The Grendel Affair

We're Supernatural Protection & Investigations, known as SPI. Things that go bump in the night, the monsters you thought didn't exist? We battle them and keep you safe. But some supernatural baddies are just too big to contain, even for us... When I moved to New York to become a world famous journalist, I never imagined that snagging a job at a seedy tabloid would change my career path from trashy reporter to undercover agent. I'm Makenna Fraser, a Seer for SPI. I can see through any disguise, shield, or spell that a paranormal pest can come up with. I track down creatures and my partner, Ian Byrne, takes them out. Our cases are generally pretty routine, but a sickle-wielding serial killer has been prowling the city's subway tunnels. And the murderer's not human. The fiend in question, a descendant of Grendel—yes, that Grendel—shares his ancestor's hatred of parties, revelry, and drunkards. And with New Year's Eve in Times Square only two days away, we need to bag him quickly. Because if we don't find him—and the organization behind him—by midnight, our secret's out and everyone's time is up. FIRST IN A NEW SERIES

The Dragon Conspiracy

After solving The Grendel Affair, the agents have another SPI File to investigate... We're Supernatural Protection & Investigations, known as SPI. We battle the real monsters of myth and legend, but this Halloween, we're searching for diamonds... A gala opening at the Metropolitan Museum of Art has attracted the upper crust of Manhattan—and thieves. A trio of vile harpies attacks the crowd and steals the stars of the exhibition: a colorful cluster of seven cursed diamonds known as the Dragon Eggs. In the right mage's hands, each stone can pack a magical wallop. Together they have the power to "cure" the supernaturals of the tristate area—but for many of those vampires and werewolves, that means turning into dust. I'm Makenna Fraser, a seer for SPI. With the help of my partner, Ian, and the other agents, I have twenty-four hours to prevent total global panic, find the diamonds, and save the supernatural community. No biggie...

The Brimstone Deception

Men in Black meets Janet Evanovich's Stephanie Plum in the new urban fantasy novel starring seer Makenna Fraser and her fellow agents at Supernatural Protection & Investigation. The agents of Supernatural Protection & Investigations (SPI) know that fighting evil is a full-time job, especially when a new designer drug—with mind-blowing side effects—hits the streets... It's called Brimstone. And after the first few hits, you'll see every supernatural beast sharing the sidewalk, train, or office with you. After that, you'll start seeing the really scary stuff. I'm Makenna Fraser, seer for the SPI. And the collateral damage caused by Brimstone is something I'd like to unsee: dead drug dealers missing their hearts—and souls. Because your local pusher doesn't stand a chance against the new cartel muscling its way into New York. And since the drug can only be produced with magic and molten brimstone fresh from Hell, that means a rift to the underworld is open somewhere in the city. And when—not if—the cartel loses control of it, well... It's going to be Hell on earth.

The Ghoul Vendetta

Men in Black meets Janet Evanovich's Stephanie Plum in the fourth urban fantasy novel in the series starring seer Makenna Fraser and her fellow agents at Supernatural Protection & Investigation. The agents of Supernatural Protection & Investigations (SPI) are paid to keep the peace. But that's not so easy when an endless evil threatens to tear that peace to pieces... A vampire gangster's nephew is abducted off his yacht by a bunch of low-rent Creatures from the Black Lagoon. A slew of banks are knocked over by what looks like the cast of Night of the Living Dead. All of this may seem like the movies, but, I promise you, it's not. I'm Makenna Fraser, seer for SPI, and I know the culprits aren't wearing disguises or makeup. They're real. Deadly real. Especially their leader—an ancient shapeshifter who leaves a trail of chaos and blood in his wake. Now, he's taken my partner, Ian—and his intentions aren't pretty. The worst part? This is only the beginning... The beginning of the end of the human race.

The Solstice Countdown

As an agent of Supernatural Protection & Investigations (SPI), I know that evil doesn't take a vacation, but this time it made an exception and followed me on mine. I'm Makenna Fraser, seer for SPI, and I'm taking my boyfriend, goblin dark mage Rake Danescu, home for the holidays to meet my family. Weird Sisters is a small town in the North Carolina mountains that was built on a network of ley lines that magnify psychic and paranormal energies. It doesn't show up on Google Maps, was named after the three witches in Macbeth, and the first word of the town name perfectly describes most of its human and supernatural citizens. A stranger has come to town, bringing with him a dormant source of primordial evil. Soon, magically gifted locals start vanishing, and the power of the ley lines is turned against us, cutting us off from the outside world and any source of help. For a town and its people steeped in magic, and my family sworn to protect both, it's a race against time to use a local winter solstice phenomenon to free the town from its prison. But first, I must trust a father I've never known to fight and defeat an awakening evil that's existed since the beginning of time. If we fail, and it is unleashed, the world will not survive.

Magic Lost, Trouble Found

Raine Benares is a Sorceress Seeker of average ability until she comes into possession of an amulet that amplifies her powers-and her enemies.

The Spider

This prequel tale follows Gin Blanco's transformation into the deadly assassin known as the Spider after she learns how to use her elemental Stone and Ice powers alongside old-fashioned human street smarts to become a lethal adversary. Original.

Bourbon for Breakfast

For seeker Raine Benares, a demon infestation on the Isle of Mid couldn't come at a worse time. Already fighting the influence of the Saghred, a soul-stealing stone, Raine discovers she is also magically bonded to a dark mage and a white knight, two dangerous and powerful men on opposing sides. Turns out, the demons want the key to unlock the Saghred. As a seeker, Raine should be able to find it first. As the axis of light and dark powers, she's a magical cataclysm waiting to happen.

The Trouble with Demons

Angel Crawford is finally starting to get used to life as a brain-eating zombie, but her problems are far from over. Her felony record is coming back to haunt her, more zombie hunters are popping up, and she's beginning to wonder if her hunky cop-boyfriend is involved with the zombie mafia. Yeah, that's right—the zombie mafia. Throw in a secret lab and a lot of conspiracy, and Angel's going to need all of her brainpower—and maybe a brain smoothie as well—in order to get through it without falling apart.

Even White Trash Zombies Get The Blues

Sixteen-year-old Evie has always taken comfort in the fact that she is a normal human, even though her best friend is a mermaid and her ex-boyfriend is a lunatic - and a faery. In a world where paranormals are monitored and controlled, Evie works for the International Paranormal Containment Agency because of her unique ability to see through glamours. But someone - or something - starts killing vampires, werewolves and other paranormals, and Evie must figure out what's happening before they all disappear.

Night Owls bookstore is the one spot on campus open late enough to help out even the most practiced slacker. The employees' penchant for fighting the evil creatures of the night is just a perk... Valerie McTeague's business model is simple: provide the students of Edgewood College with a late-night study haven and stay as far away as possible from the underworld conflicts of her vampire brethren. She's experienced that life, and the price she paid was far too high for her to ever want to return. Elly Garrett hasn't known any life except that of fighting the supernatural beings known as Creeps or Jackals. But she always had her mentor and foster father by her side—until he gave his life protecting a book that the Creeps desperately want to get their hands on. When the book gets stashed at Night Owls for safekeeping, those Val holds nearest and dearest are put in mortal peril. Now Val and Elly will have to team up, along with a mismatched crew of humans, vampires, and lesbian succubi, to stop the Jackals from getting their claws on the book and unleashing unnamed horrors...

Night Owls

According to an old story, a woman concealed her sex and ruled as pope for a few years in the ninth century. Pope Joan was not betrayed by a lover or discovered by an enemy; her downfall came when she went into labor during a papal procession through the streets of Rome. From the myth of Joan to the experiences of saints, nuns, and ordinary women, *The Oldest Vocation* brings to life both the richness and the troubling contradictions of Christian motherhood in medieval Europe. After tracing the roots of medieval ideologies of motherhood in early Christianity, Clarissa W. Atkinson reconstructs the physiological assumptions underlying medieval notions about women's bodies and reproduction;

inherited from Greek science and popularized through the practice of midwifery, these assumptions helped shape common beliefs about what mothers were. She then describes the development of "spiritual motherhood" both as a concept emerging out of monastic ideologies in the early Middle Ages and as a reality in the lives of certain remarkable women. Atkinson explores the theological dimensions of medieval motherhood by discussing the cult of the Virgin Mary in twelfth-century art, story, and religious expression. She also offers a fascinating new perspective on the women saints of the later Middle Ages, many of whom were mothers; their lives and cults forged new relationships between maternity and holiness. *The Oldest Vocation* concludes where most histories of motherhood begin—in early modern Europe, when the family was institutionalized as a center of religious and social organization. Anyone interested in the status of motherhood, or in women's history, the cultural history of the Middle Ages, or the history of religion will want to read this book.

The Oldest Vocation

The first instalment of the highly praised Toby Daye series. The world of Faerie never disappeared; it merely went into hiding, continuing to exist parallel to our own. Secrecy is the key to Faerie's survival: but no secret can be kept forever, and when the fae and mortal worlds collide, changelings are born. Outsiders from birth, these children spend their lives fighting for the respect of their immortal relations. Or in the case of October 'Toby' Daye, rejecting the fae completely. Toby has retreated into a 'normal' life - spending her nights stocking shelves at a San Francisco grocery store and her days asleep in her downtown apartment. But when Countess Evening Winterrose is murdered, Toby finds herself drawn abruptly back into the world she thought she'd left behind. It's going to take everything she's got just to stay alive, and the stakes are higher than anyone has guessed . . .

In this engaging account, the first president of Brandeis tells how many formidable obstacles to launching a new university without initial capital endowment or any hope of alumni support for at least a generation were overcome; how academic goals were drafted, distinguished faculty recruited, and chairs endowed; and how a dilapidated campus was expended into a well-organized plant of some 90 buildings. In this revision of the 1976 edition, Abram L. Sachar expands the scope of his commentary and imbues it with a critical depth and objectivity that comes from 20 additional years of active involvement in the service of the university.

Shadowrun Howling Shadows

By the end of the nineteenth century, women had become an undeniable force both in the public discussion of social life and in politics itself. Yet in art and literature women's bodies continued to be represented—and domesticated—by men. They were still more often the object of the artist's or writer's gaze than they were the subject of their own representing processes. The erotic potential of women's bodies, however, was far from a marginal concern in the elaboration of modern forms of politics, art, literature, and psychology. In *Eroticism and the Body Politic*, scholars from art history, history, and literature examine the frequent intersections between the body erotic and the body politic. Focusing on eighteenth- and nineteenth-century France, they show how eroticized representations of bodies had a multitude of political and cultural meanings. The authors consider the eroticized body in a wide variety of media: from Fragonard's paintings of "erotic mothers," to political pornography attacking Marie Antoinette, to the "new woman" of fin de siècle decorative arts. Exploring the possibilities of a multidisciplinary approach, the volume shows that eroticism had an impact far beyond the usual confines of libertine or pornographic literature—and that politics included much more than voting, meeting, or demonstrating. At a time of general methodological ferment in the "human sciences," *Eroticism and the Body Politic* brings fresh approaches to the developing field of cultural studies.

How did past communities and individuals remember through social and ritual practices? How important were mortuary practices in processes of remembering and forgetting the past? This innovative new research work focuses upon identifying strategies of remembrance. Evidence can be found in a range of archaeological remains including the adornment and alteration of the body in life and death, the production, exchange, consumption and destruction of material culture, the construction, use and reuse of monuments, and the social ordering of architectural space and the landscape. This book shows how in the past, as today, shared memories are important and defining aspects of social and ritual traditions, and the practical actions of dealing with and disposing of the dead can form a central focus for the definition of social memory.
