Debussy's music epitomizes the concept of Impressionism in music. One of the most famous pieces from Debussy's Preludes, Book 1, "The Girl with the Flaxen Hair" is a lyrical piece, awash with color and atmosphere. Drawing on the original autographed manuscript and first edition by Durand, all editorial details are contained in footnotes or parentheses."

La Fille Aux Cheveux de Lin (the Girl with the Flaxen Hair)

"A fascinating and genuinely accessible guide....Educating, enjoyable, and delightfully un-scary."—Classical Music What if Bach and Mozart heard richer, more dramatic chords than we hear in music today? What sonorities and moods have we lost in playing music in "equal temperament"—the equal division of the octave into twelve notes that has become our standard tuning method? Thanks to *How Equal Temperament Ruined Harmony*, "we may soon be able to hear for ourselves what Beethoven really meant when he called B minor 'black'" (Wall Street Journal). In this "comprehensive plea for more variety in tuning methods" (Kirkus Reviews), Ross W. Duffin presents "a serious and well-argued case" (Goldberg Magazine) that "should make any contemporary musician think differently about tuning" (Saturday Guardian). Some images in the ebook are not displayed owing to permissions issues.

The Tree of Ecstasy and Unbearable Sadness is a masterful allegorical tale for the 21st century, weaving together the worlds of literature, music and visual art in the poignant story of one boy's journey into mental illness. Audiences are offered a mesmerising visual and auditory tour de force about beauty and resilience, society and belief, that at its heart expresses hope for a greater understanding and embracing of difference. The narrative unfolds around the metaphor of a tree growing within the boy, whose flower is ecstasy and whose fruit is sadness. This luminous, multi-faceted work is inspired by the experiences of its award-winning creator, Matt Ottley, who has lived with bipolar disorder all his life and been hospitalised on numerous occasions in mental health facilities. Having personally experienced the prejudices and challenges that come from suffering a mental illness, Matt's aim is to offer a sensory insight through words, music and images into the experiences of those who suffer from such debilitating illnesses, particularly psychosis. At the heart of the work is a 50-minute orchestral composition by Matt Ottley, performed by the Brno Philharmonic Orchestra, the Czech Philharmonic Choir Brno, tenor Ben Reynolds and narrated by Tina Wilson. This book comes with a CD recording and download link of the musical work, which forms part of this multi-modal work.

The Tree of Ecstasy and Unbearable Sadness

From the first Police album, *Outlandos D'Amour*, through *Sacred Love*, here are the collected lyrics written by Sting, along with his commentary. "Publishing my lyrics separately from their musical accompaniment is something that I've studiously avoided until now. The two, lyrics and music, have always been mutually dependent, in much the same way as a mannequin and a set of clothes are dependent on each other; separate them, and what remains is a naked dummy and a pile of cloth. Nevertheless, the exercise has been an interesting one, seeing perhaps for the first time how successfully the lyrics survive on their own, and inviting the question as to whether song lyrics are in

fact poetry or something else entirely. And while I've never seriously described myself as a poet, the book in your hands, devoid as it is of any musical notation, looks suspiciously like a book of poems. So it seems I am entering, with some trepidation, the unadorned realm of the poet. I have set out my compositions in the sequence they were written and provided a little background when I thought it might be illuminating. My wares have neither been sorted nor dressed in clothes that do not belong to them; indeed, they have been shorn of the very garments that gave them their shape in the first place. No doubt some of them will perish in the cold cruelty of this new environment, and yet others may prove more resilient and become perhaps more beautiful in their naked state. I can't predict the outcome, but I have taken this risk knowingly and, while no one in their right mind should ever attempt to set "The Waste Land" to music, in the hopeful words of T. S. Eliot, These fragments I have shored against my ruins." —Sting, from the Introduction

The Best Hymns Ever

For over a century the Titanic disaster has fascinated the world's historians, writers, film makers and general public ever since she sank with the loss of over 1500 lives in April 1912. This copiously illustrated book considers much more than its title suggests, beginning with an overview of the White Star Line's fleet. Next, Titanic's construction, layout, opulent furnishings, passenger experiences and the central personalities are introduced. Important aspects of her maiden voyage are revisited; the first ice warnings, lookouts, striking the iceberg, sinking, partial lifeboat evacuation and the lessons learned from the Inquiries held in Britain and America. After touching on the 'Titanic's Curse', forewarnings, and myths of 1912, it moves to Dr Robert Ballard's dramatic discovery and exploration of her in 1985. This reawakened interest, and in 1997, James Cameron's film "Titanic" proved an outstanding success. RMS Olympic and HMHS Britannic are also reviewed together with the heroic rescue of stranded passengers from the hospital ship, Rohilla, which hit rocks in Whitby in October 1914 during a violent gale. The author has also written "Legacy of the Cunard Line" featuring the Lusitania, Mauretania, Aquitania, Queen Mary, Queen Elizabeth and QE2 with other famous sea disasters: Empress of Ireland, SS Normandie, SS Andrea Doria & the history of SS Great Britain.
