Human language and animal communication - Human language and animal communication by Martin Hilpert 53,090 views 10 years ago 29 minutes - This video lecture is a part of the course 'An Introduction to English Linguistics' at the University of Neuchâtel. This is session 2, ...

Introduction to English Linguistics

What do linguists know?

Main question for this class

Mode of communication

Broadcast is directional

Rapid fading

Interchangeability • Human language users are transmitters and receivers at the same time

Complete feedback Human language transmitters hear what they are

Semanticity

Arbitrariness

Discreteness The units of human languages differ categorically from

Displacement • Human language is used to communicate things that may be remote in space and time

Openness

Tradition The conventions of language are passed down by

Duality of patterning • Human language has at least two levels of structures

Lying • Human language can be used to communicate false messages . It wasn't me

Reflexiveness • Human language can be used to communicate about anything, often even about language itself!

Learnability • Human language users can, with enough effort, learn any other human language

How do human languages differ from animal communication?
