## Animal Kingdom

These arresting studio portraits capture the beauty, power, and even humor of 150 furry and feathered species - a delight for any animal or bird lover. Acclaimed photographer Randal Ford celebrates our fascination with and love of animals through his engaging portraits of the animal kingdom. A young male lion cub seems to sport a rebellious mohawk; a chimpanzee adopts a pensive pose; a curious duckling cocks his head at the camera lens and flaps his wings. The featured animals cover a wide range, from birds such as the African crane, cockatoos, flamingos, and roosters, to big cats such as tigers, cheetahs, and leopards, to Arabian horses, bulls, and Longhorn sheep, among many others. Bird and animal lovers will be drawn to the powerful and emotionally engaging images that seem to reveal the individual character of the other animals that share the Earth with us. Elegantly designed and packaged, this book will be the perfect gift and addition to the home of any lover of animals or fine photography.

## Good Dog

Whether a rescue or a show dog, a pedigree or a mutt, you can't help falling in love with Randal Ford's dog portraits, as each evokes the unparalleled bond we feel for our greatest companions. Good Dog captures the warmth, humor, and unconditional love that is at the heart of every dog. From mutts beaming with charisma and charm to show dogs exuding grace and elegance, Ford's 150 dog portraits bring out the dog lover in all of us. With a compelling essay by W. Bruce Cameron, this warm, tender, playful, and heartfelt collection of dog portraits gives us a beautiful look into the lives of our most cherished companions. Proceeds from the sale of this book will benefit Emancipet. Since 1999, Emancipet has been on a mission to make veterinary care affordable and accessible for everyone. ### Allowed to Grow Old

There's nothing quite like a relationship with an aged pet—a dog or cat who has been at our side for years, forming an ineffable bond. Pampered pets, however, are a rarity among animals who have been domesticated. Farm animals, for example, are usually slaughtered before their first birthday. We never stop to think about it, but the typical images we see of cows, chickens, pigs, and the like are of young animals. What would we see if they were allowed to grow old? Isa Leshko shows us, brilliantly, with this collection of portraits. To create these portraits, she spent hours with her subjects, gaining their trust and putting them at ease. The resulting images reveal the unique personality of each animal. It's impossible to look away from the animals in these images as they unforgettably meet our gaze, simultaneously calm and challenging. In these photographs we see the cumulative effects of the hardships of industrialized farm life, but also the healing that time can bring, and the dignity that can emerge when farm animals are allowed to age on their own terms. Each portrait is accompanied by a brief biographical note about its subject, and the book is rounded out with essays that explore the history of animal photography, the place of beauty in activist art, and much more. Open this book to any page. Meet Teresa, a thirteen-year-old Yorkshire Pig, or Melvin, an eleven-year-old Angora Goat, or Tom, a seven-year-old Broad Breasted White Turkey. You'll never forget them.

### Farm Animal Portraits

This is the first comprehensive study of an exceptional period in livestock experimentation and of the social and economic aspirations which led to the commissioning of these paintings. Over four hundred illustrations (325 in full colour) provide a unique record of rare or extinct animals which once grazed these lands. This book will have a wide general appeal and will particularly attract enthusiasts of folk and primitive art as well as those whose interest is in rare and vanished breeds.

### Beautiful Goats

If you've never thought of goats as supermodels, the glamorous caprines on these pages will soon change your mind. Each professionally-photographed portrait in this book features alongside a full description of the breed, its origins, current uses, and geographical spread. A succinct introduction looks at the history of the goat as a provider of skinsmeat, and dairy—and at its increasing modern role as pet and companion, too—while a section of reportage at the back of the book shows the behind-the-scenes story of the goats who modelled for this book. From the svelte lines and sophisticated, marbled coat of the Anglo Nubian and the neat stripes of the rare Bagot to the sweet 'n' furry little pygmy goats, Beautiful Goats is the perfect gift for goat-lovers that will have you yearning to start your own real-life collection.

### Zoo Portraits

While a fantastic cause, can the task of protecting animal rights and habitats also be fun? The answer for Spanish photographer Yago Partal is "yes!" as he joyfully embraces important environmental activism with his form of inventive entertainment. His aim is to increase our awareness of animals who need

protection - from the Amur leopard to the plains zebra - with his Zoo Portraits project, which launched in 2013. The project presents animals in anthropomorphized form, wearing clothing and accessories that echo the animal's temperament and preferred habitat. It is not Partal's intention to create distance or make light of the animals, but rather to make people think and nudge them to get involved in protecting animals via pictures, education, and awareness. Mission accomplished: Yago Partal's wonderful animal portraits have found a huge audience, with media like CBS and the Daily Mail reporting enthusiastically on the phenomenon. Beautiful, functional products including iPhone cases and even clothes hangers are available for purchase under the Zoo Portraits label. Ten percent of all proceeds are donated to animal welfare organisations. The book has the same objective: to make people smile as well as inform them. In addition to the unique pictures, there is information on each animal's habitat, size, and population as well as interesting and surprising facts. Presented in a clear and attractive format, this book is equally exciting for children and adults. AUTHOR: Yago Partal studied visual arts at the University of Barcelona. One of his creative projects gave him the inspiration for Zoo Portraits. With his enthusiasm for animals, cartoons, and fashion, he began experimenting with the popular anthropomorphisation of animals; the result was a cosmos of unique artworks. Yago Partal's work has been the subject of shows in Barcelona, London, Montreal, and Tokyo. His customers include world-renowned companies such as Apple and Body Shop. SELLING POINTS: \* A creative animal atlas - new, unexpected, educational \* Unique portraits of both familiar and less-known species as you've never seen them before \* Lots of fun for everyone interested in animals and anyone who wants to join the movement to help protect them 70 colour photographs

### More Than Human

Award-winning photographer Tim Flach has spent years inquiring into the essential bond we have with animals. Now he presents the culmination of a career-long endeavor, an extraordinary body of work in which each image is more striking and powerful than the last. Just as did Flach's highly acclaimed previous books, *"Equus"* and *"Dogs,"* *"More than Human"* will amaze and inspire, in a constant affirmation of the animal, whether it be rare or common, powerful or defenseless, odd or majestic. The book showcases a menagerie of creatures--pandas, tigers, bats, lions, orangutans, cobras, bullfrogs, chimpanzees, wolves, porcupines, elephants, owls, armadillos, among many others--as they have never been seen before. Shedding light on Flach's images will be an accessible collection of texts, written and edited by author Lewis Blackwell. Praise for *"More Than Human:"* "A gallery of animal portraits that are unlike anything we've seen before." --*"The Wall Street Journal"* "His technique is impeccable; this is one of the most gorgeous photography books of the year. But what makes it more than a coffee-table trifle is the way Flach's images connect us--with near-tactile sensation and soulfulness--to the creatures on display." --NPR.org "Arresting portraits that express photographer Flach's 'sense of wonderment in nature.'" --*"People"* ""Astoundingly sharp images." - *The San Francisco Chronicle*"" "Compelling and unexpected." --*"The Denver Post"* "Treat yourself to the full glory of *"More Than Human,"* for the screen hardly does it justice." --*Brain Pickings.com* "A book of animal photographs guaranteed to dazzle viewers with their color, detail, clarity and, most of all, their uncanny 'humanity.'"-- *BookPage*

### The Unchosen Ones

In 2016, award-winning Minnesota-based photographer R. J. Kern made portraits of youth contestants at Minnesota county fairs. Each participant—some as young as four years old—had spent a year raising an animal, which they had then entered into a 4-H livestock competition. None of the youths who sat for him had succeeded in winning an award, despite the obvious care they had given to their animals. *The Unchosen Ones* depicts the bloom of youth and the mettle of the kids who grow up on farms, reminding us how resilient children can be when confronted with life's inevitable disappointments. The formal qualities of the lighting and setting endow these young people with a gravitas beyond their years,

revealing self-directed dedication in some, and in others, perhaps, the pressures of traditions imposed upon them. Kern's beautiful portraits capture a particular America, a rural world, and a time in life when the layered emotions of youth are laid bare. Four years later, in 2020, Kern returned to photograph his young subjects. The most recent photographs show how the children have grown into adolescence or young adulthood: some of them have continued to pursue animal husbandry, while others have developed other interests. It is likely that some of these kids will not choose to continue running their family farms—an unpredictable and demanding way to make a living. These diptychs are punctuated by lush landscapes of the farms that are their homes. As Kern made the second group of photographs, he asked his young subjects what they had carried forward from their previous experience. What were their thoughts, their dreams, and their goals for the future? How would they fit into the future of agricultural America?
