The Sumerian Sacred Marriage was a pivotal ancient Mesopotamian ritual, symbolizing the divine union between the king (representing Dummuji) and a high priestess (representing the goddess Inanna). This sacred ceremony was believed to guarantee the fertility of the land, the prosperity of the people, and the well-being of the entire Sumerian civilization, reinforcing the divine legitimacy of the monarch and ensuring bountiful harvests and flourishing livestock.

The Sumerian Sacred Marriage in the Light of Comparative Evidence

The primary purpose of this study is to increase understanding of Sumerian sacred marriage by approaching it from a comparative perspective. More generally, it is hoped that the study will illustrate the fruitfulness of the comparative approach for the study of Sumerian religion and royal ideology and that it will prove useful to the other fields of study whose sources were used as the comparative evidence. The comparative evidence includes sources from six different fields of study: Assyriology (first and second millennium love lyrics and rituals), Biblical studies (The Song of Songs), Classics (Graeco-Roman philosophies, Chaldean Oracles), Gnostic studies, Jewish mysticism (Kabbalah) and Indology (Hindu rites and myths). Ancient Egyptian and Ugaritic evidence is also used. Part One of the study presents and analyzes the primary evidence for the Sumerian sacred marriage, starting with the Sumerian love song corpus, also known as the Dumuzi-Inanna (DI) love songs. In addition to the love song corpus, the evidence discussed in Part One includes second millennium literary texts and royal inscriptions referring to a marital relationship between the ruling king and Inanna/Istar. Part Two analyzes and discusses the constituent elements of the Sumerian sacred marriage (the actors of the marriage, and the timing and scene of the related ritual). At this point, some comparison with the parallel material is inevitable. Part Three presents the comparative evidence and a detailed analysis of the thematic elements shared by the different traditions. This section also includes a discussion of the concept of the soul in Mesopotamia and in other parts of the ancient world. Concepts of the Netherworld and afterlife in Mesopotamia are also examined.

The Sacred Marriage Rite

The title of this volume, *Sacred Marriages*, consciously plays with the traditional concept of sacred marriage, but the plural form, “sacred marriages,” gives the reader an idea that something more is at stake here than a monomaniacal idea of manifestations deriving from a single prototype. Following the guidelines of one of the contributors, Ruben Zimmermann, the editors tentatively define “sacred marriage” as a “real or symbolic union of two complementary entities, imagined as gendered, in a religious context.” “Sacred marriages” (plural), then, refers to various expressions of this kind of union in different cultures that seek to overcome, to cite Zimmermann again, “the great dualism of human and cosmic existence.” The subtitle indicates that the contributors are primarily interested in different aspects of the divine-human sexual metaphor—that is, the imagining and reenactment of a

gendered relationship between the human and divine worlds. This metaphor, which is essentially about relationship rather than sexual acts, can find textual, ritual, mythical, and social expressions in different times and places. Indeed, the sacred marriage ritual itself should be considered not a manifestation of the “sacralized power of sexuality experienced in sexual intercourse” but one way of objectifying the divine-human sexual metaphor.

Women in the Ancient Near East

A fascinating look at ancient Middle Eastern religious belief and practice

An Introduction to Ancient Mesopotamian Religion

Literature begins at Sumer, we may say. Given that this ancient crossroads of tin and copper produced not only bronze and the entire Bronze Age, but also by necessity, the first system of record-keeping and the technique of writing. Scribal schools served to propagate the new technique and their curriculum grew to create, preserve and transmit all manner of creative poetry. In a lifetime of research, the author has studied multiple aspects of this most ancient literary oeuvre, including such questions as chronology and bilingualism, as well as contributing fundamental insights into specific genres such as proverbs, letter-prayers and lamentations. In addition, he has drawn conclusions for the comparative or contextual approach to biblical literature. His studies, widely scattered in diverse publications for nearly fifty years, are here assembled in convenient one-volume format, made more user-friendly by extensive cross-references and indices.

Sacred Marriage in the Rituals of Greek Religion

Inanna was the great goddess of the Sumerians, a people who lived 5000 year ago in the place we know today as Iraq where was created the first urban civilization in human history. Inanna, the goddess of sexual love and connected with the planet Venus was responsible for the fertility of the land and the

later goddesses, the Greek Aphrodite and the Roman Venus adopted many aspects of Inanna. The kings worshipped Inanna and celebrated with her the Sacred Marriage rite, but they also needed her help during the many wars they were waging, which gave Inanna the aspects of a warrior goddess. As love goddess Inanna had a passionate love life and her great love was the shepherd Dumuzi, not a god, but a mortal human who wandered about the steppe with his cattle. The peasants sang love songs about Inanna and Dumuzi during the many feasts of the successive agricultural seasons, believing that their love affair stimulated the fertility of the crops and the fecundity of the livestock. But their idyll was not to last for long as Dumuzi was gruesomely murdered. The answer to the question of who killed Dumuzi and why, is hidden deep in the history of the ancient agrarian communities. The Sumerians wrote their texts on clay tablets that once dried could be preserved until our own day and thanks to this miraculous piece of luck we can cognize of a number of magnificent hymns and myths written about Inanna. These archaic texts call up human emotions that find an answering response in the hearts of people today and are still capable of moving us deeply. In this book the myths are told against the background of Sumerian civilization and various aspects of society from this time are also discussed, such as convent life, divine kingship and funeral rites. One aspect of the funeral rites was The Great Wailing, a rite in which Inanna had an important role and which appears to have been performed in many countries around the Mediterranean in the Bronze Age and has left traces even in the Old and New Testament. Henriette Broekema's book makes the complex character and history of goddess Inanna accessible to the ordinary reader and based on the texts from that time, in twenty six richly illustrated chapters, she succeeds in bringing the astonishing world of the goddess Inanna to life. Around 2,300 BC Enheduanna was high priestess to the moon god Nanna at his temple in Ur, a position she held for almost forty years. This volume translates Enheduanna's three devotional poems to the goddess Inanna accompanied by an extensive commentary and discussion which places these highly personal and unique expressions within the context of Sumerian culture and religion. The author highlights the importance of the poems and the princess for our understanding of the place of women in Near Eastern society and religion.

Inanna, Lady of Largest Heart

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history

of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal

The Sumerians

In his commentary on Hosea, H. W. Wolff proposed that the divine marriage metaphor is the central metaphor of the entire OT. In Hebrew prophetic books, the metaphor reflected the covenantal relationship between Yahweh and his people. No other metaphor reached as deeply into the heart of this relationship or better described the tragedy of a broken relationship between Yahweh and his people. No other metaphor expressed more fully the abundance of God's grace shown in the promise of covenant restoration and renewal in the eschaton. In this volume, Polish Reformed academic Sebastian Smolarz demonstrates that the divine marriage metaphor is also one of the leading NT metaphors used to describe God's restored covenant relationship with his people, especially in the Book of Revelation. Smolarz argues for continuity between OT and NT concepts and theologies in general, and for continuity between the Apocalypse and OT material in particular, showing that the Apocalypse has much in common with other parts of the NT. In doing so, he focuses on some Gospel parables and reads them against their OT background. He also examines instances of the divine marriage metaphor in Paul's theological reflections. The focus of Smolarz' volume is a covenantal reading of the Apocalypse. He argues that the metaphor helps to establish the Apocalypse's *Sitz im Leben*, which he relates to the main conflict between the faithful and the unfaithful within the people of God in the first century CE. His work establishes that the Apocalypse contains not only explicit instances, but also implicit references and many echoes of this covenantal metaphor.

Covenant and the Metaphor of Divine Marriage in Biblical Thought

This book offers a revolutionary new synthesis of ancient history and religion by bridging the gap between the archaeology of Mesopotamia (now the country of Iraq) and the biblical account of Genesis. Professor Alan Dickin shows how the Sumerians, the ancient inhabitants of Mesopotamia, established the world's first organized religion, which was a direct fore-runner of the Judeo-Christian faith. He places the biblical accounts of the Creation, Fall, Flood, and Tower of Babel in their historical context in ancient Mesopotamia, and identifies the origins of the biblical Trinity in the Sumerian pantheon. Finally, he explores the manner of God's first revelations to mankind and the meaning of the lost secrets of the Garden of Eden. Over seventy line drawings of ancient artifacts, in addition to maps and historical tables, bring the civilization and religion of ancient Mesopotamia to life for a modern audience.

Pagan Trinity - Holy Trinity

"[Volume] is a collection of all the sources, published and unpublished, dealing with the love, courtship and sacred marriage of the Mesopotamian love-goddess Inanna (Ishtar) and her divine spouse Dumuzi (Tammuz). This literary corpus composed during the Third Dynasty of Ur and the early Old Babylonian period (ca. 2100-1800 BCE) consist of 27 songs with approximately 1500 lines of poetry"--Jacket.

Love Songs in Sumerian Literature

Samuel Noah Kramer is the leading authority on the interpretation and reading of civilization's oldest literature. His life and life's work are so thoroughly intertwined that his autobiography is also the story of the recovery of the language and literature of the Sumerians. From young Talmudist to the patriarch of Sumerology, Kramer recounts his long and distinguished career. Writing for the non-specialist, he paints a panoramic view of Sumerian literature and provides thumbnail sketches of the individuals with whom he collaborated.

In the World of Sumer

Among maternal deities of the Greek pantheon, the Mother of the Gods was a paradox. She is variously described as a devoted mother, a chaste wife, an impassioned lover, and a virgin daughter; she is said to be both foreign and familiar to the Greeks. In this erudite and absorbing study, Mark Munn examines how the cult of Mother of the Gods came from Phrygia and Lydia, where she was the mother of tyrants, to Athens, where she protected the laws of the Athenian democracy. Analyzing the divergence of Greek and Asiatic culture at the beginning of the classical era, Munn describes how Kybebe, the Lydian goddess who signified fertility and sovereignty, assumed a different aspect to the Greeks when Lydia became part of the Persian empire. Conflict and resolution were played out symbolically, he shows, and the goddess of Lydian tyranny was eventually accepted by the Athenians as the Mother of the Gods, and as a symbol of their own sovereignty. This book elegantly illustrates how ancient divinities were not static types, but rather expressions of cultural systems that responded to historical change. Presenting a new perspective on the context in which the Homeric and Hesiodic epics were composed, Munn traces the transformation of the Asiatic deity who was the goddess of Sacred Marriage among the Assyrians and Babylonians, equivalent to Ishtar. Among the Lydians, she was the bride to tyrants and the mother of tyrants. To the Greeks, she was Aphrodite. An original and compelling consideration of the relations between the Greeks and the dominant powers of western Asia, *The Mother of the Gods, Athens, and the Tyranny of Asia* is the first thorough examination of the way that religious cult practice and thought influenced political activities during and after the sixth and fifth centuries B.C.

The Mother of the Gods, Athens, and the Tyranny of Asia

Examining the evolution of kingship in the Ancient Near East from the time of the Sumerians to the rise of the Seleucids in Babylon, this book argues that the Sumerian emphasis on the divine favour that the fertility goddess and the Sun god bestowed upon the king should be understood metaphorically from the start and that these metaphors survived in later historical periods, through popular literature including the Epic of Gilgameš and the Enuma Eliš. The author's research shows that from the earliest times Near Eastern kings and their scribes adapted these metaphors to promote royal legitimacy in accordance with legendary exempla that highlighted the role of the king as the establisher of order and civilization. As another Gilgameš and, later, as a pious servant of Marduk, the king renewed divine favour for his subjects, enabling them to share the 'Garden of the Gods'. Seleucus and Antiochus found these cultural ideas, as they had evolved in the first millennium BCE, extremely useful in their efforts to establish their dynasty at Babylon. Far from playing down cultural differences, the book considers the ideological agendas of ancient Near Eastern empires as having been shaped mainly by class — rather than race-minded elites.

In the Garden of the Gods

This introduction to the Ancient Near East includes coverage of Egypt and a balance of political, social, and cultural coverage. Organized by the periods, kingdoms, and empires generally used in Near Eastern political history, the text interlaces social and cultural history with the political narrative. This combination allows students to get a rounded introduction to the subject of Ancient Near Eastern history. An emphasis on problems and areas of uncertainty helps students understand how evidence is used to create interpretations and allows them to realize that several different interpretations of the same evidence are possible. This introduction to the Ancient Near East includes coverage of Egypt and a balance of political, social, and cultural coverage.

The Installation of Baal's High Priestess at Emar: A Window on Ancient Syrian Religion

In this volume the presupposition is investigated whether women in a polytheistic society had a better position than women in a monotheistic society. To this end the social and religious position of women in Ugarit according to its literary texts is compared to that of women in Israel according to the Hebrew Bible, while the wider context of the ancient Near East is also taken into consideration. After an overview of feminist biblical exegesis, the book discusses the roles of women in the family and in society. It also provides an analysis of the roles of women as religious specialists and as worshippers. Finally, the data on the position of women in the literary texts is compared to that in non-literary texts.

Starf*cker: The Catastrophic Conjunction of Venus and Mars

This second volume of a two-part collection of studies on inconsistencies in Greek and Roman religion focuses on the ambiguities in myth and ritual of transition and reversal.

This is the first and only scholarly book to date on George Rochberg (b. 1918), the pre-eminent post-WWII American composer and essayist. It was compiled with his assistance and gathers into one volume previously scattered and hard-to-find material by and about the composer. Included are traditional types of scholarly information on Rochberg, e.g., his WORKS (date of composition, publisher, timing, commission, premiere, instrumentation, program notes by the composer, etc.), DISCOGRAPHY, BIOGRAPHY (a chronological listing of his compositions and the major events of his life), AUTOGRAPH MANUSCRIPTS & DOCUMENTS (housed in public collections/libraries), TEXTS (used in the works with voice), and BIBLIOGRAPHY (books, articles, and reviews by and about Rochberg). This is an essential guide for any performer, scholar, critic, or student of George Rochberg's music.

Inconsistencies in Greek and Roman Religion

"... No one can plausibly deny that the religious development of the peoples of Canaan (and indeed of all the ancient world around the eastern Mediterranean to the Indus river) were affected by the cultural and religious developments in Mesopotamia, the centre of the region, and a fertile region second to none known in the world, on a par with the Nile, around which another major civilization arose. This is a text of history of Mesopotamia in its own right. By the time history gets back this far, the lines become very blurred, rather like parallel lines intersecting on the horizon. Literature, religion, archaeology, sociology,

psychology -- all of these disciplines become intertwined in Jacobsen's text as he looks at Sumerian society. The book is organized with an introduction, then according to time divisions of fourth, third, and second millennia, then concludes with an epilogue into the first millennium, during which the Bible as we know it (and most ancient history such as is commonly known occurred) came to be"--Amazon.com.

Gilgamesh

Ishtar is the first book dedicated to providing an accessible analysis of the mythology and image of this complex goddess. The polarity of her nature is reflected in her role as goddess of sexual love and war, and has made her difficult to characterise in modern scholarship. By exploring this complexity, Ishtar offers insight into Mesopotamian culture and thought, and elucidates a goddess who transcended the limits of gender, divinity and nature. It gives an accessible introduction to the Near Eastern pantheon, while also opening a pathway for comparison with the later Near Eastern and Mediterranean deities who followed her.

Gregg Braden discussing The Gospel of Thomas

If you do not fast from the world, you will not find the (Father's) domain.

His disciples said to him, "When will the kingdom come?"
