Sisley and the Thames

Alfred Sisley was the only Englishman among the French Impressionists. He produced 17 delightful paintings of the Thames around Hampton Court in 1874, and over 20 along the coast of South Wales in 1897. In this book all these paintings are contrasted with modern photographs of the same scenes over a century later.

Sisley on the Thames and the Welsh Coast

In 1874, after his participation in the first Impressionist Exhibition in Paris, Alfred Sisley enjoyed a summer break in London, where he painted studies of life & leisure along the River Thames. When he returned to Britain in 1897, he toured along the South Wales coastline & painted some of the most free & bold works he ever produced.

Sisley in England and Wales

Alfred Sisley (1839-1899) was one of the greatest landscape painters of the nineteenth century and a leading figure in the Impressionist movement. This is the most detailed and authoritative survey of his life and work to be published thus far. With a wealth of illustrations, much new research, and an absorbing text, it reveals Sisley as an artist of seductive power and originality. Sisley's painting was devoted to the landscape. His celebrated scenes of the Paris countryside, views of the flooded Seine at Port-Marly, and colorful regattas on the Thames achieve a superb balance of tones and a poetic evocation of mood while also offering a lively depiction of their subjects. Kenneth Clark described the wonderful series of Thames paintings as embodying "the perfect moment of Impressionism". And yet, as his friend Arsene Alexandre said, "Sisley lived proud and died poor". His art gained full recognition only after his death, and even now his work is often overlooked. Richard Shone brings to this long-awaited book a fresh eye and an intimate knowledge of the Ile de France, the locale of many of Sisley's paintings. Shone's research has brought to light much new biographical information - on the artist's early career, his struggle to earn a living, and his secluded later years - all of which leads to a greater understanding of Sisley's artistic development. The many full-color illustrations include important series of paintings never before reproduced together in such quantity - the floods, the snow scenes, the church at Moret-sur-Loing, the Welsh coast. From this landmark book emerges a picture of a painter continually renewing his art, absorbing varied influences yet creating a personal vision of rural France that is as enduring and enchanting as the work of his fellow Impressionists. Richard Shone confirms the truth of Pissarro's description of Sisley as "a great and beautiful artist".

Sisley

Alfred Sisley is now recognized as one of the great landscape painters of the 19th century, and a leading figure in the Impressionist movement. He divided his time between France and England and the illustrations in this volume include the snow scenes of the Paris suburbs, his views of the flooded Seine at Port-Marly, and his paintings of the regattas on the Thames, which have been described as embodying the perfect moment of Impressionism.

Sisley

In this innovative approach to Impressionism and its methods, Jonathan Stephenson's instruction enables amateurs the world over to paint like the Impressionists. Vibrantly illustrated in colour throughout, both with well-known works of art and step-by-step examples, the book shows how the masters achieved their diverse effects and how their ideas and styles can be adapted to today's tastes. Sections on the artists provide fascinating insights into individual techniques: learn how Monet produced his oil colour sketches, or how Sisley created his atmospheric landscapes. With an introduction providing the historical background to Impressionism, and a comprehensive section on artists' materials, this is a highly practical book that will appeal both to beginners and more experienced artists, as well as to the many thousands of people inspired by the brilliance and beauty of Impressionist painting.

Paint with the Impressionists

For Monet, the act of creation was always a painful struggle. His obsession with capturing the effects of lighting in nature was much more intense than that of his contemporaries. In his words: "Skills come and go ... art is always the same: a transposition of nature that requires as much determination as sensibility. I strive and struggle against the sun ... I might as well paint it with gold and precious stones." A beautiful display of Impressionist work, *Great Masters Monet* explores the extraordinary paintings of one of the Masters of the 19th century. Monet's rapid brushstroke style in landscapes and scenes from everyday life illustrates his overall fascination with light and colour.

Claude Monet

This book gives a quick biography of Monet, explains the elements of his painting style, and includes fifty of his best-known and best-loved works.

Life and Times of Monet

The English artist Alfred Sisley was a founding member of Impressionism — one of the most important movements of the modern age. His landscapes are celebrated for their subtlety and quiet variety, offering some of the finest canvases of all nineteenth-century art. His frank and sincere character is present in all of his paintings, noted for their perfection of tone, polished composition and variety of handling. Although he has been overshadowed by his more famous colleagues, he produced landscapes that strongly invoke a powerful sense of atmosphere, with impressive skies and an important understanding of the compositional features for balanced expression. Delphi's *Masters of Art Series* presents the world's first digital e-Art books, allowing readers to explore the works of great artists in comprehensive detail. This volume presents Sisley's collected paintings in beautiful detail, with concise introductions and hundreds of high quality images. Delphi Collected Works of Alfred Sisley (Illustrated)

Impressionism, an art movement pioneered by a handful of avant-garde painters based in Paris in the 1870s, gave academic oil painting a vivacity and spontaneity it had previously lacked, and remains to this day the single most popular style of art for gallery-goers and amateur painters alike. This elegantly-written book, by a professional artist and scholar, is both an instructional guide to incorporating Impressionist techniques into your own painting, and an illuminating investigation into how those first Impressionists actually painted their pictures. As such, it will fascinate both the painter and the art historian. This new book provides detailed advice on paints, brushes and canvas, as used by the original Impressionists and still widely available today. It discusses the process of making an Impressionist painting from initial vision to final completion and analyses the role of composition, light and tone, colour and paint handling. Finally, it gives an overview of the subject matter most closely associated with the Impressionists.

Painting Like the Impressionists

Claude Monet's tranquil water-lily paintings and rural landscape scenes are among some of the most treasured artworks of the 19th and 20th centuries. Hailed as the 'Prince of Impressionism' for his pioneering role in the French artistic movement, Monet is widely recognised for his free brushstroke

and experimentation with colour and natural light. In this beautifully illustrated book, Ann Sumner explores the life of this prodigious painter and the subjects that obsessed him: the cliffs of the Normandy coastline, the palazzos of Venice, the railway stations of Paris, the great edifice of Rouen Cathedral, and his beloved garden at Giverny. Showcasing a selection of his best-loved and lesser-known paintings alongside fascinating biographic detail, this guide serves as a perfect introduction to Monet and the evolution of his iconic style. ABOUT THE SERIES: The Great Artists series by Arcturus Publishing introduces some of the most significant artists of the past 150 years, looking at their lives, techniques and inspirations, as well as presenting a selection of their best work.

The Impressionists in London

"This catalogue is published in conjunction with the exhibition 'Alfred Sisley (1839-1899) : Impressionist Master', organized by the Bruce Museum, Greenwich, Connecticut (January 21, 2017 to May 21, 2017) and [Hotel de Caumont Centre d'Art] Culturespaces (June 10, 2017 to October 8, 2017)" -- Watson Library.

Claude Monet

This title charts the story of the French artists who took refuge in London during and after the devastating Franco-Prussian War and the Paris Commune. Following these traumatic events there was a creative flourishing in London as the exiles responded to British culture and social life - regattas, processions, parks, and of course the Thames.

Alfred Sisley

The examples convey not only these major themes but also the painters' belief in the progress of civilization through science and industry. The book thus expands the scope of Impressionist celebrations of modernity to include what might be called Impressionism's "other landscape" and proposes that in the Impressionists' effort to forge a modern landscape art, those signs of modernity defined their vision most clearly."--BOOK JACKET.

Impressionists in London

The two authors, who are both knowledgeable writers with extensive background in the study of art and art history, write engagingly about the history of impressionism and the life and works of Pissarro, Manet, Degas, Monet, Renoir, and Sisley. At 7x8.5"

Impressionism and the Modern Landscape

Between 1857 and 1904, several Impressionist painters, including Monet, Pissarro, Sisley and Van Gogh, lived and worked in London. They also inspired the art of the English post-Impressionists. Here, Shane explores the visits of the artists to London and their (and others') responses to the city.

Space in the Paintings of the French Impressionists

Impressionism took its name from the title of a painting that Claude Monet (1840-1926) exhibited in 1874. More than any other artist, Monet was the creator of the Impressionist vision, which has so forcefully shaped the way in which he habitually see nature today. For sixty years he continuously explored ways of translating his experiences into paint, in pictures that take us from the bustling life of Paris in the 1860s to the seclusion of his own water-garden, which he painted in his last years. John House's introduction to Monet's life and work presents a sequence of dazzling illustrations that chart the artist's progress as he became increasingly preoccupied with colour and atmospheric effect, and the direct studies of nature gave way to paintings of greater richness and harmony, in which the play of varied colours replaced the conventional drawing and modelling of forms.

The Impressionists Handbook

How to Read an Impressionist Painting is a new, original exploration of the hugely popular and revolutionary 19th-century art movement. James Rubin organizes his discussion by subject matter, rather than by artist, looking at urban views and city life, interiors and still life, family and friends, and other common themes. By avoiding an artist-based structure, and without the convention of a chronological approach, he provides readers with the tools to think critically and analytically about

Impressionism as a movement, and offers a new understanding of the collective momentum that drove the artists to work with such originality and commitment to modern themes and pictorial originality.

Impressionist London

Manet, Monet, Pissarro, Cézanne, Renoir, Degas, Sisley, Berthe Morisot and Mary Cassatt. Though they were often ridiculed or ignored by their contemporaries, astonishing sums are paid today for the works of these artists. Their dazzling pictures are familiar - but how well does the world know the Impressionists as people? In a vivid and moving narrative, biographer Sue Roe shows the Impressionists in the studios of Paris, rural lanes of Montmartre and rowdy riverside bars as Paris underwent Baron Haussman's spectacular transformation. For over twenty years they lived and worked together as a group, struggling to rebuild their lives after the Franco-Prussian war and supporting one another through shocked public reactions to unfamiliar canvasses depicting laundresses, dancers, spring blossom and boating scenes. This intimate, colourful, superbly researched account takes us into their homes as well as their studios and describes their unconventional, volatile and precarious lives, as well as the stories behind their paintings.

The Private Lives Of The Impressionists

Situated between the Victorians and Modernism, the fin de siècle is an exciting and rewarding period to study. In the literature and art of the 1890s, the processes of literary and cultural change can be seen in action. In this, more than any previous decade, literature was an active and controversial participant within debates over morality, aesthetics, politics and science, as Victorian certainties began to break down. Oscar Wilde, Aubrey Beardsley, H. G. Wells, Bram Stoker and Olive Schreiner were among the most prominent, occasionally even notorious, writers and artists of the period, challenging establishment values and producing a distinctive literature of their own. This volume includes the main currents of radical and innovative thinking in the period, as well as the attempts to resist them. It will be of great interest to students of Victorian and twentieth-century literature, art and cultural history.

The Graphic Work of the Impressionists

L'exposition est organisée autour des lieux qui ont inspiré le peintre anglais et fait de lui l'un des peintres les plus recherchés du XIXe siècle : la Seine et l'Ouest parisien, les villages de Louveciennes, Bougival, Marly-le-Roi et Port-Marly, Sèvres, la région de Moret-sur-Loing.

Sisley

This pioneering book stands as the most comprehensive treatment of the lives, ideas and art works of the remarkable group of women who were an essential part of the Surrealist movement. Frida Kahlo,

Meret Oppenheim and Dorothea Tanning, among many others, became an embodiment of their age as they struggled towards artistic maturity and their own 'liberation of the spirit' in the context of the Surrealist revolution. Their stories and their achievements are presented here against the background of the turbulent decades of the 1920s, 30s and 40s, and the war that forced Surrealism into exile in New York and Mexico.

The Graphic Works of the Impressionists

This book is an intriguing and intimate study of the dialogues forged between different forms of art, paintings and texts in particular. It entwines art with literature to create a complex yet marvellous mosaic of textures hitherto undiscussed in this manner. Reading, here, becomes both painting and travelling through Joseph Conrad's *Heart of Darkness* and the works of the French Impressionist painters of the nineteenth century. Through an exploration of the distinctive characteristics of the paintings of Monet, Manet, Renoir, Pissarro, Cézanne and even Van Gogh and Gauguin, this book tries to decipher the codes and symbols of Conrad's enigmatic novella. By taking the help of intertextuality, interdisciplinary and multidisciplinary approaches, detours and retours through time and space, this book offers extensive readings of texts on art, literature and Conrad's works. Reading *Heart of Darkness* in this manner emerges as a kind of journey through the continents of imperial Europe and of colonized Africa, through diverse cultures, imaginary geographies, psychological processes that separate one human from another, through the metaphors and metonymies of the modern malaise that vacillated from Darwinian theories of evolution to Nietzsche's proclamation of the death of God.

Etching, is a printmaking technique that uses a corrosive liquid to etch lines in a metal printing plate which holds the applied ink ...

A drawing is made

in a mordant bath

ready to be charged with ink.

placed onto a hot plate, a heated plate

Ink is evenly...

dragged across the surface of the plate

The ink is then cleaned from the surface of the plate

The plate is then moved to a press

and transferred to the paper.

Usually this is done with some kind of registration template

Prior to printing

This paper is then transferred to the press

placed on top of the etching plate...

Pressure is applied

You'll notice that this print prints as a mirror of the drawing.

The plate is then re-inked

and subsequent prints are taken

This is usually referred to as an "edition".
