Excerpt from *Country Church in the South: Arranged to Meet the Needs, of Mission Study Classes and Also of the General Reader* Few books that have ever been written about the character and life of our churches are calculated to do so much good as this one. It is a book filled with a most interesting, instructive, and inspiring discussion of a vital theme. The author's diagnosis and treatment are scientific and deeply sympathetic. Where the surgeon's knife is keen and the incision is deep. The healing is antiseptic and soothing. There is no bombast nor ribaldry nor railing. It is a brother's book written about our brothers and sisters in Christ with the hope of making them more useful and more happy. Our Country Churches and Chapels

How to grow in love for your church. God calls us to be "devoted to one another in love" (Romans 12:10). What does this look like for us today? How can we be the kind of church member who makes a real difference? This engaging book by Tony Merida explores what church is, why being part of it is exciting, and why it's worthy of our love and commitment. He sets out eight privileges and responsibilities of a church member: to belong, to welcome, to gather, to care, to serve, to honour, to witness and to send. As we see how wonderful it is to belong to God's family and be a part of his amazing witness to both the earthly and the heavenly realms, we'll grow in our love for and commitment to our local church. This is a great book for every churchgoer to read, whether they're new or have been attending for some time but need re-energising with God's vision for the local church. With a discussion guide at the end of the book, *Love Your Church* is also a great resource for small groups.

How Our Church Came to Our Country

Excerpt from *Studies on the Religious Problem of Our Country: A Review of the Growth of the Church of Christ in Numbers, Wealth and Good Works, Contrasted With the Growth of Our Country in Population Wealth and Vice* The audacity which induces me to in ict these chapters on my readers was prompted by my friends who said publish, publish. Owing to my pastoral duties and my natural desire for brev ity, my discussion of the different topics may be considered inadequate. The design of this volume is simply to spur thought on the great questions herein touched upon. Every true American should be interested in the great social and religious prob lems Of our country. Love Your Church

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1913 edition. Excerpt: ... CHAPTER V THE RURAL CHURCH SERVING A COMMUNITY The subject of this chapter refers to the church in the rural community, or it may imply the task of the country church in creating a community where there is none, or the task of giving Christian leadership to a community already socially conscious, but in danger, as in some cases, of becoming pagan unless the church fulfills its function. Why are we focusing our attention to-day upon the rural life of the nation? Because it includes not only over one half (fifty-three per cent) of the population of this country, but it also represents the great resource field of the nation's wealth. It is here also we discover such splendid heroic individuality as has produced the largest percentage of moral, religious, industrial, and political leadership of all the ages; and yet at the same time we discover national waste of resources--natural, human, and spiritual--because here we find the least of community interest and cooperation. Why are we discussing so often in these days the problems of the country church? Because in many sections of our country it presents to us one of the most difficult mission fields of the world to cultivate, for the reason that, like the slums of the great cities, it is a lost home field. As one goes back to his home county in the rural sections of the Eastern, Southern, and some of the Middle Western States, what does he discover? The splendid old circuit system broken up and the fires of religious fervor gone out upon many an abandoned church and family altar, while the message of the minister in the neglected pulpit of the dilapidated church building is about as effective in creating a community spirit as the noise of a lone woodpecker on a dead tree in a swamp. Why is...

And Did Those Feet

At a time when pews are not as full as they used to be, many churches are struggling to stay open. But no matter how creative or hard-working, some congregations are unable to revitalize their ministry. Is it time to talk about closing your church? Are there any other options for your future? Toward the Better Country tells the stories of real congregations that have faced a significant downsizing, merger, or closure and found positive ways to move forward in ministry. While no local church is meant to live forever, congregations that have chosen to faithfully complete their ministry are finding hope in the new ventures born from passing on their spiritual and material legacies. Based on over thirty interviews with church leaders from various denominations, this practical resource offers guidance to lay leaders, clergy, and regional leaders as they deal with the grief and discernment process of struggling churches. Designed for group study, each chapter includes reflection questions for discussion. A listing of additional resources is also included.

The Day of the Country Church (Classic Reprint)

One Nation Under God follows the spiritual direction of our country from the time the Puritans landed in the new world up to today. Our loss of faith in God and how that loss has impacted our society is profiled. It includes quotes from some of the people that had the most influence on the growth of our once great nation and some of the people and events that have caused our nation to decline economically, socially, and morally. One Nation Under God includes many landmark court cases that have affected our way of life in the way the American people can worship the Lord in public and in private. One Nation Under God is a map of our rise to greatness and our decline to the potential oblivion of this once "light on the hill" for all the world to follow. It also is a guide on how to reclaim our greatness by turning back to God for His forgiveness and guidance. The farther away we move from God the worse our society becomes. One Nation Under God sets out to prove to the country---possibly the world---that we are a Christian nation.

Studies on the Religious Problem of Our Country

Excerpt from Six Thousand Country Churches It was with this record of practical success in the country church, supplemented by the very unusual experience as an investigator which he acquired in collecting and analyzing the material for The Country Church, that Mr. Gill approached the task whose results are here set down. The task of ascertaining with accuracy the conditions of the country church in other portions of the United States still remains. The remedies are yet to be applied. Excerpt from *Using the Resources of the Country Church* This book is a plea for greater conservation of the moral forces and Opportunities to be found in the American small community. DAY OF THE COUNTRY CHURCH

For most people in England today, the church is simply the empty building at the end of the road, visited for the first time, if at all, when dead. It offers its sacraments to a population that lives without rites of passage, and which regards the National Health Service rather than the National Church as its true spiritual guardian. In *Our Church*, Scruton argues that the Anglican Church is the forlorn trustee of an architectural and artistic inheritance that remains one of the treasures of European civilization. He contends that it is a still point in the centre of English culture and that its defining texts, the King James Bible and the Book of Common Prayer are the sources from which much of our national identity derives. At once an elegy to a vanishing world and a clarion call to recognize Anglicanism's continuing relevance, *Our Church* is a graceful and persuasive book.

One Nation Under God

A landmark illustrated history of rural church monuments - the forgotten national treasures of England and Wales Deep in the countryside, away from metropolitan abbeys and cathedrals, thousands of funerary monuments are hidden in parish churches. These artworks - medieval brasses and elegant marble effigies, stone tomb chests and grand mausoleums - are of great historical and cultural significance, but have, due to their relative inaccessibility, faded from accounts of our art history. Over twenty-five years, C. B. Newham FSA has visited and photographed more than eight thousand rural churches, cataloguing the monumental sculptures encountered on his quest. In *Country Church Monuments*, he presents 365 of the very best, each accompanied by detailed photographs, biographies of both the deceased and their sculptors and a wealth of contextual material. Many of these works commemorate famous historical figures, from scheming Tudor courtier Richard Rich to Victorian prime minister William Ewart Gladstone. But more moving are the countless others - minor aristocrats, small-time industrialists, much-loved mothers, fathers and children - who, if not for their memorials, would wholly be lost to time. As Newham blows the dust off these artworks and breathes life into the stories they tell, a new aesthetic history of rural England and Wales emerges. *Country Church Monuments* is a poignant record of the art we make at the borders of life and death, of our ceaseless human striving for eternity.
