"Toward the end of the 20th century, the prevailing prayers of Christians around the world made a profound impact on bringing down the Berlin Wall...However, at the start of a new millennium, the world witnessed on television not the ugly face of communism, but that of Islam as two jets crashed into the World Trade Center. Suddenly Christians across America were asking, 'What is Islam?' 'Who are Muslims?' and 'Why would they kill innocent people?' but more importantly, 'How do we pray for them?' F. J. Farrokh addresses this challenging question through this book." --Dr. Tom White, Executive Director, The Voice of the Martyrs Jailbreak! provides a "prayer mat" for Christian intercessors by weaving together unique historical, theological, and cultural threads of insight about Muslims and Islam. Author F.J. Farrokh gives a spiritual perspective on the following: Beyond the stereotypes, what are Muslims really like? Why is it so difficult for Muslims to come to Christ? How is the Spirit of Islam tied to the Spirit of Humanism? What issues are Muslims wrestling with at the heart level—that are opening them to the Gospel? How can your prayers help bring a great move of God to the Muslim world? Jailbreak! encourages intensified prayer for the Muslim world in the months and years leading up to a significant historical milestone. The year 2010 will mark a 1400-year period since the inception of Islam in 610 A.D. Could that be the year the reign of the Spirit of Islam is destined to come to an end?

In his most incredible and eye-opening book to date, Brother Andrew invites you to meet brave men and women you never knew existed. This is the riveting true story of the Church in Islamic countries struggling to come to grips with hostile governments, terrorist acts, and an influx of Muslims coming to Christ. The names and places have been changed to protect the real people in the real places. But the stories are true. Now available in paperback, *Secret Believers* not only gives you a glimpse of the lives of these courageous believers, it also proposes four practical initiatives for Christians in the West to help these persecuted brothers and sisters. It calls us to join a new kind of jihad, leaving vengeance behind in favor of forgiveness, radical love, and unyielding prayer.

Liberty to the Captives with Study Guide

This authoritative work provides an essential perspective on terrorism by offering a rare opportunity for analysis and reflection at a time of ongoing violence, threats, and reprisals. Some of the best international specialists on the subject examine terrorism's complex history from antiquity to the present day and find that terror, long the weapon of the weak against the strong, is a tactic as old as warfare itself. Beginning with the Zealots of the first century CE, contributors go on to discuss the Assassins of the Middle Ages, the 1789 Terror movement in Europe, Bolshevik terrorism during the Russian Revolution, Stalinism, "resistance" terrorism during World War II, and Latin American revolutionary movements of the late 1960s. Finally, they consider the emergence of modern transnational terrorism, focusing on the roots of Islamic terrorism, al Qaeda, and the contemporary suicide martyr. Along the way, they provide a groundbreaking analysis of how terrorism has been perceived throughout history. What becomes powerfully clear is that only through deeper understanding can we fully grasp the present dangers of a phenomenon whose repercussions are far from over. This updated edition includes a new chapter analyzing the rise of ISIS and key events such as the 2015 Paris attacks.

Freedom in the World 2012

The Comparative Survey of Freedom is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 191 nations and 59 related territories. These year-end reviews of freedom began in 1955, when they were called the Balance Sheet of Freedom and, still later, the Annual Survey of the Progress of Freedom. This program was expanded in the early 1970s, and has appeared in Freedom Review since 1973. It has also been issued in a more developed context as a yearbook since 1978. Since 1989, the Survey project has been a year-long effort produced by regional experts, consultants and human rights specialists. The Survey derives its information from a wide range of sources. Most valued of these are the many human rights activists, journalists, editors and political figures around the world who keep us informed of the human rights situation in their countries. Throughout the year, Freedom House personnel regularly conduct fact-finding missions to gain more in-depth knowledge of the vast political transformations affecting our world. During these week-to-month-long investigations, we make every effort to meet a cross-section of political parties and associations, human rights monitors, religious figures, representatives of both the private sector and trade union movement, academics and journalists. During the past year, Freedom House staff traveled to numerous countries throughout most of the world's geographical and political regions. The Survey project team also consults a vast array of published source materials, ranging from the reports of other human rights organizations to often rare, regional newspapers and magazines. This year's Survey team includes: Adrian Karatnycky, Martin Edwin Anderson, Kristen Guida, Marshall Freeman Harris, Thomas R. Lansner, Arch Puddington, Leonard R. Sussman, and George Zarycky. The general editor of Freedom in the World is Roger Kaplan; the managing editor is Tara Kelly. This year's research coordinator was Ch

Case studies of 11 terrorist groups in Mindanao, the West Bank and Gaza Strip, and southwest Colombia show how these groups have exchanged technologies and knowledge in an effort to innovate (i.e., improve their operational capabilities). The analysis provides national security policymakers with insight into the innovation process and suggests ways that government policies can create barriers to terrorists' adoption of new technologies.

National Insecurity and Human Rights

The methodology of this survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Dongri to Dubai is the first ever attempt to chronicle the history of the Mumbai mafia. It is the story of notorious gangsters like Haji Mastan, Karim Lala, Varadarajan Mudaliar, Chhota Rajan, Abu Salem, but above all, it is the story of a young man who went astray despite having a father in the police force. Dawood Ibrahim was initiated into crime as a pawn in the hands of the Mumbai police and went on to wipe out the competition and eventually became the Mumbai police's own nemesis. The narrative encompasses several milestones in the history of crime in India, from the rise of the Pathans, formation of the Dawood gang, the first ever supari, mafia's nefarious role in Bollywood, Dawood's move to Karachi, and Pakistan's subsequent alleged role in sheltering one of the most wanted persons in the world. This story is primarily about how a boy from Dongri became a don in Dubai, and captures his bravado, cunningness, focus, ambition, and lust for power in a gripping narrative. The meticulously researched book provides an in-depth and comprehensive account of the mafia's games of supremacy and internecine warfare.

Pre-Incident Indicators of Terrorist Incidents

An introduction to the politics and society of post-colonial Nigeria, highlighting the key themes of ethnicity, democracy, and development.

An Examination of the Alleged Discrepancies of the Bible

In 1803 in the colonial South American city of La Plata, Doña Martina Vilvado y Balverde presented herself to church and crown officials to denounce her husband of more than four years, Don Antonio Yta, as a “woman in disguise.” Forced to submit to a medical inspection that revealed a woman’s body, Don Antonio confessed to having been María Yta, but continued to assert his maleness and claimed to have a functional “member” that appeared, he said, when necessary. *Passing to América* is at once a historical biography and an in-depth examination of the sex/gender complex in an era before “gender” had been divorced from “sex.” The book presents readers with the original court docket, including Don Antonio’s extended confession, in which he tells his life story, and the equally extraordinary biographical sketch offered by Felipa Ybañez of her “son María,” both in English translation and the original Spanish. Thomas A. Abercrombie’s analysis not only grapples with how to understand the sex/gender system within the Spanish Atlantic empire at the turn of the nineteenth century but also explores what Antonio/María and contemporaries can teach us about the complexities of the relationship between sex and gender today. *Passing to América* brings to light a previously obscure case of gender transgression and puts Don Antonio’s life into its social and historical context in order to explore the meaning of “trans” identity in Spain and its American colonies. This accessible and intriguing study provides new insight into historical and contemporary gender construction that will interest students and scholars of gender studies and colonial Spanish literature and history. Dongri to Dubai - Six Decades of the Mumbai Mafia

Global history records an astonishing variety of forms of social organization. Yet almost universally, males subordinate females. How does the relationship between men and women shape the wider political order? *The First Political Order* is a groundbreaking demonstration that the persistent and systematic subordination of women underlies all other institutions, with wide-ranging implications for global security and development. Incorporating research findings spanning a variety of social science disciplines and comprehensive empirical data detailing the status of women around the globe, the book shows that female subordination functions almost as a curse upon nations. A society’s choice to subjugate women has significant negative consequences: worse governance, worse conflict, worse stability, worse economic performance, worse food security, worse health, worse demographic problems, worse environmental protection, and worse social progress. Yet despite the pervasive power of social and political structures that subordinate women, history—and the data—reveal possibilities for progress. *The First Political Order* shows that when steps are taken to reduce the hold of inequitable laws, customs, and practices, outcomes for all improve. It offers a new paradigm for understanding insecurity, instability, autocracy, and violence, explaining what the international community can do now to promote more equitable relations between men and women and, thereby, security and peace. With comprehensive empirical evidence of the wide-ranging harm of subjugating women, it is an

important book for security scholars, social scientists, policy makers, historians, and advocates for women worldwide.

Dark State

"Yemen is the dark horse of the Middle East. Every so often it enters the headlines for one alarming reason or another -- links with al-Qaeda, kidnapped Westerners, explosive population growth -- then sinks into obscurity again. But, as Victoria Clark argues in this riveting book, we ignore Yemen at our peril. The poorest state in the Arab world, it is still dominated by its tribal makeup and has become a perfect breeding ground for insurgent and terrorist movements. Clark returns to the country where she was born to discover a perilously fragile state that deserves more of our understanding and attention. On a series of visits to Yemen between 2004 and 2009, she meets politicians, influential tribesmen, oil workers and jihadists as well as ordinary Yemenis. Untangling Yemen's history before examining the country's role in both al-Qaeda and the wider jihadist movement today, Clark presents a lively, clear, and up-to-date account of a little-known state whose chronic instability is increasingly engaging the general reader"--Publisher description.

Understanding Modern Nigeria

This book, which grew out of the Society of Biblical Literature's Paul and Scripture Seminar, explores some of the methodological problems that have arisen during the last few decades of scholarly research on the apostle Paul's engagement with his ancestral Scriptures. Essays explore the historical backgrounds of Paul's interpretive practices, the question of Paul's "faithfulness" to the context of his biblical references, the presence of Scripture in letters other than the Hauptbriefe, and the role of Scripture in Paul's theology. All of the essays look at old questions through new lenses in an effort to break through scholarly impasses and advance the debate in new directions. The contributors are Matthew W. Bates, Linda L. Belleville, Roy E. Ciampa, Bruce N. Fisk, Stephen E. Fowl, Leonard Greenspoon, E. Elizabeth Johnson, Mitchell M. Kim, Steve Moyise, Jeremy Punt, Christopher D. Stanley, and Jerry L. Sumney.

Precious Apothecary A Catholic Grimoire compiled from the writings of Ângelo Sequeira, for the acquisition and sustenance of Grace, the Blessing of the Virgin, the succour of her Divine Son our Lord, and the patronage of one hundred and twenty Saints. English translation by José Leitão. Precious Apothecary is a translation of *Botica Preciosa*, a Catholic Grimoire compiled by Ângelo de Sequeira Ribeiro do Prado (1707-1776) who was perhaps the most important Brazilian missionary in history. The *Botica Preciosa* (1754) was his first book and is a collection of prayers, devotions and exercises to the Lady of the Rock and 120 other Saints. Suffused with the author's missionary purpose the book also contains the consecrations and blessings for oils, flowers, statues and food, as well as exorcisms and prayers for many ailments intended for situations where no priests were available. This is a leading work of pragmatic religious practice in which Sequeira addressed the devotional needs of the ordinary people, and thereby gained a significant following in both Portugal and Brazil. This work presents an exceptional insight into practices outside the influence of a Protestant narrative, offering a window into the multifaceted world of baroque Catholicism, heresies, deviations and Rigorist movements within this. The Catholic Pantheon of Saints is introduced, together with its hierarchy and the techniques needed to access and work with them. The book also includes extensive instructions on the creation and consecration of the *materia sacra/ magica*, rarely found outside of liturgical literature. This grimoire presents a system which will appeal to Catholics (and other Christians) with an interest in magic, and

those exploring pre-contemporary forms of spirit work from within a Christian framework. It is likewise essential reading for occult scholars and practising magicians interested in exploring Christian Magic, seeking sources for folk magic and expanding their knowledge of the grimoire tradition. José Leitão is a scholar and researcher on the history of Portuguese magic and the author of a number of books including *The Book of St. Cyprian: The Sorcerer's Treasure*.

Kiss of Death

In today's world of conflict and change, no one can escape the reality that Islam is spreading very fast. Since 9/11, the Muslim population has doubled in the United States of America. Muslims are building mosques and Islamic centers throughout the country. There is an increasing fear among Americans of the imminent threat of terrorism by Muslims in America. What does Islam teach about terrorism? What is Jihad? What does Islam teach about Christians and Jews? What are the basic beliefs of Muslims? Are all Muslims extremists? How about the ones living among us? Do Muslims hate non-Muslims (specifically Christians and Jews)? Is Islam a religion of peace? These and many other questions will be answered in this book. Understanding Islam is the only way to reach out to Muslims in America and

worldwide. The Muslim Next Door, is a guide for churches and individuals to evangelize Muslims. A clear understanding of pure Islamic knowledge can make a difference in our relationships with Muslims in our neighborhoods.

United by Violence, Divided by Cause?

In a remarkably short period of time, the realization of religious freedom has achieved broad consensus as an indispensable condition for peace. Faced with widespread reports of religious persecution, public and private actors around the world have responded with laws and policies designed to promote freedom of religion. But what precisely is being promoted? What are the cultural and epistemological assumptions underlying this response, and what forms of politics are enabled in the process? The fruits of the three-year Politics of Religious Freedom research project, the contributions to this volume unsettle the assumption—ubiquitous in policy circles—that religious freedom is a singular achievement, an easily understood state of affairs, and that the problem lies in its incomplete accomplishment. Taking a global perspective, the more than two dozen contributors delineate the different conceptions of religious freedom predominant in the world today, as well as their histories and social and political contexts. Together, the contributions make clear that the reasons for persecution are more varied and complex than is widely acknowledged, and that the indiscriminate promotion of a single legal and cultural tool meant to address conflict across a wide variety of cultures can have the perverse effect of exacerbating the problems that plague the communities cited as falling short.
