Oracle Certified Professional Java SE 7 Programmer Exams 1Z0-804 and 1Z0-805

Oracle Certified Professional Java SE 7 Programmer Exams 1Z0-804 and 1Z0-805 is a concise, comprehensive, step-by-step, and one-stop guide for the Oracle Certified Professional Java SE 7 Programmer Exam. The first two chapters set the stage for exam preparation and let the reader get started quickly. The first chapter answers frequently asked questions about the OCPJP exam. This book assumes that the reader is already familiar with Java fundamentals which is in line with the prerequisite of having a OCAJP certification. The book sports considerable supportive material to help the reader in effective exam preparation in the form of appendices: 2 mock tests to give the reader a sense of a real-exam. An instant refresher summarizing the most important concepts (with tips on answering questions) to revise just before the exam. This book will be a delectable read for any OCPJP aspirant because of its simple language, example driven approach, and easy-to-read style. Further, given its 100% focus on the exam and helpful supportive material, this book is clearly an attractive buy to OCPJP aspirants worldwide.

Encyclopedia of Adolescence

The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence. Comprehensive in breath and textbook in depth, the Encyclopedia of Adolescence – with entries presented in easy-to-access A to Z format – serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks. By making full use of Springer's print and online flexibility, the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society. Substantively, the Encyclopedia draws from four major areas of research relating to adolescence. The first broad area includes research relating to "Self, Identity and Development in Adolescence". This area covers research relating to identity, from early adolescence through emerging adulthood; basic aspects of development (e.g., biological, cognitive, social); and foundational developmental theories. In addition, this area focuses on various types of identity: gender, sexual, civic, moral, political, racial, spiritual, religious, and so forth. The second broad area centers on "Adolescents' Social and Personal Relationships". This area of research examines the nature and influence of a variety of important relationships, including family, peer, friends, sexual and romantic as well as significant nonparental adults. The third area examines "Adolescents in Social Institutions". This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents. These major institutions include schools, religious groups, justice systems, medical fields, cultural contexts, media, legal systems, economic structures, and youth organizations. "Adolescent Mental Health" constitutes the last major area of research. This broad area of research focuses on the wide variety of human thoughts, actions, and behaviors relating to mental health, from psychopathology to thriving. Major topic examples include deviance, violence, crime, pathology (DSM), normalcy, risk, victimization, disabilities, flow, and positive youth development.

Studying at a Distance: a Guide for Students

This authoritative book has supported thousands of distance learners, providing accessible support and friendly advice for their studies. This essential guide provides practical help for anyone who is embarking on a distance learning course. Ideal for those who have not previously studied at a distance or for students returning to study after a break, it covers fundamental issues such as motivation, goal-setting, time management and coping strategies. The fourth edition includes: • How to understand the distance learning experience and what your institution expects of its distance learners • The practicalities of learning at a distance, including how to get support when you need it • Updated information on the use of new technologies in distance learning, including mobile learning • Tips and advice on doing a research project at a distance • Coverage of key study skills including reading and note-making, completing written assignments, developing critical analysis skills and avoiding plagiarism • Support for international students in understanding how to make the most of studying remotely at a UK Higher Education institution

Hallmark features of this book are the comments and advice offered by students and tutors sharing their own experiences of distance learning. It also includes comprehensive self-study activities that highlight the element of active learning that is crucial to successful studying at a distance. Studying at a Distance, 4th edition is a key resource for undergraduates and postgraduates in all open and distance learning or e-learning courses.

This book updates the information in the first two volumes of Teaching Psychology around the World, providing a current overview of teaching psychology internationally. Psychology curricula continue to become increasingly internationalised; the book includes relevant information about and research on teaching from secondary, undergraduate (baccalaureate) and post-graduate (MA, Doctoral and Post-Doctoral) psychology programs in Australia, Europe, South America, Asia, Africa and the US. It is a must-read for all instructors of psychology and university personnel engaged in building international programs, as well as psychologists and psychology students interested in the international aspects of the discipline. This book, like the earlier ones in the series, brings together current information on the teaching and practice of psychology collected by experts in the field from throughout the world.

NCLEX-RN Premier 2016 with 2 Practice Tests

This book aims to broaden the horizons of academic integrity by discussing novel practices and technologies, and the importance of student involvement in building a culture of academic integrity. Examples are the outreach efforts towards a range of non-educational organisations, the exploration and comparison of ethical policies and actions in different institutions, and the improvement of student responses in research on sensitive topics. It explores a range of scenarios and strategies adopted in different parts of the world during the COVID-19 pandemic, and addresses new technological advances for investigating types of academic misconduct that are difficult to find, including translation plagiarism, contract cheating, the usage of the proctoring systems, and the innovative use of data mining to detect cheating on on-line quizzes. The work shows how working with students is an essential part of the fight against academic misconduct. The student voice can be a powerful source of motivation for students, but educators also need to understand their perspectives, especially regarding such an important topic as academic integrity.

Teaching Psychology around the World

Specifically written with the needs of teaching assistants who are undertaking the foundation degree in mind, this book clearly explains what is expected from study in Higher Education and how this can be put into practice by including: clear definitions of the key techniques for effective university study; practical activities, handy hints and reflective questions; unique chapters that focus upon exams, essay-writing, revision, portfolios, presentations and displays; and examples based on the experiences of real teaching assistants. Assuming no previous study experience, the easy-to-use approach of this text should be key to the successful study of teaching assistants who are returning to formal academic training after many years.
