abundance. Through his business genius, his sometimes myopic social vision, and his vast fortune, Sloan was an architect of the corporate-dominated global society we live in today. David Farber's story of America's first corporate genius is biography of the highest order, a portrait of an extraordinarily compelling and skillful man who shaped his era and ours.

THE ALLEGORY OF THE CAVE - Plato

Fifty Key Figures in Management is a collection of biographies of fifty people who have helped to make management what it is today - through their ideas, writings and teachings, through practical example and leadership, or both. Featuring business leaders such as Henry Ford, Jack Welch and Bill Gates, all of whom were pioneers in business practice, the book also includes thinkers and consultants who have helped to redefine the way we think about management, such as Ohmae Kenichi, Fukuzawa Yukichi, Tom Peters and Charles Handy. Moreover, new and emerging aspects of management are covered through the inclusion of such cutting-edge thinkers as Arie de Geus, Max Boisot and Nonaka Ikujiro. Taken together, the fifty biographies presented here described how management emerged as a modern discipline and grew into its present form. Organization, strategy, marketing, production management, human resource management and knowledge management all come together to show how management is a multi-faceted discipline.

The Bystander

The genocide of Jewish and non-Jewish civilians perpetrated by the German regime during World War Two continues to confront scholars with elusive questions even after nearly seventy years and hundreds of studies. This multi-contributory work is a landmark publication that sees experts renowned in their field addressing these questions in light of current research. A comprehensive introduction to the history of the Holocaust, this volume has 42 chapters which add important depth to the academic study of the Holocaust, both geographically and topically. The chapters address such diverse issues as: continuities in German and European history with respect to genocide prior to 1939 the eugenic roots of Nazi anti-Semitism the response of Europe's Jewish Communities to persecution and destruction the Final Solution as the German occupation instituted it across Europe rescue and rescuer motivations the problem of prosecuting war crimes gender and Holocaust experience the persecution of non-Jewish victims the Holocaust in postwar cultural venues. This important collection will be essential reading for all those interested in the history of the Holocaust.
