The Cultivator & Country Gentleman

I am very much aware that it is an act of extreme rashness to attempt to write an elementary book about structures. Indeed it is only when the subject is stripped of its mathematics that one begins to realize how difficult it is to pin down and describe those structural concepts which are often called 'elementary'; by which I suppose we mean 'basic' or 'fundamental'. Some of the omissions and oversimplifications are intentional but no doubt some of them are due to my own brute ignorance and lack of understanding of the subject. Although this volume is more or less a sequel to *The New Science of Strong Materials* it can be read as an entirely separate book in its own right. For this reason a certain amount of repetition has been unavoidable in the earlier chapters. I have to thank a great many people for factual information, suggestions and for stimulating and sometimes heated discussions. Among the living, my colleagues at Reading University have been generous with help, notably Professor W. D. Biggs (Professor of Building Technology), Dr Richard Chaplin, Dr Giorgio Jeronimidis, Dr Julian Vincent and Dr Henry Blyth; Professor Anthony Flew, Professor of Philosophy, made useful suggestions about the last chapter. I am also grateful to Mr John Bartlett, Consultant Neurosurgeon at the Brook Hospital. Professor T. P. Hughes of the University of the West Indies has been helpful about rockets and many other things besides. My secretary, Mrs Jean Collins, was a great help in times of trouble. Mrs Nethercot of Vogue was kind to me about dressmaking. Mr Gerald Leach and also many of the editorial staff of Penguins have exercised their accustomed patience and helpfulness. Among the dead, I owe a great deal to Dr Mark Pryor - lately of Trinity College, Cambridge - especially for discussions about biomechanics which extended over a period of nearly thirty years. Lastly, for reasons which must surely be obvious, I owe a humble oblation to Herodotus, once a citizen of Halicarnassus.

Here are the stories of the people who made country music into such an integral part of our nation's culture. This groundbreaking work, now updated, is the definitive chronicle of the sweeping drama of the country music experience." —Chet Flippo, former editorial director, CMT: Country Music Television and CMT.com "Country Music USA is the definitive history of country music and of the artists who shaped its fascinating worlds." —William Ferris, University of North Carolina at Chapel Hill, former chairman of the National Endowment for the Humanities and coeditor of the Encyclopedia of Southern Culture Since its first publication in 1968, Bill C. Malone's Country Music USA has won universal acclaim as the definitive history of American country music. Starting with the music's folk roots in the rural South, it traces country music from the early days of radio into the twenty-first century. In this fiftieth-anniversary edition, Malone, the featured historian in Ken Burns's 2019 documentary on country music, has revised every chapter to offer new information and fresh insights. Coauthor Tracey Laird tracks developments in country music in the new millennium, exploring the relationship between the current music scene and the traditions from which it emerged.
