But unknown to both nobility and enslaved alike, a clandestine—and forbidden—affair between the lycan servant Lucian and the beautiful vampire noblewoman Sonja burns brightly with an unbridled passion. Seeking to escape Sonja's tyrannical father, Viktor, and a future in which their love is considered an abomination, Lucian risks the ever-present machinations of the court and his very life to cast himself and his beloved free of their bonds...a daring tactic that will eventually give all lycans the courage to rise up against their oppressive vampire overlords. New alliances are forged even as the chains of slavery are broken...and all that Lucian and Sonja hold dear will be threatened with utter annihilation....

Star Trek: Mirror Universe: Glass Empires

There are moments glimpsed only in shadow, where darkness rules and evil incarnate thrives. You hope against hope that in your lifetime, evil is relegated to the shadows. But what if it wasn't? What if you lived in a universe where your life was measured only by what you could do for the Empire? What would you do to survive? Would you sell your soul to free yourself? If you were offered the chance to rule, would you seize it? If you could free your universe from the darkness but only at the cost of your life, would you pay that price? Star Trek: Enterprise®—she seized power in a heartbeat, daring to place herself against all the overlords of the Empire. Empress Hoshi Sato knows the future that could be; now all she has to do is make sure it never happens. For her to rule, she must hold sway not only over the starship from the future but also over her warlords, the resistance, and her Andorian husband. As quickly and brutally as Hoshi seized power, imperial rule is taken from her. Her only chance to rule again is to ally herself with a lifelong foe, and an alien. Star Trek® One man can change the future, but does he dare? Spock, intrigued by the vision of another universe's Federation, does what no Vulcan, no emperor, has ever done: seize power in one blinding stroke of mass murder. And at the same instant he gains imperial

power, Spock sows the seeds for the Empire's downfall. Is this a form of Vulcan madness, or is it the coolly logical plan of a man who knows the price his universe must pay for its freedom? *Star Trek: The Next Generation*®—Humanity is a pitiful collection of enslaved, indentured, and abused peoples. No one dares to question the order, except at peril of their lives. One man survives by blinding himself to the misery around him. However, Jean-Luc Picard resists, just once. And in that one instant he unlocks a horror beyond the tyranny of the Alliance. Can a man so beaten down by a lifetime of oppression stop the destruction?

Star Trek: The Eugenics Wars: The Rise and Fall of Khan Noonien Singh

An engrossing and fast-paced thriller that explores the secret history of the twentieth century -- and the rise of the conqueror known as Khan. Even centuries later, the final decades of the twentieth century are still regarded -- by those who know the truth of what really happened -- as one of the darkest and most perilous chapters in the history of humanity. Now, as an ancient and forbidden technology tempts mankind once more, Captain James T. Kirk of the *Starship Enterprise*™ must probe deep into the secrets of the past, to discover the true origins of the dreaded Eugenics Wars -- and of perhaps the greatest foe he has ever faced. 1974 A.D. An international consortium of the world's top scientists have conspired to create the Chrysalis Project, a top-secret experiment in human genetic engineering. The project's goal is nothing less than the creation of a new, artificially improved breed of men and women: smarter, faster, stronger than ordinary human beings, a super-race to take command of the entire planet. Gary Seven, an undercover operative for an advanced alien species, is alarmed by the project's objectives; he knows too well the apocalyptic consequences of genetic manipulation. With his trusted agents, Roberta Lincoln and the mysterious Isis, he will risk life and limb to uncover Chrysalis' insidious designs and neutralize the awesome threat that the Project poses to the future. But he may already be too late. One generation of super-humans has already been conceived. Can Khan's dark destiny be averted -- or is Earth doomed to fight a global battle for supremacy?

It took countless lives and numerous acts of heroism and sacrifice on the part of many people -- human and Klingon, Bajoran and Romulan; yes, and Cardassian too -- to save the day and neutralize the threat of the Dominion. Now top *Star Trek* authors present twelve new stories of those whose courage helped to win the war, among them Captain Picard from *Star Trek: The Next Generation* and Captain Calhoun from *Star Trek: New Frontier*. Legacies: Book #3: Purgatory's Key

The Librarians and the Mother Goose Chase, an original novel based on the hit television show, The Librarians by New York Times bestselling author, Greg Cox. For millennia, the Librarians have secretly protected the world by keeping watch over dangerous magical relics. Cataloging and safeguarding everything from Excalibur to Pandora's Box, they stand between humanity and those who would use the relics for evil. Stories have power. In 1719, Elizabeth Goose published a collection of rhyming spells as a children's book, creating a spellbook of terrifying power. The Librarian of that age managed to dispose of all copies of the book except one, which remained in the possession of Elizabeth Goose and her family, temporarily averting any potential disaster. Now, strange things are happening around the world. A tree-trimmer in Florida is blown off his elevated perch by a freak gust of wind, a woman in

rural Pennsylvania is attacked by mutant rodents without any eyes, and a college professor in England finds herself trapped inside a prize pumpkin at a local farmer's market. Baird and her team of Librarians suspect that the magic of Mother Goose is again loose in the world, and with Flynn AWOL—again—it is up to Cassandra, Ezekiel, and Stone to track down the missing spellbook before the true power of the rhymes can be unleashed. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Librarians and the Mother Goose Chase

Deep in the mountains of nineteenth-century Carpathia lies the mysterious and mythic land of Transylvania, a world where evil is ever-present, where danger rises as the sun sets, and where monsters such as Count Dracula, the Wolf Man, and Frankenstein's Monster take form and inhabit man's deepest nightmares -- terrifying legends who outlive generations, defying repeated attacks from the doomed brave souls that challenge them in their never-ending war upon the human race. On order of a secret society, only a lone force of good stands against them -- the legendary monster hunter Van Helsing, a man revered by some and feared by many. In his ongoing battle to rid the earth of these fiendish beings, Van Helsing must now travel to Transylvania to bring down the lethally seductive, enigmatically powerful Count Dracula, and joins forces with the fearless Anna Valerious, a woman out to rid her family of a generations-old curse by defeating the vampire. But unknown to all, the immortal Dracula will stop at nothing to unleash his master plan of subverting human civilization and ruling over a world of havoc, fear, and darkness...

Van Helsing

As an acoustic engineer, Trevor Cox has spent his career eradicating unwanted noises – echoes in concert halls, clamour in classrooms. Until the day he heard something so astonishing that he had an epiphany: rather than quashing rare or bizarre sounds, we should be celebrating these sonic treasures. This is the story of his investigation into the mysteries of these Sonic Wonders of the World. In the Mojave Desert he finds sand dunes that sing. In France he discovers an echo that tells jokes. In California he drives down a musical road that plays the William Tell Overture. In Cathedrals across the world he learns how acoustics changed the history of the Church. Touching on physics, music, archaeology, neuroscience, biology, and design, Cox explains how sound is made and altered by the environment and how our body reacts to peculiar noises – from the exotic sonic wonders he encounters on his journey, or the equally unique and surprising sounds of our everyday environment. In a world dominated by the visual, Sonic Wonderland encourages us to become better listeners and to open our ears to the glorious cacophony around us. Sonic Wonderland

The epic sequel to "Infinite Crisis." Superman, Batman, and Wonder Woman have vanished. In their place stand the heroes they inspired as they combat a vast conspiracy of evil determined to usurp control of the Earth once and for all.

Folded World

Intertwines three narratives to tell the tale of the beginning of the end of the world: a younger, angrier Hagia, the blemmye-wife of John and Queen of Pentexore, Vyala, a lion-philosopher entrusted with the care of the deformed and prophetic royal princess, and John Mandeville, who in his many travels discovers the land of Pentexore.

The Folded World

From the author of the critically acclaimed *Sea Wife* Praised for her exquisite prose and crystalline insights, Amity Gaige returns with *The Folded World*, the story of an idealistic young social worker drawn into the lives of his mentally ill clients. Charlie Shade was born into a quiet, prosperous life, but a sense of injustice dogs him. He feels destined to leave his life of “bread and laundry,” to work instead with people in crisis. On his way, he meets his kindred spirit in Alice, a soulful young woman, living helplessly by laws of childhood superstition. Charlie’s empathy with his clients—troubled souls like Hal, the high-school wrestling champion who undergoes a psychotic break, and Opal, the isolated young woman who claims “various philosophies have confused my life”—is both admirable and nearly fatal. An adoring husband and new father, Charlie risks his own cherished, private domestic world to help Hal, Opal, and others move beyond their haunted inner worlds into the larger world of love and connection. A collision of extraordinary characters, *The Folded World* addresses the universal dilemma of love, wherein giving to another can seem like “the death of the world of oneself.” With an unerring eye for both the joys and devastations of life, Amity Gaige once again reminds us of the pleasures and depths to be found in her fiction.

The Folded Earth

From the widely acclaimed author of *An Atlas of Impossible Longing*, a powerful and triumphantly beautiful novel set in contemporary India, about a young woman forging a new life in the foothills of the Himalayas. **LOGLISTED FOR THE 2011 MAN ASIAN LITERARY PRIZE SHORTLISTED FOR THE HINDU LITERARY PRIZE FOR BEST FICTION 2011** With her debut novel, *An Atlas of Impossible Longing*, Anuradha Roy’s exquisite storytelling instantly won readers’ hearts around the world, and the novel was named one of the best books of the year by *The Washington Post* and *The Seattle Times*. Now, Roy has returned with another masterpiece that is already earning international prize attention, an evocative and deeply moving tale of a young woman making a new life for herself amid the foothills of the Himalaya. Desperate to leave a private tragedy behind, Maya abandons herself to the rhythms of the little village, where people coexist peacefully with nature. But all is not as it seems, and she soon learns that no refuge is remote enough to keep out the modern world. When power-hungry politicians threaten her beloved mountain community, Maya finds herself caught between the life she left behind and the new home she is determined to protect. Elegiac, witty, and profound by turns, and with a tender love story at its core, *The Folded Earth* brims with the same genius and love of language that made *An*

Atlas of Impossible Longing an international success and confirms Anuradha Roy as a major literary talent.

Star Trek: The Original Series: The Folded World

The Man Who Folded Himself

This classic work of science fiction is widely considered to be the ultimate time-travel novel. When Daniel Eakins inherits a time machine, he soon realizes that he has enormous power to shape the course of history. He can foil terrorists, prevent assassinations, or just make some fast money at the racetrack. And if he doesn't like the results of the change, he can simply go back in time and talk himself out of making it! But Dan soon finds that there are limits to his powers and forces beyond his control.

Relics - The Folded Land

"Tim Lebbon's Relics opens a darkly beautiful glimpse into another world, one lurking in the shadows." James Rollins, New York Times bestseller In the dark underbelly of our world, there's a black market in arcane things—living and dead. Angela Gough has been pulled into this world, making her a criminal on the run. In London she encountered the Kin—satyrs and centaurs, Nephilim and wraiths, they are hunted and slaughtered for their body parts. Fleeing back to the United States, Angela discovers that the Kin are everywhere, and they are tired of being prey. When her niece Sammi is struck by lightning, she is drawn toward the mysterious Folded Land, and its powerful and deadly ruler. Helped by her lover Vince, caught in the midst of a Kin uprising, Angela must locate Sammi before the girl is lost forever.

The Folding Star

Edward Manners -- thirty three and disaffected -- escapes to a Flemish city in search of a new life. Almost at once he falls in love with seventeen-year-old Luc, and is introduced to the twilight world of the 1890s Belgian painter Edgard Orst.

The Folded Earth

A woman struggles with her past, as she sees her familiar world being swept away by India's brutal modernity.

The Folded Leaf

"This is why we read fiction at all" raves the Washington Post: Family life meets historical romance in this critically acclaimed, "gorgeous, sweeping novel" (Ms Magazine) about two people who find each other when abandoned by everyone else, marking the signal American debut of an award-winning writer who richly deserves her international acclaim. On the outskirts of a small town in Bengal, a family lives in solitude in their vast new house. Here, lives intertwine and unravel. A widower struggles with his love for an unmarried cousin. Bakul, a motherless daughter, runs wild with Mukunda, an orphan of unknown caste adopted by the family. Confined in a room at the top of the house, a matriarch goes slowly mad; her husband searches for its cause as he shapes and reshapes his garden. As Mukunda and Bakul grow, their intense closeness matures into something else, and Mukunda is banished to Calcutta. He prospers in the turbulent years after Partition, but his thoughts stay with his home, with Bakul, with all that he has lost—and he knows that he must return.

An Atlas of Impossible Longing

After the End of the World by Jonathan L. Howard brings the H.P. Lovecraft mythos into the twenty-first century. The Unfolded World is a bitter and unfriendly place for Daniel Carter and Emily Lovecraft. In this world, the Cold War never happened because the Soviet Union ceased to exist in 1941. In this world the Nazi Großdeutschland is the premier superpower, and is not merely tolerated but indulged because, in this world, the Holocaust happened behind the ruins of the Iron Curtain and consumed only Bolsheviks, Communists, and others the West was glad to see gone. In this world, there are monsters, and not all of them are human. But even in the Unfolded World, there are still bills to pay and jobs to

do. Carter finds himself working for the German secret security service to uncover the truth behind a major scientific joint project that is going suspiciously well. The trail takes Lovecraft and him to a distant, abandoned island, and a conspiracy that threatens everything. To fight it, Lovecraft must walk a perilously narrow path between forbidden knowledge and soul-destroying insanity. Fortunately, she also has a shotgun.

After the End of the World

A dystopian satire in the tradition of Swift and Orwell, but very much of the 21st century and a country with serious choices before it.

The Folded Man

From the Man Booker Prize-nominated author of *Sleeping on Jupiter* and “one of India’s greatest living authors” (*O, The Oprah Magazine*), a poignant and sweeping novel set in India during World War II and the present day about a son’s quest to uncover the truth about his mother. In my childhood, I was known as the boy whose mother had run off with an Englishman. The man was in fact German, but in small town India in those days, all white foreigners were largely thought of as British. So begins the “gracefully wrought” (*Kirkus Reviews*) story of Myshkin and his mother, Gayatri, who rebels against tradition to follow her artist’s instinct for freedom. Freedom of a different kind is in the air across India. The fight against British rule is reaching a critical turn. The Nazis have come to power in Germany. At this point of crisis, two strangers arrive in Gayatri’s town, opening up to her the vision of other possible lives. What took Myshkin’s mother from India and Dutch-held Bali in the 1930s, ripping a knife through his comfortingly familiar universe? Excavating the roots of the world in which he was abandoned, Myshkin comes to understand the connections between the anguish at home and a war torn universe overtaken by patriotism. Evocative and moving, “this mesmerizing exploration of the darker consequences of freedom, love, and loyalty is an astonishing display of Roy’s literary prowess” (*Publishers Weekly*).

The Folding Knife

An insightful meditation on time, relationships and identity, *The Folded Clock* is a funny, thoughtful and inquisitive diary for fans of Olivia Laing and Jenny Offill Like many young people, Heidi Julavits kept a diary. Decades later she found her old diaries in a storage bin, and hoped to discover the early evidence of the person (and writer) she'd since become. Instead, they 'revealed me to possess the mind of a paranoid tax auditor'. Thus was born a desire to try again, to chronicle her daily life as a fortysomething woman, wife, mother and writer. The dazzling result is *The Folded Clock*, in which the diary form becomes a meditation on time and self, youth and aging, betrayal and loyalty, friendship and romance, faith and fate, marriage and family, desire and death, gossip and secrets, art and ambition. *The Folded Clock* is as playful as it is brilliant, a tour de force by one of the most gifted prose stylists in the English language.

The Folded Clock

'Taut as a thriller' Claire Messud 'A gripping tale of survival at sea - but that's just the beginning' Jennifer Egan 'A smart, swift and thrilling novel' Lauren Groff From the highly acclaimed author of *Schroder*, a smart, sophisticated literary page turner about a young family who escape suburbia for a year-long

sailing trip that upends all of their lives Juliet is failing to juggle motherhood and her anemic dissertation when her husband, Michael, informs her that he wants to leave his job and buy a sailboat. The couple are novice sailors, but Michael persuades Juliet to say yes. With their two kids - Sybil, age seven, and George, age two, Juliet and Michael set off for Panama, where their forty-four-foot sailboat awaits them - a boat that Michael has christened the Juliet. The initial result is transformative: their marriage is given a gust of energy, and even the children are affected by the beauty and wonderful vertigo of travel. The sea challenges them all - and most of all, Juliet, who suffers from postpartum depression. *Sea Wife* is told in gripping dual perspectives: Juliet's first-person narration, after the journey, as she struggles to come to terms with the dire, life-changing events that unfolded at sea; and Michael's captain's log - that provides a riveting, slow-motion account of those same inexorable events. Exuberant, harrowing, witty and exquisitely written, *Sea Wife* is impossible to put down.

Sea Wife

Six years ago, schoolgirls Evelyn and Philippa Hapwell were swept from a war-time bunker to a fantasy kingdom. Now almost grown-up, they've returned to the real world, but grieving Evie will do almost anything to go back to the magical Woodlands that holds her heart ...

The Light Between Worlds

A page-turning science-fiction thriller from the author of *Paradox Bound* and the *Ex-Heroes* series. Step into the fold. It's perfectly safe. The folks in Mike Erikson's small New England town would say he's just your average, everyday guy. And that's exactly how Mike likes it. Sure, the life he's chosen isn't much of a challenge to someone with his unique gifts, but he's content with his quiet and peaceful existence. That is, until an old friend presents him with an irresistible mystery, one that Mike is uniquely qualified to solve: far out in the California desert, a team of DARPA scientists has invented a device they affectionately call the Albuquerque Door. Using a cryptic computer equation and magnetic fields to "fold" dimensions, it shrinks distances so that a traveler can travel hundreds of feet with a single step. The invention promises to make mankind's dreams of teleportation a reality. And, the scientists insist, traveling through the Door is completely safe. Yet evidence is mounting that this miraculous machine isn't quite what it seems—and that its creators are harboring a dangerous secret. As his investigations draw him deeper into the puzzle, Mike begins to fear there's only one answer that makes sense. And if he's right, it may only be a matter of time before the project destroys...everything. A cunningly inventive mystery featuring a hero worthy of Sherlock Holmes and a terrifying final twist you'll never see coming, *The Fold* is that rarest of things: a genuinely page-turning science-fiction thriller.

The Fold

One woman's quest to die with dignity may doom them all. A multi-dimensional explosion hurls the starship's few passengers across the galaxies and onto an uncharted barren tundra. With no technical skills and scant supplies, the survivors face a bleak end in an alien world. One brave woman holds the daring answer, but it is the most desperate one possible. Elegant and electric, *We Who Are About To...* brings us face to face with our basic assumptions about our will to live. While most of the stranded tourists decide to defy the odds and insist on colonizing the planet and creating life, the narrator decides to practice the art of dying. When she is threatened with compulsory reproduction, she defends herself with lethal force. Originally published in 1977, this is one of the most subtle, complex, and exciting science fiction novels ever written about the attempt to survive a hostile alien environment. It is characteristic of Russ's genius that such a readable novel is also one of her most intellectually intricate.

We Who Are About To...

A dystopian classic In February 2108, the New Zealand Rediscovery Expedition reaches California at last. It is over a century since the world was devastated by nuclear war, but the blight of radioactivity and disease still gnaws away at the survivors. The expedition expects to find physical destruction but they are quite unprepared for the moral degradation they meet. *Ape and Essence* is Huxley's vision of the ruin of humanity, told with all his knowledge and imaginative genius.

Ape and Essence

Piranesi lives in the House. Perhaps he always has. In his notebooks, day after day, he makes a clear and careful record of its wonders: the labyrinth of halls, the thousands upon thousands of statues, the

tides that thunder up staircases, the clouds that move in slow procession through the upper halls. On Tuesdays and Fridays Piranesi sees his friend, the Other. At other times he brings tributes of food and waterlilies to the Dead. But mostly, he is alone. Messages begin to appear, scratched out in chalk on the pavements. There is someone new in the House. But who are they and what do they want? Are they a friend or do they bring destruction and madness as the Other claims? Lost texts must be found; secrets must be uncovered. The world that Piranesi thought he knew is becoming strange and dangerous

A Wrinkle in Time

When Luke O'Neil isn't angry, he's asleep. When he's awake, he gives vent to some of the most heartfelt, political and anger-fueled prose to power its way to the public sphere since Hunter S. Thompson smashed a typewriter's keys. Welcome to Hell World is an unexpurgated selection of Luke O'Neil's finest rants, near-poetic rhapsodies, and investigatory journalism. Racism, sexism, immigration, unemployment, Marcus Aurelius, opioid addiction, Iraq: all are processed through the O'Neil grinder. He details failings in his own life and in those he observes around him: and the result is a book that is at once intensely confessional and an energetic, unforgettable condemnation of American mores. Welcome to Hell World is, in the author's words, a "fever dream nightmare of reporting and personal essays from one of the lowest periods in our country in recent memory." It is also a burning example of some of the best writing you're likely to read anywhere.

"I was intrigued by *Our Little World* from the chilling first paragraph. It's a coming-of-age novel complicated by a tragic and untimely death, and it's also a novel about two sisters you will never forget. I fell in love with the confidence of the writing and the colorful nostalgia of the mid-'80s details. *Our Little World* will transport and transfix you."—Elin Hilderbrand July 1985. It's a normal, sweltering New Jersey summer for soon-to-be seventh grader Bee Kocsis. Her thoughts center only on sunny days spent at Deer Chase Lake, on evenings chasing fireflies around her cul-de-sac with the neighborhood kids, and on Max, the boy who just moved in across the street. There's also the burgeoning worry that she'll never be as special as her younger sister, Audrina, who seems to effortlessly dazzle wherever she goes. But when Max's little sister, Sally, goes missing at the lake, Bee's long-held illusion of stability is shattered in an instant. As the families in her close-knit community turn inward, suspicious and protective, things in Bee's own home become increasingly strained, most of all with Audrina, when a shameful secret surfaces. With everything changed, Bee and Audrina's already-fraught sisterhood is pushed to the limit as they grow up—and apart—in the wake of an innocence lost too soon. Perfect for readers of Celeste Ng's *Everything I Never Told You*, *Our Little World* is a powerful and lyrical coming-of-age story that examines the complicated bond of sisterhood, the corrosive power of envy, and how the traumas of our youths can shape our identities for a lifetime.

Measuring the World marks the debut of a glorious new talent on the international scene. Young Austrian writer Daniel Kehlmann's brilliant comic novel revolves around the meeting of two colossal geniuses of the Enlightenment. Late in the eighteenth century, two young Germans set out to measure the world. One of them, the aristocratic naturalist Alexander von Humboldt, negotiates jungles, voyages down the Orinoco River, tastes poisons, climbs the highest mountain known to man, counts head lice, and explores and measures every cave and hill he comes across. The other, the reclusive and barely socialized mathematician Carl Friedrich Gauss, can prove that space is curved without leaving his home. Terrifyingly famous and wildly eccentric, these two polar opposites finally meet in Berlin in 1828, and are immediately embroiled in the turmoil of the post-Napoleonic world.

With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all" – *Sew magazine* "A wonderful insight into the work of a truly skilled artist" – *PaperCrafter* The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in *The Art of the Fold*. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, *The Art of the Fold* is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

How I Saved the World in a Week

A uniquely powerful novel of a society in decay. On a planet whose very nature is a mystery a massive decrepit city is pulled along a massive railway track, laying the line down before it as it progresses into the wilderness. The society within toils under an oppressive regime, its structures always on the point of collapse, the lives of its individuals lived in misery. No one knows where they are going, why they are going or what they will find when they get there. The ending of the novel provides one of the most profound twists in SF. Winner of the BSFA Award for best novel, 1974. Christopher Priest is a genre-leading author of SFF fiction. His novel, *THE PRESTIGE*, won a number of awards and was adapted into a critically acclaimed, Oscar-nominated film directed by Christopher Nolan (*TENET*, *INCEPTION*) starring Hugh Jackman (*THE GREATEST SHOWMAN*, *X-MEN*), Christian Bale (*THE BIG SHORT*, *BATMAN BEGINS*), Michael Caine (*THE ITALIAN JOB*) and Scarlett Johansson (*MARRIAGE STORY*, *THE AVENGERS*).
