New coloured headings to help identify content relating to disease, management, investigations etc. New icons to aid text navigation. 11 new members and a new co-editor, Senaka Rajapakse, of the International Advisory Board.

PET Testbuilder

Fully revised for the new edition, this handbook covers all significant aspects of acute and chronic paediatrics. Areas such as neonatology, surgery, genetics and congenital malformations and child protection are covered in a user-friendly and succinct style.

Kumar and Clark's Clinical Medicine

The New York Times bestselling author of Eat to Live and Super Immunity and one of the country's leading experts on preventive medicine offers a scientifically proven, practical program to prevent and reverse diabetes—without drugs. At last, a breakthrough program to combat the rising diabetes epidemic and help millions of diabetics, as well as those suffering with high blood pressure and heart disease. Joel Fuhrman, M.D. Research director of the Nutritional Research Foundation, shows you how to live a long, healthy, and happy life—disease free. He offers a complete health transformation, starting with a diet with a high nutrient-per-calorie ratio that can be adapted for individual needs. Dr.

Fuhrman makes clear that we don't have to "control" diabetes. Patients can choose to follow better nutritional guidelines that will control it for them, even before they have lost excess weight. The end result is a medical breakthrough—a comprehensive reversal of the disease.

Oxford Handbook of Paediatrics

Widely recognised as the standard text for trainee psychiatrists, the Shorter Oxford Textbook of Psychiatry stands head and shoulders above the competition. The text has been honed over five editions and displays a fluency, authority and insight which is not only rarely found but makes the process of assimilating information as smooth and enjoyable as possible. The book provides an introduction to all the clinical topics required by the trainee psychiatrist, including all the sub-specialties and major psychiatric conditions. Throughout, the authors emphasize the basic clinical skills required for the full assessment and understanding of the patient. Discussion of treatment includes not only scientific evidence, but also practical problems in the management of patients their family and social context. The text emphasizes an evidence-based approach to practice and gives full attention to ethical and legal issues. Introductory chapters focus on recognition of signs and symptoms, classification and diagnosis, psychiatric assessment, and aetiology. Further chapters deal with all the the major psychiatric syndromes as well as providing detailed coverage of pharmacological and psychological treatments. The book gives equal prominence to ICD and DSM classification - often with direct comparisons - giving the book a universal appeal. The Shorter Oxford Textbook of Psychiatry remains the most up-to-date secondary level textbook of psychiatry available, with the new edition boasting a new modern design and greater use of summary boxes, tables, and lists than ever before. The extensive bibliography has been brought up-to-date and there are targeted reading lists for each chapter. The Shorter Oxford Textbook of Psychiatry fulfils all the study and revision needs of psychiatric trainees, but will also prove useful to medical students, GPs, qualified psychiatrists, and those in related fields who need to be kept informed with current psychiatric practice.

The End of Diabetes

MEMORIES CAN BE DEADLY A brutal murder It's been thirty years since Professor Weider was found dead in his stately home. With little evidence to convict a suspect, the case has never been solved. A buried mystery Now, a partial manuscript has been discovered that reveals three people were at the house that night. All three clearly remember what happened. But someone is lying... Already translated into 37 languages, The Book of Mirrors is the perfect novel for fans of psychological suspense and reading group fiction. Praise for The Book of Mirrors 'Intelligent and sophisticated - a crime story told the way Picasso painted pictures. Highly recommended.' Lee Child 'I loved this twisty mind game! The Book Of Mirrors starts with a secret manuscript about a cold-case murder and then uses a host of characters and perspectives to make you look in every direction but at the truth. Who is lying? Is anyone's recall perfect? This isn't just a very clever thriller---it leaves us wondering how much we subconsciously manipulate our own memories to protect ourselves.' Julia Heaberlin (bestselling author of Black Eyed Susans) 'A literary thriller - complex, gripping and a beautiful read.' Jenni Murray 'An elegant, gripping, multi-layered tale about the illusory nature of truth and memory. I loved it.' Tammy Cohen 'The Book of Mirrors is exactly what I look for in a thriller: a great concept, brilliantly executed, smarter than it seems and knotty enough to keep you guessing. Like the best stories about memory, it leaves the reader wondering what's true and what isn't.' - James Smythe 'This Romanian author's debut novel in English is an agile and provocative exploration the tricks memory can play' - Sunday Times 'An impressive first novel, intelligent and well written' - The Times This twisty, brilliantly written tale of a grisly unsolved murder at Princeton asks if we can truly trust our own memories. This nuanced, multi-layered book has a cracking plot to boot and will be devoured by thriller fans - Sun 'slippery murder mystery' - Irish Independent 'Intricately plotted ... Faulty memories, outright lies, and secrets make it hard to know whom to believe. The action builds to a crafty and believable resolution.' Publisher's Weekly 'Chirovici draws his characters well and tantalizes the reader with judiciously timed revelations. A smart, sophisticated murder puzzle sure to please the more literary-minded aficionados of the form' Kirkus

Shorter Oxford Textbook of Psychiatry

The Book of Mirrors

A woman defies expectations—including those of an arrogant earl—in the first regency romance in New York Times bestselling author Madeline Hunter's Fairbourne Quartet. Despite the limits of her sex, Emma Fairbourne intends to run her late father's prestigious London auction house. Of course, she's not addled enough to do it openly and scare away her wealthy collectors. Instead, she and her friend concoct a deception, hiring a handsome and charming front man who will do her bidding... All would have proceeded smoothly—if it weren't for the maddening interference of Darius, the arrogant Earl of Southwaite, who was her father's "silent partner". Darius has no interest in running an auction house—and he's certainly not interested in allowing the lovely Miss Fairbourne to run it either, her ludicrous scheme notwithstanding. But headstrong Emma is like no other lady he has ever encountered, refusing to follow his dictates. Holding his temper in check, Darius decides to attack on a different front. There is another way to achieve her surrender, one far more pleasurable for both of them...

Your Body's Telling You: Love Yourself!

Did you know that blueberries can help you cope with the after-effects of trauma? That salami can cause depression, or that boosting Vitamin D intake can help treat anxiety? When it comes to diet, most people's concerns involve weight loss, fitness, cardiac health, and longevity. But what we eat affects more than our bodies; it also affects our brains. And recent studies have shown that diet can have a profound impact on mental health conditions ranging from ADHD to depression, anxiety, sleep disorders, OCD, dementia and beyond. Dr. Uma Naidoo is a board-certified psychiatrist, nutrition specialist, and professionally trained chef. In *The Food-Mood Connection*, she draws on cutting-edge research to explain the many ways in which food contributes to our mental health, and shows how a sound diet can help treat and prevent a wide range of psychological and cognitive health issues. Packed with fascinating science, actionable nutritional recommendations, and delicious, brain-healthy recipes, *The Food-Mood Connection* is the go-to guide to optimizing your mental health with food.

Kamasutra Tarot Book

The highly anticipated new release from the groundbreaking, New York Times best-selling author of *Medical Medium*! Experience the next level of medical revelations. Packed with information you won't find anywhere else about the Unforgiving Four—the threats responsible for the rise of illness—and the miraculous power of food to heal, this book gives you the ability to become your own health expert, so you can protect yourself, friends, family, and loved ones from symptoms, suffering, and disease. Unleash the hidden powers of fruits and vegetables and transform your life in the process. ANTHONY WILLIAM, the Medical Medium, has helped tens of thousands of people heal from ailments that have been misdiagnosed or ineffectively treated—or that medical communities can't resolve. And he's done it all by listening to a divine voice that literally speaks into his ear, telling him what is at the root of people's pain or illness and what they need to do to be restored to health. In his first book, the

New York Times bestseller *Medical Medium*, Anthony revealed how you can treat dozens of illnesses with targeted healing regimens in which nutrition plays a major role. *Medical Medium Life-Changing Foods* delves deeper into the healing power of over 50 fruits, vegetables, herbs and spices, and wild foods that can have an extraordinary effect on health. Anthony explains each food's properties, the symptoms and conditions it can help relieve or heal, and the emotional and spiritual benefits it brings. And he offers delicious recipes to help you enjoy each food's maximum benefit, from sweet potatoes with braised cabbage stuffing to honey-coconut ice cream. **YOU'LL DISCOVER:** • Why wild blueberries are the "resurrection food," asparagus is the fountain of youth, and lemons can lift your spirits when you've had bad news • The best foods to eat to relieve gallstones, hypertension, brain fog, thyroid issues, migraines, and hundreds more symptoms and conditions • The particular healing powers of kiwis, cucumbers, cat's claw, coconut, and much more • Insight into cravings, how to use stress to your advantage, and the key role fruit plays in fertility Much of Anthony's information is dramatically different from the conventional wisdom of medical communities, so don't expect to hear the same old food facts rehashed here. Instead, expect to get a whole new understanding of why oranges offer more than just vitamin C—and a powerful set of tools for healing from illness and keeping yourself and your loved ones safe and well. Here are just a few highlights of what's inside: • Critical information about the specific factors behind the rise of illness and how to protect yourself and your family • Foods to repair your DNA, boost your immune system, improve your mental clarity, alkalize every body system, shield you from others' negative emotions, and so much more • Techniques to make fruits, vegetables, herbs and spices, and wild foods the most healing they can be for your individual needs Plus targeted foods to bring into your life for relief from hundreds of symptoms and conditions, including: • ANXIETY • AUTOIMMUNE DISORDERS • CANCER • DIABETES • DIGESTIVE PROBLEMS • FATIGUE • FOOD ALLERGIES • INFERTILITY • INFLAMMATION • INSOMNIA • LYME DISEASE • MEMORY LOSS • MIGRAINES • THYROID DISEASE • WEIGHT GAIN

Youth Without Youth and Other Novellas

Cancer is an ever-growing problem, stealing lives worldwide at an alarming rate. A World Health Organization report stated that every year 1.6 million new cases are reported in the United States alone and that over 600,000 will die from the disease. Unfortunately, cancer isn't just one thing or one disease, it is an umbrella term that encapsulates any condition where abnormal cells grow at an abnormal rate. Currently, every organ and system of the body can be attacked by some form of cancer, some of which can spread to other areas of the body or even into the blood itself. Medical Science is working furiously to find a cure, exploring avenues both modern and obscure. Natural Medicine has also lent a hand in the search, looking at cures and remedies presented to us today and those from the distant past. Vitamin B-17 is a half-natural, half-man made substance known as Laetrile. Created from raw nuts and the pips of many fruits like apricot, this amygdalin has an enzyme that interacts within the body, and within cancerous cells that actively fight the invaders. Chemistry works in the lab and in the body, and these compounds, in conjunction with a healthy diet and proper medical care, may be paving the way to cancer treatments - and even a cure. This guide explains how Vitamin B-17 works, how to incorporate it into your diet, the benefits and possible drawbacks as well as addressing common questions or concerns. If you, or someone you know, is suffering the debilitating effects of cancer, you owe it to yourself to read this book today.
