

Clinical And Therapeutics Gbv Pharmacy

[#gender-based violence pharmacy](#) [#clinical gbv therapeutics](#) [#pharmaceutical care gbv](#) [#gbv survivor support pharmacy](#) [#pharmacy interventions gbv](#)

Explore the vital role of pharmacies in providing clinical and therapeutic support for survivors of gender-based violence (GBV). This area focuses on essential pharmaceutical care, medication management, and supportive interventions crucial for holistic GBV survivor support. Understanding these clinical GBV therapeutics enables pharmacists to offer critical health services and referrals in a compassionate, accessible environment.

Clinical Pharmacy and Therapeutics E-Book

'This new edition of Clinical Pharmacy and Therapeutics was really very helpful when I was doing an MSc course in Advancing Pharmacy Practice and it was really very helpful in all the clinical diseases I have to read for my PBL. I also used it as one of my most reliable reference books for the in-course simulation ward rounds and other clinical case studies. It is a great book to have as a practising clinical or hospital pharmacist or even community pharmacist. It will also be of great use to anyone doing a course in pharmacotherapy. This book will always be of use to you throughout your studentship or when practising after graduation. It is also more portable than most other pharmacotherapy textbooks with the same amount of information.' Now in its sixth edition, this best-selling, multi-disciplinary textbook continues to draw on the skills of pharmacists, clinicians and nurses to present optimal drug regimens. The authors integrate an understanding of the disease processes with an appreciation of the pathophysiological processes, clinical pharmacy and the evidence base. Each chapter is co-written by a pharmacist and a clinician, and each chapter begins with key points and ends with cases to test understanding. The sixth edition is now on StudentConsult for the first time, giving online access to the full text. Key points boxes at the beginning of each chapter Case-study boxes throughout the chapters Each chapter co-written by a pharmacist and a clinician In-depth treatment of therapeutics to support pharmaceutical prescribing Logical order and format: key points, epidemiology, aetiology, disease, clinical manifestations, investigations and treatment, drugs used in treatment. Dosage reference sources given where appropriate, along with useful websites and further reading for each chapter. New co-editor, Karen Hodson Over 10 new authors Now in 4-colour On StudentConsult for the first time New chapter on Dementia Many new and revised illustrations Chapters revised to include advances in therapeutics and changes to dose regimens and licensed indications Updated case studies

Clinical Pharmacy and Therapeutics

A detailed textbook on all aspects of therapeutics and the rational use of medicines, organized primarily by systems and disorders and written from the pharmacist's point of view.

Koda-Kimble and Young's Applied Therapeutics

Rev. ed. of: Applied therapeutics: the clinical use of drugs / edited by Mary Anne Koda-Kimble ... [et al.].
9th ed. c2009.

Clinical Pharmacology and Therapeutics

Clinical Pharmacology and Therapeutics Lecture Notes provides a clear and accessible overview of all the key prescribing topics needed for medical finals and beyond. Detailed coverage and discussion of pharmacology in a clinical context, combined with an easy-to-understand, readable style, helps improve and test understanding of pharmacological principles and reasoning on rotation and into the foundation years. Key features for this edition include: • Clinical scenarios to root each chapter firmly in a real-life setting • Prescribing points flagging up important issues of clinical relevance • Expanded sections on drugs you may need in a hurry, prescribing and its pitfalls, and paediatric prescribing • A self-assessment section to test your knowledge and help prepare for examinations
Clinical Pharmacology and Therapeutics Lecture Notes is an ideal resource for all medical students, junior doctors, and other prescribers, whether learning how pharmacological principles relate to clinical situations, brushing up on the basics while on rotation, or looking for a comprehensive overview of prescribing and therapeutics.

Pathology and Therapeutics for Pharmacists

Aims to show the rationale and role of drug therapy in the management of some common diseases through a consideration of the mechanisms of disease processes in relation to normal function.

Clinical Pharmacy and Therapeutics

The new edition of this popular, well-established textbook addresses the expanding role of the pharmacist in treating patients. It covers treatment of common diseases as well as other medical, therapeutic and patient related issues. Written by both pharmacists and clinicians to reflect a team approach, it offers an in-depth analysis of drug therapy in the treatment of disease, relying on input from the pharmacist as a member of the "team" in hospital and community settings. Information is easy to locate in a logical format organized primarily by systems and disorders.

Clinical Pharmacy and Therapeutics

THE LATEST THERAPEUTIC TREATMENT OPTIONS IN INTERNAL MEDICINE--AT YOUR FINGER-TIPS This peer-reviewed guide highlights important therapeutic treatment options for the most common diseases managed by clinicians practicing internal medicine. SHORT BULLETED CONTENT for ease of use in a clinical setting ORGANIZED BY DISEASE STATE CLINICAL PEARLS to aid in disease management EMBEDDED REFERENCES to facilitate further research DRUG TABLES that include product availability, disease-specific dosing, common adverse reactions and drug/drug interactions SECTIONS INCLUDE: Cardiology, Pulmonary, Gastroenterology, Nephrology, Nutrition, Hematology and Oncology, Infectious Disease, Rheumatology, Psychiatry, Pain, and Transplant HELPFUL APPENDICES INCLUDE: Antidotes, Immunizations, Intrathecal Injections, Intravenous Immunoglobulin, Lab/Drug Interactions and Drug Abuse, Mechanical Ventilation, QT Prolongation, and Steroid Conversion Chart

Internal Medicine A Guide to Clinical Therapeutics

Serves as an introductory textbook for students on clinical pharmacy and therapeutics courses at both an undergraduate and postgraduate level. It will also be of interest to anyone working in RD departments, clinicians and research scholars. The book is written in simple, lucid style with easy-to-understand language. The number of illustrations and figures help provide a clear understanding of the concepts and the question at the end of each chapter enable students to test their comprehension of the subject themselves.

Clinical Pharmacy and Therapeutics

This work is intended to offer guidance to pharmacists who need to bridge the gap between their theoretical knowledge and its practical application to individual patients.

Clinical Pharmacy and Therapeutics

Instant Clinical Pharmacology differs from other clinical pharmacology books commonly used by medical students and junior doctors. It presents essential information about the core topics in clinical pharmacology in a concise, accessible dip-in format and aims to bridge the gap between basic pharmacology and the therapeutic use of drugs in humans. Each topic is concisely displayed in a double-page spread to aid learning and revision. Content in this revised second edition covers the accepted core curriculum of clinical pharmacology: clinical pharmacokinetics, factors affecting dosing, altered drug effects, pharmacovigilance and principles of optimal therapeutics. Simple illustrations and tables support the text and assist to provide rapid access to and explanation of key facts.

Pathology and Therapeutics for Pharmacists

Clinical Therapeutics Primer: Link to the Evidence for the Ambulatory Care Pharmacist is a valuable resource for pharmacy students, new pharmacist practitioners, and practicing pharmacists in the ambulatory setting. Organized by therapeutic concentration, this in-depth text will assist the reader in mastering the skills required to successfully assess and treat commonly encountered outpatient medical conditions such as diabetes, hypertension, chronic pain, and more. Featuring over 40 practical cases and the patient-centered care approach, Clinical Therapeutics Primer provides an evidence-based field guide for applying complex concepts into best clinical practices. Key Features * Key Terms * Learning Objectives * Over 40 Sample Patient Cases * Treatment Algorithms * Key Terminology Review * Clinical Pearls * Discussion Questions * Web Resources Instructor Resources Instructor's Manual PowerPoint Presentations Test Bank Student Companion Website, including: Crossword Puzzles Interactive Flashcards Interactive Glossary Matching Exercises WebLinks Each new, print textbook includes a card with an access code for the Student Companion Website. Access to the Companion Website may also be purchased separately, under the RESOURCES tab, FOR STUDENTS.

Drugs in Use

We know that gender traits and mental disorders are based on social, cultural, personal and physiological background. In order to formulate the best management plan for the patient, the mental health practitioner needs to incorporate all available information. Women and Mental Health provides a comprehensive overview of the most prominent mental health problems in women today. Examining the physiological, social and psychological factors of mental illness, and providing an up-to-date perspective on the etiology of different disorders, the book will help mental health professionals formulate the best management plan for the individual. Covering issues including perinatal psychiatric disorders, depression, eating disorders, schizophrenia, and alcohol and drug abuse - from a female perspective - Women and Mental Health will prove a valuable tool for all those working in the fields of mental health.

Instant Clinical Pharmacology

This book is taking a broad health focused approach towards Domestic Violence and Abuse (DVA). It is now well established that DVA exerts a significant and detrimental impact on the health and wellbeing of those who experience abuse. Universally healthcare professionals encounter individuals and families where DVA is or has taken place. This book is beneficial to a range of health care professionals through an exploration of theories and classifications of DVA, consideration of DVA in different contexts and consideration of the core issues surrounding working with individuals and families where DVA has been identified. It provides a much needed evidence based addition to the existing texts in this field in terms of the inclusion of real life scenarios, reflective exercises and pointers for further practice development. This book is a key point of reference for professionals working within a broad range of health care environments.

Clinical Pharmacy and Therapeutics

Infectious diseases are the leading cause of death globally, particularly among children and young adults. The spread of new pathogens and the threat of antimicrobial resistance pose particular challenges in combating these diseases. Major Infectious Diseases identifies feasible, cost-effective packages of interventions and strategies across delivery platforms to prevent and treat HIV/AIDS, other sexually transmitted infections, tuberculosis, malaria, adult febrile illness, viral hepatitis, and neglected tropical diseases. The volume emphasizes the need to effectively address emerging antimicrobial resistance, strengthen health systems, and increase access to care. The attainable goals are to reduce incidence, develop innovative approaches, and optimize existing tools in resource-constrained settings.

Clinical Pharmacy: Pathology and Therapeutics.

A majority of people living in rural areas and urban slums worldwide have minimal access to healthcare. Without information about what to give a child with stomach flu, how to relieve the pain of a broken bone, and how to work against increased substance abuse in a village, the whole community suffers. Children, adolescents, adults, and older people are all affected by the lack of what many of us view as basic healthcare, such as vaccination, pain killers, and contraceptives. To improve living conditions and life expectancy, the people in urban slums and rural areas need access to a trained health care worker, and a functioning clinic. Setting up Community Health and Development Programmes in Low and Middle Income Settings illustrates how to start, develop, and maintain a health care programme in poor areas across the world. The focus is on the community, and how people can work together to improve health through sanitation, storage of food, fresh water, and more. Currently, there is a lack of 17 million trained health care workers worldwide. Bridging the gap between medical professionals and people in low income areas, the aim of this book is for a member of the community to receive training and become the health care worker in their village. They will then in turn spread information and set up groups working to improve health. The book also explains in detail how communities can work alongside experts to ensure that practices and processes work effectively to bring the greatest impact. Copiously illustrated and written in easy-to-read English, this practical guide is designed to be extremely user friendly. Ideal for academics, students, programme managers, and health care practitioners in low and middle income settings worldwide, it is an evidence based source full of examples from the field. Setting up Community Health and Development Programmes in Low and Middle Income Settings shows how a community can both identify and solve its own problems, and in that way own its future. This is an open access title available under the terms of a CC BY-NC 4.0 International licence.

Clinical Therapeutics Primer

Christ crucified draws all men unto Himself because Christ crucified meets the first, the deepest, the greatest and most fundamental need of man. What is man's first, greatest, deepest, most fundamental need? A Savior. Every man of every race is a sinner, "there is no difference" at this point. And every man shall have to answer for his sin to the infinitely holy God who rules this universe. Therefore, all men need an atoning Savior who can by His atoning death make propitiation for, and so cover up, our sins-thus reconciling us to this holy God, delivering us from His awful wrath, and bringing us out into the glorious sunlight of His favor.

Clinical Pharmacy and Therapeutics

This book examines how complementary and alternative medicine (CAM) – as knowledge, philosophy and practice – is constituted by, and transformed through, broader social developments. Shifting the sociological focus away from CAM as a stable entity that elicits perceptions and experiences, chapters explore the forms that CAM takes in different settings, how global social transformations elicit varieties of CAM, and how CAM philosophies and practices are co-produced in the context of social change. Through engagement with frameworks from Science and Technology Studies (STS), CAM is reconceptualised as a set of practices and knowledge-making processes, and opened up to new forms of analysis. Part 1 of the book explores how and why boundaries within CAM and between CAM and other health practices, are being constructed, challenged and changed. Part 2 asks how CAM as material practice is shaped by politics and regulation in a range of national settings. Part 3 examines how evidence is being produced and used in CAM research and practice. Including studies of CAM in Eastern and Western Europe, Asia, and North and South America, the volume will appeal to postgraduate students, researchers and health practitioners.

CLINICAL PHARMACY AND THERAPEUTICS, INTERNATIONAL EDITION

The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

Clinical Pharmacology

Provides critical evidenced based assessments and tools with which to investigate the role of rights abrogation in the health of populations.

A Textbook of Clinical Pharmacology

The opioid crisis in the United States has come about because of excessive use of these drugs for both legal and illicit purposes and unprecedented levels of consequent opioid use disorder (OUD). More than 2 million people in the United States are estimated to have OUD, which is caused by prolonged use of prescription opioids, heroin, or other illicit opioids. OUD is a life-threatening condition associated with a 20-fold greater risk of early death due to overdose, infectious diseases, trauma, and suicide. Mortality related to OUD continues to escalate as this public health crisis gathers momentum across the country, with opioid overdoses killing more than 47,000 people in 2017 in the United States. Efforts to date have made no real headway in stemming this crisis, in large part because tools that already exist—like evidence-based medications—are not being deployed to maximum impact. To support the dissemination of accurate patient-focused information about treatments for addiction, and to help provide scientific solutions to the current opioid crisis, this report studies the evidence base on medication assisted treatment (MAT) for OUD. It examines available evidence on the range of parameters and circumstances in which MAT can be effectively delivered and identifies additional research needed.

Lecture Notes on Clinical Pharmacology

This book offers reflections on how liberation might be experienced by clients as a result of the therapeutic relationship. It explores how power and resistance might be most effectively and ethically understood and utilised in clinical practice with survivors of trauma. Power, Resistance and Liberation in Therapy with Survivors of Trauma draws together narrative therapy, Coordinated Management of Meaning (CMM) and liberation psychology approaches. It critically reviews each approach and demonstrates what each contributes to the other as well as how to draw them together in a coherent way. The book presents: an original take on CMM through the lenses of power and resistance a new way of thinking about resistance in life and therapy, using the metaphor of creativity numerous case examples to support strong theory-practice links. Through the exploration of power, resistance and liberation in therapy, this book presents innovative ways of conceptualising these issues. As such it will be of interest to anyone in the mental health fields of therapy, counselling, social work or critical psychology, regardless of their preferred model. It will also appeal to those interested in a socio-political contextual analysis of complex human experience.

Women and Mental Health

Sixth edition of the hugely successful, internationally recognised textbook on global public health and epidemiology, with 3 volumes comprehensively covering the scope, methods, and practice of the discipline

Guidelines for Preventing Workplace Violence for Health Care & Social Service Workers

Highly acclaimed in its first edition and thoroughly revised and expanded in this second edition, this volume uses an interdisciplinary approach and covers trauma to each body region, psychosocial

considerations, normal variants, disease simulating abuse, congenital malformations, dating fractures, and much more. This edition contains a heavier emphasis on MRI, expanded discussion of differential diagnosis, expanded legal issues and the addition of recent scientific work relevant to diagnosing child abuse. * New to this edition: heavier emphasis on MRI, expanded discussion of differential diagnosis, and expanded legal issues * Chapters cover trauma to each body region, psychosocial considerations, normal variants, diseases simulating abuse, congenital malformations, dating fractures, and much more

Domestic Violence in Health Contexts: A Guide for Healthcare Professions

"This book is superb. Most undergraduates have to undertake some form of literature review which may be daunting, this book explains it in an clear, easy to understand format. Explanations are given as to why undertaking a literature review is undertaken. Summery sections at the end of each chapter allow the reader to reflect on what they have just read, allowing the information to sink in. This book should be on every university's recommended reading list." Kerry Davis, Student Nurse, University Campus Suffolk, UK "This book is fantastic! It gives a clear, concise guide to carrying out a literature review, which is of course a widely used formative assessment technique in a nursing program ... (it includes) in depth explanations and reasons as to how and why it is important to do a literature review ... the summary section at the end of each chapter is excellent, and allows the reader to review their understanding of what they're just read. Overall an excellent book which is a must for any student nurse!" Gem Smith, Student Nurse, Northumbria University, UK "This book is superb. It explains the entire process of writing a literature review very clearly ... extremely helpful as the prospect of reviewing literature can be quite daunting." Vicky Bain, Student Nurse, University of Nottingham, UK "A comprehensive, easy to read guide which will help students to understand how to undertake a literature review, and how to use the resultant information effectively." Anne-Marie Warnes, University of Central Lancashire, UK "As a student, currently writing a literature review, I found this an extremely helpful book, which is invaluable in demystifying some of the more challenging elements, while at the same time providing clear, simple, appealing and appropriate guidance. This is a must have for undergraduate nursing students, and indeed all healthcare students embarking on such projects." Audrey Grace, Trinity College Dublin, Dublin, Ireland This bestselling book is a step-by-step guide to doing a literature review in health and social care. It is vital reading for all those undertaking their undergraduate or postgraduate dissertation or any research module which involves a literature review. The new edition has been fully updated and provides a practical guide to the different types of literature that you may come across when undertaking a literature review. It includes: Examples of commonly occurring real life scenarios encountered by students Emphasis on the importance of setting a question at the very start of the project Advice on how to follow a clearly defined search strategy Details of a wide range of critical appraisal tools Doing a Literature Review in Health and Social Care 2/e is essential reading for students at all levels within the health and social care field - and a useful text for anyone new to reviewing and appraising evidence.

Disease Control Priorities, Third Edition (Volume 6)

Human beings, regardless of age, sex, or state of health, are designed by evolution to form meaningful interpersonal relationships through verbal and nonverbal communication. The theme that empathic human connections are beneficial to the body and mind underlies all 12 chapters of this book, in which empathy is viewed from a multidisciplinary perspective that includes evolutionary biology; neuropsychology; clinical, social, developmental, and educational psychology; and health care delivery and education.

Setting Up Community Health and Development Programmes in Low and Middle Income Settings

Hepatitis C virus (HCV), a major causative agent of chronic liver disease, is spread throughout the world and around 170 million people are persistently infected. In this volume, world-leading experts in the field of HCV research have compiled the most recent scientific advances to provide a comprehensive and very timely overview of the various facets of HCV. The book starts with a discussion of the possible origin of HCV and its spread among the human population. The focus of the subsequent chapters is on available cell culture and in vivo models before shifting to the molecular and cellular principles underlying the viral replication cycle. These chapters are complemented by insightful descriptions of the innate and adaptive immune responses to HCV as well as the virus-associated pathogenesis. Finally,

the development of antiviral therapies, which is closely linked with progress in basic research, and the implementation of those therapies into present and future daily clinical practice are highlighted.

Christ Uplifted: the Great Attraction

Sexual abuse of children and adolescents is a gross violation of their rights and a global public health problem. It adversely affects the health of children and adolescents. Health care providers are in a unique position to provide an empathetic response to children and adolescents who have been sexually abused. Such a response can go a long way in helping survivors recover from the trauma of sexual abuse. WHO has published new clinical guidelines *Responding to Children and Adolescents Who Have Been Sexually Abused* aimed at helping front-line health workers, primarily from low resource settings, in providing evidence-based, quality, trauma-informed care to survivors. The guidelines emphasize the importance of promoting safety, offering choices and respecting the wishes and autonomy of children and adolescents. They cover recommendations for post-rape care and mental health; and approaches to minimizing distress in the process of taking medical history, conducting examination and documenting findings.

Hedy Lamarr

Hedy Lamarr's life was punctuated by salacious rumors and public scandal, but it was her stunning looks and classic Hollywood glamour that continuously captivated audiences. Born Hedwig Kiesler, she escaped an unhappy marriage with arms dealer Fritz Mandl in Austria to try her luck in Hollywood, where her striking appearance made her a screen legend. Her notorious nude role in the erotic Czech film *Ecstasy* (1933), as well as her work with Cecil B. DeMille (*Samson and Delilah*, 1949), Walter Wanger (*Algiers*, 1938), and studio executive Louis B. Mayer catapulted her alluring and provocative reputation as a high-profile sex symbol. In *Hedy Lamarr: The Most Beautiful Woman in Film*, Ruth Barton explores the many facets of the screen legend, including her life as an inventor. Working with avant-garde composer and film scorer George Antheil, Lamarr helped to develop and patent spread spectrum technology, which is still used in mobile phone communication. However, despite her screen persona and scientific success, Lamarr's personal life caused quite a scandal. A string of failed marriages, a lawsuit against her publisher regarding her sensational autobiography, and shoplifting charges made her infamous beyond her celebrity. Drawing on extensive research into both the recorded truths of Lamarr's life and the rumors that made her notorious, Barton recognizes Lamarr's contributions to both film and technology while revealing the controversial and conflicted woman underneath. *Hedy Lamarr: The Most Beautiful Woman in Film* illuminates the life of a classic Hollywood icon.

Hedy Lamarr

This true story of a Hollywood sex symbol's tumultuous life is "a real page-turner. Now, here is a book that would make a great movie" (London Daily Mail). Hedy Lamarr's life was punctuated by salacious rumors and public scandal, but it was her stunning looks and classic Hollywood glamour that continuously captivated audiences. Born Hedwig Kiesler, she escaped an unhappy marriage with arms dealer Fritz Mandl in Austria to try her luck in Hollywood, where her striking appearance made her a screen legend. Her notorious nude role in the erotic Czech film *Ecstasy*, as well as her work with Cecil B. DeMille (*Samson and Delilah*), Walter Wanger (*Algiers*), and studio executive Louis B. Mayer catapulted her alluring and provocative reputation as a high-profile sex symbol. In this biography, Ruth Barton explores the many facets of the screen legend—including her life as an inventor. Working with avant-garde composer and film scorer George Antheil, Lamarr helped to develop and patent spread spectrum technology, which is still used in mobile phone communication. However, despite her screen persona and scientific success, Lamarr's personal life included a string of failed marriages, a lawsuit against her publisher regarding her sensational autobiography, and shoplifting charges that made her infamous beyond her celebrity. Drawing on extensive research into both the recorded truths of Lamarr's life and the rumors that made her notorious, Barton recognizes Lamarr's contributions to both film and technology while revealing the controversial and conflicted woman underneath.

Hedy Lamarr

Presents the life and career of the Hollywood actress, whose beauty and acting ability led to starring roles in over thirty films and who was also the co-inventor of a frequency-hopping technology still used today in cell phones.

Hedy's Folly

Pulitzer Prize-winning author Richard Rhodes delivers a remarkable story of science history: how a ravishing film star and an avant-garde composer invented spread-spectrum radio, the technology that made wireless phones, GPS systems, and many other devices possible. Beginning at a Hollywood dinner table, Hedy's Folly tells a wild story of innovation that culminates in U.S. patent number 2,292,387 for a "secret communication system." Along the way Rhodes weaves together Hollywood's golden era, the history of Vienna, 1920s Paris, weapons design, music, a tutorial on patent law and a brief treatise on transmission technology. Narrated with the rigor and charisma we've come to expect of Rhodes, it is a remarkable narrative adventure about spread-spectrum radio's genesis and unlikely amateur inventors collaborating to change the world.

The Only Woman in the Room

The New York Times and USA Today Bestseller Hedy Lamarr possessed a stunning beauty. She also possessed a stunning mind. Could the world handle both? Her beauty almost certainly saved her from the rising Nazi party and led to marriage with an Austrian arms dealer. Underestimated in everything else, she overheard the Third Reich's plans while at her husband's side, understanding more than anyone would guess. She devised a plan to flee in disguise from their castle, and the whirlwind escape landed her in Hollywood. She became Hedy Lamarr, screen star. But she kept a secret more shocking than her heritage or her marriage: she was a scientist. And she knew a few secrets about the enemy. She had an idea that might help the country fight the Nazis...if anyone would listen to her. A powerful novel based on the incredible true story of the glamour icon and scientist whose groundbreaking invention revolutionised modern communication, The Only Woman in the Room is a masterpiece.

Beautiful: The Life of Hedy Lamarr

Hedy Lamarr's exotic beauty was heralded across Europe in the early 1930s. Yet she became infamous for her nude scenes in the scandalous movie Ecstasy. Trapped in a marriage to one of Austria's munitions barons, a friend of Mussolini's who hid his Jewish heritage to become an "honorary Aryan" at the onset of World War II, Lamarr fled Europe for Hollywood, where she was transformed into one of film's most glamorous celebrities, appearing opposite such actors as Clark Gable, Spencer Tracy, and James Stewart. As her career faded, she went from one husband to the next, her personal troubles and legal woes casting a shadow over her phenomenal intelligence and former image. Stephen Michael Shearer separates the truth from the rumors regarding the life of Hedy Lamarr, and highlights her astonishing role as inventor of a technology that has become an essential part of everything from military weaponry to today's cell phones.

Ecstasy and Me My Life As a Woman

This is the autobiography of Hedy Lamarr, who is famous for two things: First: Her movie career, as she was regarded as the most beautiful woman in Hollywood. She was also the first woman ever to appear nude in a movie. Second: She is famous as an inventor, a scientist and a researcher, especially during the Second World War, as she developed and patented a method to defend against torpedoes and missiles. She also developed an anti-aircraft system where the anti-aircraft fire would not hit the aircraft but would explode nearby. Nowadays, in the aftermath of the shooting down of Malaysian Airline 17 over Eastern Ukraine, killing 298 passengers, a new look is being taken at the process developed by Hedy Lamarr. The missile that shot down the Malaysian Airplane used a system similar to the one developed by Hedy Lamarr, and the defense against torpedoes she developed might have applications to prevent future commercial aircraft from being knocked down.

Glamour and Style

She was called "the most beautiful girl in the world" and during Hollywood's Golden Age of the 1930s and 1940s, she set standards of beauty and sophistication copied throughout the world during the three decades of her film career. When she made her American cinema debut opposite Charles Boyer

in Walter Wanger's moody 1938 romance-drama, *Algiers*, her character's first appearance in that film literally took audiences' breath away. Her exotic beauty was heralded in picture after picture. Hedy Lamarr is a photographic tribute to this extraordinary woman. Focusing on her spectacular beauty, it will contain hundreds of personal and professional photographs, many never before published, along with private letters, memorabilia, ephemera, estate jewelry, and gowns. It will have a running biographical commentary by biographer Stephen Michael Shearer, author of the definitive book of the star, *Beautiful: The Life of Hedy Lamarr* (St. Martins Press). This book will give the film fan and avid reader an ample opportunity to view and understand this most remarkable, beautiful woman. And, to introduce her to a new generation.

Hedy Lamarr: An Incredible Life

"Hollywood icon by day, unsung science genius by night."

Hedy Lamarr's Double Life

"Revelatory to young audiences in more ways than one." —Kirkus "Many STEM-for-girls biographies fan excitement over women's achievements, but this title actually brings the central scientific concept within middle-grade reach." —The Bulletin of the Center for Children's Books Movie star by day, ace inventor at night: learn about the hidden life of actress Hedy Lamarr! To her adoring public, Hedy Lamarr was a glamorous movie star, widely considered the most beautiful woman in the world. But in private, she was something more: a brilliant inventor. And for many years only her closest friends knew her secret. Now Laurie Wallmark and Katy Wu, who collaborated on Sterling's critically acclaimed picture-book biography *Grace Hopper: Queen of Computer Code*, tell the inspiring story of how, during World War Two, Lamarr developed a groundbreaking communications system that still remains essential to the security of today's technology.

Hedy Lamarr

Discover the remarkable life of Hedy Lamarr...Hedy Lamarr was a rare kind of woman. She was not only a strikingly beautiful actress who took Hollywood by storm in the 1940s, but she was also an inventor-and not just any inventor. Hedy Lamarr's work with radio frequencies is credited with paving the way for Wi-Fi. It seems that the greatest bomb that this bombshell dropped would only fully explode until the last years of her life because when Lamarr passed away in the year 2000, the computing world was just then mainstreaming many of her ideas. Sadly, as amazing as her early career was, in later life, Lamarr became reclusive and had very limited contact with the outside world. It is perhaps ironic that it was the ideas of this recluse that would bring so many people together in the modern world of interconnectedness. In this book, we delve deep into the full unvarnished life and legacy of the woman we know as Hedy Lamarr. Discover a plethora of topics such as The Runaway Bride The Controversy of Lamarr's Adopted Son Hedy During World War II Lamarr's Last Film Arrested for Shoplifting Hedy's Disappearing Act And much more! So if you want a concise and informative book on Hedy Lamarr, simply scroll up and click the "Buy now" button for instant access!

Ecstasy and Me

"They called her 'the most beautiful woman of the century', and in a decade when Hollywood still had superstars, she was a legend. These are Hedy Lamarr's uninhibited memoirs in which she conceals little about her six marriages and is outspoken about her hundreds of lovers" -- website.

Hedy and Her Amazing Invention

A story about the famous Hollywood actress Hedy Lamarr that showcases her scientific achievements and uplifts girls everywhere.

Hollywood v. Beauty and the Synchronicity of the Six

Hollywood v. Beauty and the Synchronicity of the Six presents the biographies of six movie actresses from the 1920s to the 1970s, with a single actress representing her decade of activity: Louise Brooks 1920s, Jean Harlow 1930s, Hedy Lamarr 1940s, Barbara Payton 1950s, Jean Seberg 1960s, and Sondra Locke 1970s. The synchronicity between the lives of these women is phenomenal, and their stories are as dramatic and exciting as any to come from that town, stretching all the way from complete ruination to thrilling triumph. Along the way, the story of movies in the Golden Age unfolds as six

movie actresses try to survive in the most artificial place on Earth. The power elite of Hollywood could transform unknowns into movie stars or erase the famous into oblivion. Since beauty has its own innate power, it is inevitable these two entities would face off.

Designs on the Past

Celebrity gossip meets history in this compulsively readable collection from BuzzFeed reporter Anne Helen Petersen. This guide to film stars and their deepest secrets is sure to top your list for movie gifts and appeal to fans of classic cinema and hollywood history alike. Believe it or not, America's fascination with celebrity culture was thriving well before the days of TMZ, Cardi B, Kanye's tweets, and the #metoo allegations that have gripped Hollywood. And the stars of yesteryear? They weren't always the saints that we make them out to be. BuzzFeed's Anne Helen Petersen, author of *Too Fat, Too Slutty, Too Loud*, is here to set the record straight. Pulling little-known gems from the archives of film history, Petersen reveals eyebrow-raising information, including: • The smear campaign against the original It Girl, Clara Bow, started by her best friend • The heartbreaking story of Montgomery Cliff's rapid rise to fame, the car accident that destroyed his face, and the "long suicide" that followed • Fatty Arbuckle's descent from Hollywood royalty, fueled by allegations of a boozy orgy turned violent assault • Why Mae West was arrested and jailed for "indecent charges" • And much more Part biography, part cultural history, these stories cover the stuff that films are made of: love, sex, drugs, illegitimate children, illicit affairs, and botched cover-ups. But it's not all just tawdry gossip in the pages of this book. The stories are all contextualized within the boundaries of film, cultural, political, and gender history, making for a read that will inform as it entertains. Based on Petersen's beloved column on the Hairpin, but featuring 100% new content, *Scandals of Classic Hollywood* is sensationalism made smart.

Scandals of Classic Hollywood

A biographical historical novel covering a period of tribulation and transformation for Hedwig Kiesler, "the most beautiful girl in the world," who achieves lasting fame as movie star Hedy Lamarr--and enduring influence as an inventor.

Beautiful Invention

With his rugged features and earthy sex appeal, Victor Mature ushered in a new breed of postwar Hollywood actor, far removed from the debonair matinee idols of the 1930s. Following success as an upbeat leading man in the early 1940s Fox musicals, opposite the likes of Betty Grable and Rita Hayworth, he went on deliver two of his most powerful performances in *My Darling Clementine* (1946) and *Kiss of Death* (1947). But it was in the biblical epics such as *Samson and Delilah* (1949), *The Robe* (1953) and *Demetrius and the Gladiators* (1954) that his heartfelt acting and statuesque, larger than life screen presence finally secured his place as a Hollywood icon. Beginning with a concise biography, this work covers Mature's film career in its entirety, featuring synopses, anecdotes from cast and crew, and review commentary.

The Films of Victor Mature

Stand Still & Look Stupid is the award-winning, critically acclaimed play by playwright Mike BroemelHedy Lamarr. As a 19-year old girl she revolutionized the film industry as the first woman in a mainstream movie to be portrayed in sexual rapture. Hedy Lamarr. At the height of her Hollywood career, she developed technology that made her one of the most important inventors in all of history. At the time of the Nazi annexation of Austria, Hedy Lamarr fled to the United States. Within a couple of years, she became one of the most talked-about actors on the silver screen. After her first U.S. motion picture, Lamarr was known as "the most beautiful girl in the world," a moniker she would carry throughout her career . She made over 20 Hollywood films before leaving the industry and living most of the rest of her life in seclusion. Spread spectrum technology, conceived by Hedy Lamarr, is indispensable for wireless communication. Her invention is described as the backbone of the digital communications age ... from mobile phones to WiFi to GPS to Bluetooth to the barcode scanner at the market ... and countless other technologies. Global communication exists ... because of a woman once best known as the most beautiful girl in the world.

Stand Still & Look Stupid

Florence Nightingale is famous as the “lady with the lamp” in the Crimean War, 1854—56. There is a massive amount of literature on this work, but, as editor Lynn McDonald shows, it is often erroneous, and films and press reporting on it have been even less accurate. The Crimean War reports on Nightingale’s correspondence from the war hospitals and on the staggering amount of work she did post-war to ensure that the appalling death rate from disease (higher than that from bullets) did not recur. This volume contains much on Nightingale’s efforts to achieve real reforms. Her well-known, and relatively “sanitized”, evidence to the royal commission on the war is compared with her confidential, much franker, and very thorough Notes on the Health of the British Army, where the full horrors of disease and neglect are laid out, with the names of those responsible.

Florence Nightingale: The Crimean War

Major Motion Picture Adaptation Coming Soon The internationally acclaimed actress Patricia Neal (1926–2010) was a star on stage, film, and television for more than sixty years. On Broadway she appeared in such lauded productions as Lillian Hellman's *Another Part of the Forest*, winning the first Tony award. In Hollywood she starred opposite the likes of John Wayne, Paul Newman, John Garfield, and Gary Cooper in some thirty films. She is perhaps best known for her portrayal of Alma Brown in *Hud*, which earned her the 1963 Academy Award for Best Actress. But there was much more to Neal's life. She was born in Packard, Kentucky, though she spent most of her childhood in Knoxville, Tennessee. For a time, Neal became romantically involved with Gary Cooper, her married costar in *The Fountainhead*. In 1953, Neal wed famed children's author Roald Dahl, a match that would bring her five children and thirty years of dramatic ups and downs. At the pinnacle of her screen career, Neal suffered a series of strokes which left her in a coma for twenty-one days, and *Variety* even ran a headline erroneously stating that she had died. After a difficult recovery, Neal returned to film acting, earning a second Academy Award nomination for *The Subject Was Roses* (1968). She appeared in several television movie roles in the 1970s and 1980s and won a Golden Globe for Best Actress in a Dramatic TV Movie in 1971 for *The Homecoming*. Adapted as a major motion picture (filmed as *An Unquiet Life*) starring Hugh Bonneville, Keeley Hawes, and Sam Heughan, *Patricia Neal: An Unquiet Life* is the first critical biography detailing the actress's impressive film career and remarkable personal life. Author Stephen Michael Shearer conducted numerous interviews with Neal, her professional colleagues, and her intimate friends and was given access to the actress's personal papers. The result is an honest and comprehensive portrait of an accomplished woman who lived her life with determination and bravado.

Patricia Neal

Whether you're a first-time reader of the novel or someone returning to an old childhood favorite, you'll love the optimism and charm that Rebecca of Sunnybrook Farm epitomizes. Faced with a seemingly insurmountable array of trials and tribulations, the endlessly cheery title character confronts them all -- and ultimately triumphs -- with nothing more than a smile and relentless good will. Introduce it to a special child in your life, or re-read it whenever you need an uplifting dose of perspective.

Rebecca of Sunnybrook Farm

With no formal training as an actor, Welsh-born Ray Milland (1907-1986), a former trooper in the British Army's Household Cavalry, enjoyed a half-century career working alongside some of the great directors and stars from the Golden Age of cinema. He won the Academy Award for Best Actor for his performance as the alcoholic writer in *The Lost Weekend* (1945), a defining moment that enabled him to break free from romantic leads and explore darker shades of his debonair demeanor, such as the veiled menace of his scheming husband in Hitchcock's *Dial M For Murder* (1954). A consummate professional with wide range, Milland took the directorial reins in several of his starring vehicles in the 1950s, most notably in the intelligent Western *A Man Alone* (1955). He comfortably slipped into most genres, from romantic comedy to adventure to film noir. Later he turned to science fiction and horror movies, including two with cult filmmaker Roger Corman. This first complete filmography covers the actor's screen career, with a concise introductory biography and an appendix listing his extensive radio and television credits.

Ray Milland

CALLING ALL WOMEN! *She: A Celebration of Renegade Women* by Stylist's Harriet Hall is the must-have book for women everywhere. Perfect for fans of Caitlin Moran, Lena Dunham and *Good Night Stories For Rebel Girls*. 'SHE is essential for your bookshelf' Stylist SHE is a love letter to

all the women who have thrown out the rulebook and threatened the status quo. It's a toast to the brave, bold and brilliant women who make us proud to be ladies. From fashion icon Coco Chanel to Queen Cleopatra, from literary legend Jane Austen to trailblazer Michelle Obama and from kick-ass activist Malala Yousafzai to the one-and-only Beyoncé, SHE honours 100 truly renegade women, from history through to present day. Gorgeously curated and expertly written by Stylist journalist Harriet Hall, and filled with stunning black and white illustrations by Alice Skinner, SHE is a thing of beauty to be worshipped, just like the women that make up its contents. This statement, timely book is the perfect gift for the renegade women in your life who inspire and amaze you or, for YOU, to simply make you proud of being a woman.

She: A Celebration of Renegade Women

From the international successes of Neil Jordan and Jim Sheridan, to the smaller productions of the new generation of Irish filmmakers, this book explores questions of nationalism, gender identities, the representation of the Troubles and of Irish history as well as cinema's response to the so-called Celtic Tiger and its aftermath. Irish National Cinema argues that in order to understand the unique position of filmmaking in Ireland and the inheritance on which contemporary filmmakers draw, definitions of the Irish culture and identity must take into account the so-called Irish diaspora and engage with its cinema. An invaluable resource for students of world cinema.

Irish National Cinema

A timely collection exploring the politics of female celebrity across a range of contemporary, historical, media and national contexts. >

In the Limelight and Under the Microscope

Edgar G. Ulmer is perhaps best known today for *Detour*, considered by many to be the epitome of a certain noir style that transcends its B-list origins. But in his lifetime he never achieved the celebrity of his fellow Austrian and German émigré directors—Billy Wilder, Otto Preminger, Fred Zinnemann, and Robert Siodmak. Despite early work with Max Reinhardt and F. W. Murnau, his auspicious debut with Siodmak on their celebrated Weimar classic *People on Sunday*, and the success of films like *Detour* and *Ruthless*, Ulmer spent most of his career as an itinerant filmmaker earning modest paychecks for films that have either been overlooked or forgotten. In this fascinating and well-researched account of a career spent on the margins of Hollywood, Noah Isenberg provides the little-known details of Ulmer's personal life and a thorough analysis of his wide-ranging, eclectic films—features aimed at minority audiences, horror and sci-fi flicks, genre pictures made in the U.S. and abroad. Isenberg shows that Ulmer's unconventional path was in many ways more typical than that of his more famous colleagues. As he follows the twists and turns of Ulmer's fortunes, Isenberg also conveys a new understanding of low-budget filmmaking in the studio era and beyond. E

Edgar G. Ulmer

It is 1941. Hedy and her family are Jewish, and the Jew-hating Nazi party is rising. Hedy's family is no longer safe in their home in Hungary. They decide to flee to America, but because of their circumstances, sixteen-year-old Hedy must make her way through Europe alone. Will luck be with her? Will she be brave? Join Hedy on her journey—where she encounters good fortune and misfortune, a kind helper and cruel soldiers, a reunion and a tragedy—and discover how Hedy is both lucky and brave. *Hedy's Journey* adds an important voice to the canon of Holocaust stories, and her courage will make a lasting impact on young readers.

Heritage Vintage Movie Photography & Stills Auction #7003

"This book explores the representation of Helen of Troy in Hollywood film and television, with a particular focus on her defining features: transcendent beauty and transgressive erotic agency. The first chapter, on early Hollywood, sets the scene by explaining the importance of ideas about Greek beauty at the beginning of cinema and highlighting some of the problems that continue to bedevil this topic, especially "realism" and the representation of supreme beauty. Blondell argues that the problem of Helen is baked into Hollywood from the start. In subsequent chapters Blondell examines specific screen adaptations in which Helen is featured. Each of these case studies locates a particular work in its historical, cultural, and generic context, as a framework for addressing the ways in which it approaches

a range of interlocking questions about beauty, its representation, and the cinematic uses of myth. The second chapter is devoted to the sole Hellenic feature film of the silent period, Alexander Korda's *Private Life of Helen of Troy* (1927). Part II moves to the big screen epic, pairing one film from each of the two great waves of ancient world epic spanning the latter half of the 20th century: Robert Wise's 1956 epic *Helen of Troy* and Wolfgang Petersen's more recent extravaganza, *Troy* (2004). In Part III she turns to television, with a chapter on episodic tele-fantasy followed by a study of the 2003 miniseries *Helen of Troy*. In some of these works Helen is the central character (or "hero"); in others she is at the periphery of a masculine adventure. But in all of them she represents the threat of superhuman beauty as an inheritance from classical Greece"--

My Passion

"Her prose is flawless. Her historical research is absorbing, and her characters are achingly human. This book is fantastic." —Kirkus Reviews (starred review) A Library Journal Editors' Pick Buzzfeed's The Ultimate Buzzfeed Books Gift Guide Bookish "Autumn 2017's Most Swoon-Worthy Romance Books" List For all of the War Between the States, Marlie Lynch has helped the cause in peace: with coded letters about anti-Rebel uprisings in her Carolina woods, tisanes and poultices for Union prisoners, and silent aid to fleeing slave and Freeman alike. Her formerly enslaved mother's traditions and the name of a white father she never knew have protected her—until the vicious Confederate Home Guard claims Marlie's home for their new base of operations. Unbeknownst to those under her roof, escaped prisoner Ewan McCall is sheltering in her laboratory. Seemingly a quiet philosopher, Ewan has his own history with the cruel captain of the Home Guard, and a thoughtful but unbending strength Marlie finds irresistible. When the revelation of a stunning family secret places Marlie's freedom on the line, she and Ewan have to run for their lives into the hostile Carolina night. Following the path of the Underground Railroad, they find themselves caught up in a vicious battle that could dash their hopes of love—and freedom—before they ever cross state lines. "The intriguing romance you can't miss." —PopSugar "Successfully navigating the challenges of writing an interracial romance set during the Civil War is difficult enough to do once, but to pull it off twice is truly impressive. And yet Cole has managed to do just that with her second book in the series." —S

Hedy's Journey

Originally a successful painter from Romania, Jean Negulesco worked in Hollywood first as an art director, then as a second unit director. He was later hired as a director by various studios--mostly for ballet and musical shorts--before being assigned to a number of commercially successful films. During his 30-year career, he worked in several European countries yet it was in the U.S. he achieved his greatest success, with Warner Brothers and 20th Century Fox. Dubbed "The Prince of Melodrama" by critics, he directed films of all genres, working with stars like Joan Crawford, John Garfield, Marilyn Monroe, Lauren Bacall, Bette Davis, Richard Burton, Alec Guinness, Fred Astaire and many others. Negulesco was nominated for Best Director by the Academy of Motion Picture Arts and Sciences in 1948 for *Johnny Belinda*--now considered a classic, along with his *The Mask of Dimitrios* (1944), *Humoresque* (1946), *How to Marry a Millionaire* (1953) and *Three Coins in the Fountain* (1954). This book--the first on him since his 1984 autobiography--covers his extraordinary life and career, with extensive analyses of his films.

Helen of Troy in Hollywood

Born in Austria, Hedy Lamarr, an American actress and inventor, led a remarkable life that saw her transitioning from an early cinema career in Czechoslovakia to becoming a Hollywood movie star. Her journey took a turn when she discreetly escaped her affluent Austrian ammunition manufacturer husband, seeking refuge in Paris. Notably, her controversial film, *Ecstasy* (1933), marked the beginning of her intriguing tale. While in London, Lamarr crossed paths with Louis B. Mayer, the studio chief of Metro-Goldwyn-Mayer, who recognized her talent and offered her a movie deal in Hollywood. The turning point in her career came with the success of *Algiers* (1938), solidifying her status as a prominent figure in the film industry. Subsequently, she starred in MGM films like *Lady of the Tropics* (1939), *Boom Town* (1940), *H.M. Pulham, Esq.* (1941), and *White Cargo* (1941). However, it was her portrayal of Delilah in Cecil B. DeMille's *Samson and Delilah* (1949) that truly catapulted her to stardom. Not limited to the silver screen, Lamarr ventured into television, making an appearance in 1958 before the premiere of her final picture, *The Female Animal*. In recognition of her contributions, she received a

star on the Hollywood Walk of Fame in 1960, a testament to her enduring impact on the entertainment industry.

A Hope Divided

In the early days of motion pictures—before superstars, before studio conglomerates, before even the advent of sound—there was a woman named Pearl White (1889–1938). A quintessential beauty of the time, with her perfectly tousled bob and come-hither stare, White's rise to stardom was swift; her assumption of the title of queen of American motion picture serials equally deserved. Born the youngest of five children in a small, rural Missouri farm town, White first began performing in high school. She would eventually make the decision to cut her education short, dropping out to go on the Trousdale Stock Company. A bit player in the early years of her career, she was eventually spotted by the Powers Film Company in New York. She made her film debut in 1910 and soon set herself apart from her female colleagues with her reputation for fearless performances that often involved her own stunt work. It was that same daring attitude that would put her on the map internationally as an actress. From flying airplanes to swimming across rapid rivers, to racing cars in serials like *The Perils of Pauline* (1914), White was undaunted by the demands of her onscreen career. She went on to star in popular serial classics such as *The New Exploits of Elaine* (1915), *The Iron Claw* (1916), *The Fatal Ring* (1917), and *The Lightning Raider* (1919). As active socially as she was professionally, White would also lend her audacious spirit to activism as she took part in the early feminist movement. Her bravery and mastery of her craft made her a positive role model for suffragettes who battled for women's rights in the United States. *The Woman Who Dared: The Life and Times of Pearl White, Queen of the Serials*, is the first full-length biography of this pioneering star. In this study of film history and female agency, Drew delves into the cultural impact of White's work and how it evolved along a concurrent trajectory with the social upheavals of the Progressive Era.

Jean Negulesco

From beloved New York Times and USA Today bestselling author Marie Benedict comes the story of a not-so-famous scientist who not only loved Albert Einstein, but also shaped the theories that brought him lasting renown. In the tradition of Beatriz Williams and Paula McClain, Marie Benedict's *The Other Einstein* offers us a window into a brilliant, fascinating woman whose light was lost in Einstein's enormous shadow. This novel resurrects Einstein's wife, a brilliant physicist in her own right, whose contribution to the special theory of relativity is hotly debated. Was she simply Einstein's sounding board, an assistant performing complex mathematical equations? Or did she contribute something more? Mitza Maric has always been a little different from other girls. Most twenty-year-olds are wives by now, not studying physics at an elite Zurich university with only male students trying to outdo her clever calculations. But Mitza is smart enough to know that, for her, math is an easier path than marriage. Then fellow student Albert Einstein takes an interest in her, and the world turns sideways. Theirs becomes a partnership of the mind and of the heart, but there might not be room for more than one genius in a marriage. Marie Benedict illuminates one pioneering woman in STEM, returning her to the forefront of history's most famous scientists. "The Other Einstein takes you into Mileva's heart, mind, and study as she tries to forge a place for herself in a scientific world dominated by men."—Bustle Recommended by PopSugar, Bustle, Booklist, Library Journal and more! Other Bestselling Historical Fiction from Marie Benedict: *The Mystery of Mrs. Christie* *The Only Woman in the Room* *Lady Clementine* *Carnegie's Maid*

Hedy Lamarr

Iowa-born Jock Mahoney was an elite athlete and U.S. Marines fighter pilot prior to falling into a film career. He is widely considered to be one of the greatest stuntmen in movie history, having taken leaps and bounds for Errol Flynn, John Wayne, Randolph Scott, and Gregory Peck. One of the first stuntmen to successfully move into acting, he was the popular star of the 1950s television westerns *Range Rider* and *Yancy Derringer* and twice played Tarzan on the big screen, presenting a memorable portrayal of an educated, articulate and mature jungle lord true to author Edgar Rice Burroughs' original vision. Filming in real jungles around the world took a physical toll on Mahoney that transformed him from leading man to burly character actor. He had to overcome the effects of a stroke but true to his tough guy nature rose above it to resume his life's many adventures. Mahoney was beloved by fans at conventions and appearances until his untimely demise in 1989 from a stroke-caused motor vehicle accident.

The Woman Who Dared

Ellis Amburn's magnificent biography of the Academy Award®-winning actress and legendary beauty captures the unparalleled Elizabeth in all her tragedy and splendor—her tumultuous loves, her doomed affections, her shocking excesses, her courage, and her inimitable style. Filled with stunning revelations about the men in her life—Burton, Clift, Hilton, Dean, Fisher—it is a glorious celebration of the turbulent life of a brilliant star that none in Hollywood or heaven could ever outshine.

The Other Einstein

An inspiring and surprising celebration of U.S. women's history told through Smithsonian artifacts illustrating women's participation in science, art, music, sports, fashion, business, religion, entertainment, military, politics, activism, and more. This book offers a unique, panoramic look at women's history in the United States through the lens of ordinary objects from, by, and for extraordinary women. Featuring more than 280 artifacts from 16 Smithsonian museums and archives, and more than 135 essays from 95 Smithsonian authors, this book tells women's history as only the Smithsonian can. Featured objects range from fine art to computer code, from First Ladies memorabilia to Black Lives Matter placards, and from Hopi pottery to a couch from the Oprah Winfrey show. There are familiar objects--such as the suffrage wagon used to advocate passage of the 19th Amendment and the Pussy Hat from the 2016 Women's March in DC--as well as lesser known pieces revealing untold stories. Portraits, photographs, paintings, political materials, signs, musical instruments, sports equipment, clothes, letters, ads, personal possessions, and other objects reveal the incredible stories of such amazing women as Phillis Wheatley, Julia Child, Sojourner Truth, Mary Cassatt, Madam C. J. Walker, Amelia Earhart, Eleanor Roosevelt, Mamie Till Mobley, Dolores Clara Fernández Huerta, Phyllis Diller, Celia Cruz, Sandra Day O'Connor, Billie Jean King, Sylvia Rivera, and so many more. Together with illuminating text, these objects elevate the importance of American women in the home, workplace, government, and beyond. Published to commemorate the centennial of the 19th Amendment granting women the right to vote, Smithsonian American Women is a deeply satisfying read and a must-have reflection on how generations of women have defined what it means to be recognized in both the nation and the world.

Jock Mahoney

LIBERTY LADY is the true story of a WWII bomber and its crew forced to land in neutral Sweden during the Eighth Air Force's first large-scale daylight bombing raid on Berlin. 1st Lt. Herman Allen was interned and began working for his country's espionage agency, the OSS, with instructions to befriend a businessman suspected of selling secrets to the Germans. Soon Herman fell in love with a beautiful Swedish-American secretary working for the OSS, their courtship unfolding amid the glamour and intrigue of wartime Stockholm. As Swedish newspapers trumpeted one of the biggest spy scandals of the war, two of the main protagonists walked down the aisle in a storybook wedding presided over by the nephew of the King of Sweden.

Bauern und Staat in Peru

Korruption, Drogen, ausufernde Gewalt, Waffen- und Menschenhandel sowie die Schwäche des Justizsystem bedrohen Staat und Gesellschaft Lateinamerikas. Die Sicherheitsorgane sind überfordert, das Militär wird zum zentralen Akteur im Kampf gegen die organisierte Kriminalität. Im Kontext wachsender Unsicherheit stellt sich die Frage nach den Handlungschancen in Räumen begrenzter Staatlichkeit, die im Buch diskutiert wird.

Anthropos

Text of a series of speeches given in December 2002 at the Universidad Nacional de Loja.

Gewalt, Organisierte Kriminalität und Staat in Lateinamerika

By applying a comparative approach the volume focuses on a select group of „empires“ which are generally not in the focus of empires studies. They are studied in detail and analyzed due to a strict concept that takes into account real history and reception history as well. Reception history becomes more and more an important element in empire studies although this topic is still often more or less underdeveloped. The volume singles out a series of such “forgotten empires”. It aims to provide a methodologically clearly structured as well as a uniform and consistent approach. It develops a general set of questions that help to compare and distinguish these entities. This way the volume intends to examine and to illuminate empires that are generally ignored by modern scholarship.

Sociological Abstracts

Diese Bibliographie - entstanden aus der Datenbank SOLIS (Sozialwissenschaftliches Literaturinformationssystem) - des Informationszentrums Sozialwissenschaften in Bonn enthält die soziologische Fachliteratur der Erscheinungsjahre 1992 bis 1995. In ihr werden ca. 14.250 selbständige und unselbständige Veröffentlichungen aus dem gesamten deutschsprachigen Raum nachgewiesen. Die Bibliographie ist in drei Abschnitte (Grundlagen und Methoden, Spezielle Soziologie, Sozialpsychologie) und insgesamt 29 Kapitel untergliedert. Mit dieser Veröffentlichung wird die Reihe soziologischer Bibliographien abgeschlossen, die mit den 1998 und 1999 erschienenen Bänden "1978 - 1982" (Band 1), "1983 - 1986" (Band 2) und "1987 - 1991" (Band 3) neu begonnen wurde und die bis auf die 1980 erschienene "Bibliographie zur deutschen Soziologie 1945 - 1977" zurückgeht. Die Bibliographie wird (neben der Kapitelgliederung) durch ein umfassendes Personenregister, ein Institutionenregister sowie durch ein zweistufiges Sachregister erschlossen, das sich auf den vom Informationszentrum Sozialwissenschaften entwickelten Thesaurus der sozialwissenschaftlichen Terminologie stützt und alle in ihm enthaltenen Sachgebiete berücksichtigt. Sie enthält ferner eine Liste aller ausgewerteten Zeitschriften.

Abstracts on Rural Development in the Tropics

Studien zur Demokratisierung und Konsolidierung ehemaliger autoritärer Regime haben unter dem Eindruck der politischen Veränderungen in vielen Teilen der Welt während der letzten zwanzig Jahre an Zahl erheblich zugenommen. Weniger Beachtung haben dabei jene Länder gefunden, die sich scheinbar bereits auf den Weg einer erfolgreichen Öffnung ihrer politischen Systeme begeben hatten, dann aber eine autoritäre Regression erlebten. In anderen Staaten wiederum schien die Demokratie bereits am Horizont aufzuleuchten, doch blieb sie bisher noch ein unerreichtes Ziel. Um sich deshalb einmal mit den "blockierten Demokratien" eingehender zu beschäftigen, haben wir im Februar 1995 zu einer Fachtagung an die Forschungsstätte der Evangelischen Studiengemeinschaft (FEST) in Heidelberg eingeladen, an der vor allem jüngere Regionalexperten teilnahmen. Ziel war die Erörterung der Entstehungsfaktoren für blockierte Demokratisierung und der Aussichten auf eine Überwindung solcher Blockaden. Dabei war es uns ein Anliegen, die Referenten auf die Anwendung eines bestimmten methodischen Analysekonzepts zu verpflichten, nämlich auf das von den Herausgebern entwickelte Konzept der strategischen und konfliktfähigen Gruppen (SKOG). Dieser Ansatz bemüht sich um eine Synthese von System- und Akteurebene bei der Untersuchung von Prozessen politischen Wandels und fokussiert die Handlungsdialektik der oppositionellen Gruppen in ihrem Kampf um demokratische Reformen.

Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen

140 Stichwörter mit Daten und Fakten über alle Bürger- und Unabhängigkeitskriege, Nationalismus- und Regionalismuskonflikte.

Hacia la elaboración de una imagen compartida de la Región Sur

Ein multidisziplinäres Verzeichnis der deutschsprachigen Publikationen mit Lateinamerikabezug, die in den vergangenen 200 Jahren erschienen sind, stand bisher nicht zur Verfügung. Die herkömmlichen Nachschlagewerke lassen den Zusammenhang mit Lateinamerika oft gar nicht erkennen, zumal in der fiktionalen Literatur. Ein weiteres Novum ist der Einbezug sowohl der Belletristik wie der Sachbücher. Aus der Datenflut mußte - allein schon mit Rücksicht auf die Benutzer - eine Auswahl getroffen werden. Als Kriterium dafür wurde der Einfluß eines Textes auf das Bild von Lateinamerika gewählt, das man sich im deutschen Kulturraum machte und weiterhin macht. Infolgedessen wurden die aufzunehmenden Titel nach Maßgabe ihrer vermuteten oder erwiesenen Publikumswirkung ausgewählt. Der Hauptteil bringt eine Auswahl aus der Primärliteratur. Im Vorspann werden zudem die weiterführenden Werke und eine Auswahl aus der seit 1970 besonders stark angewachsenen Forschungsliteratur geboten. In beiden Teilen werden die Titel in die ihnen entsprechende Untergliederung nach Gattungen bzw. Sachgebieten eingeordnet. Querverweise und ein Namenregister bieten eine bequeme Suchhilfe. Dem Benutzer, zumal wenn er auch in die weniger vertrauten Kapitel hineinschaut, bietet sich manche Überraschung: Wer in diesem Bücherverzeichnis blättert wie in einem Lesebuch, wird Einblick gewinnen in die wechselvolle Geschichte der Beziehungen zwischen den Deutschsprachigen und Lateinamerika. Un registro multidisciplinario (selección) de publicaciones (a partir de 1800) con referencia a América Latina que abarca las diferentes clases de textos y las varias disciplinas pertinentes. Sobre todo literatura de creación, además de referencias a las fuentes

y bibliografía científica (a partir de 1970). Criterio de la selección es su relevancia en relación con la imagen de América Latina en el ámbito de lengua alemana y la amplitud del influjo de un texto. Subdivisión en capítulos por géneros y materias. Índice onomástico.

Die Kriege 1985 bis 1990

This innovative collection brings together essays on women's religious experiences in both Europe and the Americas during the colonial era.

Empires to be remembered

Das Buch enthält systematische Darstellungen politischer Systeme Nord- und Lateinamerikas. Behandelt werden jeweils historische Grundlagen, Verfassung und Verfassungsentwicklung, politische Institutionen und Prozesse, Staatsorganisationsstrukturen, Rechtssystem, Militär, Interessenverbände, Kirchen, Massenmedien sowie Aspekte der politischen Kultur. Neben einer vergleichenden Einleitung der Herausgeber umfasst der Band 22 Einzelbeiträge namhafter Historiker und Politikwissenschaftler zu den Ländern Argentinien, Bolivien, Brasilien, Chile, Costa Rica, Dominikanische Republik, Ecuador, El Salvador, Guatemala, Haiti, Honduras, Kanada, Kolumbien, Kuba, Mexiko, Nicaragua, Panama, Paraguay, Peru, Uruguay, Venezuela und den Vereinigten Staaten von Amerika.

The Peoples Republic of Benin

Das politökonomische Konzept der Rente, das über lange Zeit hinweg in der wissenschaftlichen Diskussion keine Rolle mehr gespielt hatte, ist in den letzten beiden Jahrzehnten wieder verstärkt aufgegriffen worden. Dienten Rententheorien früher überwiegend der Charakterisierung spezifischer Einkommen, die auf verschiedene Marktverzerrungen politischer, sozialer oder wirtschaftlicher Art zurückzuführen sind, so wird das Rentenkonzept heute immer häufiger zur Erklärung von Entwicklungsbarrieren, internationalen Herrschaftsstrukturen und politischen Systemmerkmalen verwendet. Dieser Sammelband präsentiert die zentralen Forschungskonzepte und Problemkreise der aktuellen Rentendebatte.

Bibliographie zur deutschen Soziologie

One of the richest and most complex civilizations in ancient America evolved around Lake Titicaca in southern Peru and northern Bolivia. This book is the first comprehensive synthesis of four thousand years of prehistory for the entire Titicaca region. It is a fascinating story of the transition from hunting and gathering to early agriculture, to the formation of the Tiwanaku and Pucara civilizations, and to the double conquest of the region, first by the powerful neighboring Inca in the fifteenth century and a century later by the Spanish Crown. Based on more than fifteen years of field research in Peru and Bolivia, Charles Stanish's book brings together a wide range of ethnographic, historical, and archaeological data, including material that has not yet been published. This landmark work brings the author's intimate knowledge of the ethnography and archaeology in this region to bear on major theoretical concerns in evolutionary anthropology. Stanish provides a broad comparative framework for evaluating how these complex societies developed. After giving an overview of the region's archaeology and cultural history, he discusses the history of archaeological research in the Titicaca Basin, as well as its geography, ecology, and ethnography. He then synthesizes the data from six archaeological periods in the Titicaca Basin within an evolutionary anthropological framework. Titicaca Basin prehistory has long been viewed through the lens of first Inca intellectuals and the Spanish state. This book demonstrates that the ancestors of the Aymara people of the Titicaca Basin rivaled the Incas in wealth, sophistication, and cultural genius. The provocative data and interpretations of this book will also make us think anew about the rise and fall of other civilizations throughout history.

World Agricultural Economics and Rural Sociology Abstracts

Konflikte scheinen heute gleichbedeutend mit Gewalt und Krieg. Doch Konflikte sind vielschichtig: Sie können sowohl zur Integration von Gesellschaften beitragen als auch diese zerbrechen. Die Anthropologie der Konflikte, zu der Georg Elwert weiterführende Thesen beigetragen hat, beleuchtet unterschiedliche Konflikt dynamiken und geht der Frage nach, unter welchen Bedingungen integrative, eskalative oder segregative Institutionen der Konfliktaustragung entstehen - oder wieder zerfallen. Der Band geht davon aus, dass Konfliktformen und soziale Organisation in einem wechselseitigen

Zusammenhang stehen. Daher hat die Anthropologie der Konflikte deren verschiedene Formen, ihre kulturelle Codierung wie auch ihre konstitutive Rolle für sozialen Wandel zu untersuchen.

Blockierte Demokratien in der Dritten Welt

6., umgearb., verm. und verb. Aufl. 827 und 905 S., 1874

Bauernbewegung in Peru

A timely new perspective on the impact of populism on the relationship between democracy and public administration.

Land Tenure, Agricultural Economics and Rural Development: Citations 3170-7717 : Asia, Europe, Latin America and the Caribbean, Middle East, North America, Oceania

Hans-Jürgen Puhle hat seit langem als Historiker und Politikwissenschaftler vor allem zwei große Themenkomplexe im Vergleich bearbeitet: die unterschiedlichen Entwicklungswege einzelner Gesellschaften und Staaten in die Moderne seit dem ausgehenden 18. Jahrhundert, und Entwicklung und Wandel organisierter Politik und politischer Öffentlichkeit in den Prozessen der Durchsetzung von Interventionsstaatlichkeit und Massendemokratie, insbesondere zwischen dem qualitativen ›Sprung‹ der Modernisierung und Ausweitung politischer Organisation am Ende des 19. Jahrhunderts und einer ähnlich einschneidenden Zäsur hundert Jahre später im Zeichen von Informationstechnologie, vermehrter Fragmentierung und transnationaler und globaler Vernetzung und Entgrenzung. Die in diesem Band versammelten Aufsätze aus vier Jahrzehnten über gesellschaftliche und politische Entwicklungen in Deutschland, West- und Südeuropa, Nordamerika und Lateinamerika beleuchten exemplarisch u.a. Entwicklung und Wandel politischer Akteure (Protestbewegungen, Parteien, Verbände), Prozesse und Systeme, Probleme von Regimewechsel, Demokratisierung und Demokratiedefekten, die Stufen entwicklungs- und reformpolitischer Strategien, Mechanismen von Nationalismus und Populismus, Transformationstendenzen repräsentativer Demokratien sowie zentrale Charakteristika der unterschiedlichen Entwicklungswege der behandelten Gesellschaften.

Allgemeine Zeitung von und für Bayern

"For anyone who wants to learn about the rise and decline of Potosí as a city . . . Lane's book is the ideal place to begin."—The New York Review of Books In 1545, a native Andean prospector hit pay dirt on a desolate red mountain in highland Bolivia. There followed the world's greatest silver bonanza, making the Cerro Rico or "Rich Hill" and the Imperial Villa of Potosí instant legends, famous from Istanbul to Beijing. The Cerro Rico alone provided over half of the world's silver for a century, and even in decline, it remained the single richest source on earth. Potosí is the first interpretive history of the fabled mining city's rise and fall. It tells the story of global economic transformation and the environmental and social impact of rampant colonial exploitation from Potosí's startling emergence in the sixteenth century to its collapse in the nineteenth. Throughout, Kris Lane's invigorating narrative offers rare details of this thriving city and its promise of prosperity. A new world of native workers, market women, African slaves, and other ordinary residents who lived alongside the elite merchants, refinery owners, wealthy widows, and crown officials, emerge in lively, riveting stories from the original sources. An engrossing depiction of excess and devastation, Potosí reveals the relentless human tradition in boom times and bust.
