The Ghosts of Four Chimneys

When Captain Jason Lord is kidnapped and accused of endangering finances of Lord College, his daughter Hannah resolves to restore his good name and follow his dreams. Because of his OSS activities in WWII, agents from three countries pursue him. An earthquake uncovers ancient bones at Four Chimneys, the Lord estate. They may belong to Iroquois Indians, escaping slaves, or Viking explorers, all of whom had ties to the site. Their ghosts haunt Hannah, and their descendants claim the bones and the land. Someone also wants to destroy documents hidden in Four Chimneys. Adam Tom, Hannah's mentor of mixed ancestry (think Morgan Freeman), tries to protect her. A CIA agent falls in love with her and her first love wants her back. Hannah struggles against political forces churning in the Sixties. FOUR CHIMNEYS is destroyed, but not the passions which grow from it.

Poplar Forest is one of two personal residences that Thomas Jefferson designed for himself, the other being Monticello. Jefferson's wife, Martha Wayles Skelton Jefferson, inherited the land—originally a 6,861-acre parcel—at her father's death in 1773, but Jefferson did not begin construction on the house until 1806, and at his death in 1826, he was still working on his little "getaway." Despite its audacious design—it was the first documented octagonal residence in America—and the fact that it is one of the very few extant Jeffersonian structures, Poplar Forest is not nearly so well-known today as its sibling seventy miles to the northeast. Undoubtedly, this is due in large part to its more remote location in Bedford County. Additionally, the house remained in private hands until 1984. Travis McDonald situates the site in its rightful position as a historically important Virginia house, and he documents its story as central to Jefferson's life and approach to architecture, including details of the enslaved community at his western retreat. This new, informed account will appeal to architectural historians and visitors to the villa retreat, as well as to those interested in Jefferson's work and legacy.

In the Ukraine, east of the Carpathian Mountains, there is an invisible city. Known as Czernowitz, the 'Vienna of the East' under the Habsburg empire, this Jewish-German Eastern European culture vanished after WWII - yet an idealized version lives on. This book chronicles the city's survival in personal, familial, and cultural memory.

Dan Chiponda earns a scholarship to study in China and reluctantly leaves his native Zimbabwe for an uncertain future. Learning to take racial abuse in his stride, he dates a fellow student, Lai Ying, who is attracted to his easy-going manner. He remains haunted by the weight of his mother's expectations, encapsulated by the image of the African fish eagle. Things take a dramatic turn when Chinese students pour into the streets in an orgy of violence to drive Africans out of town. The situation in Nanjing only stabilises when attention turns to the mayhem that is unraveling in Tiananmen Square, Beijing. But that is only the beginning of Dan's troubles with the 'Campus Gestapo', loan sharks in Hong Kong, and the shock of his family getting caught up in the violence by Mugabe's war vets. Black Ghosts was inspired by stories of Africans living in China in the 1980s and, in particular, by the little known incident in Nanjing, where African and Chinese students engaged each other in a violent battle just months before the Tiananmen Square massacre.

"To those who may be encountering Louisiana for the first time through these wonderful stories-prepare to be engaged and entertained to a degree to which you are certainly unaccustomed . . . Barbara's gift for storytelling holds in the written word just as it does before a television camera."-Phillip J. Jones, former secretary, Louisiana Department of Culture, Recreation, and Tourism "A personal, anecdotal narrative that paints events with evocative descriptions . . . best savored in slices-it serves up a great bedtime read."-New Orleans Times-Picayune Based on the PBS documentary of the same name that aired across the country, The Haunting of Louisiana highlights many of the stories that would not

fit into the one-hour television program. Louisiana's haunted reputation is spotlighted in the twenty chapters that cover the ghostly escapades and happenings at Oak Alley Plantation, Ormond Plantation, Destrehan Manor, and America's "most haunted home," the Myrtles, in St. Francisville, to name a few. The book also includes behind-the-scenes incidents that occurred during the taping of the documentary. Who is the lady in the photograph whose mirrored reflection appears headless in a bedroom in Oak Alley Plantation? Why are little girls the only tour visitors to experience the taunting of Chloe, a slave and mistress of the owner of the Myrtles in the 1800s? Whose invisible hand had to be repeatedly pushed away from the owner's car horn at Chretien Point Plantation before the owner could get a good night's rest? The spine-tingling explanations for these events and many others are just waiting to be discovered.

In her seventh captivating adventure, Jane Austen finds her crime-solving mettle put to the test in a confounding case of intrigue, murder, and high treason. Among the haunted ruins of an ancient abbey, Jane is drawn into a shadow world of dangerous secrets and traitorous hearts where not only her life is at stake—but the fate of England. As Jane Austen stands before the abandoned ruins of Netley Abbey, she imagines that ghosts really do haunt the centuries-old monastery. But the green-cloaked figure who startles her is all too human and he bears an unexpected missive from Lord Harold Trowbridge, one of the British government's most trusted advisers—and a man who holds a high place in Jane's life. Trowbridge tells Jane about a suspected traitor in their midst—and the disastrous consequences if she succeeds. But is Sophia Challoner, a beautiful widow with rumored ties to Emperor Bonaparte, really an agent of the enemy? Dispatched to Netley Lodge, Jane sets about gaining the confidence of the mysterious and intriguing lady even as Trowbridge's grim prediction bears fruit: a British frigate is set afire and its shipwright found with his throat cut. It's clear that someone is waging a clandestine war of terror and murder. But before Jane can follow the trail of conspiracy to its source and unmask a

calculating killer, the cold hand of murder will fall mercilessly yet again—and suddenly Jane may find herself dying for her country. Elegantly intriguing, *Jane and the Ghosts of Netley* is a beautifully crafted novel of wit, character, and suspense that transports Jane and her many fans into a mystery of truly historical proportions—and a case that will test the amateur sleuth's true colors under fire.

Ghost Rock is a guide to sport and multi-pitch rock climbs in the Ghost River and Waiparous Creek areas west of Calgary. It gives detailed route descriptions, along with chapter by chapter parking access and approach details. By local standards, the Ghost has climbing on above average rock. Even with 200 new routes since the first edition it is still, however, woefully underdeveloped. Already a mecca for ice climbers, the Ghost is fast becoming one of the premier rockclimbing areas in Western Canada. It is a virtual candy store of new routes and will remain so for some time to come. Over 35 kilometres of steep cliff line, coupled with its remote and relatively wild nature, make for an unforgettable rock climbing experience.

The Creaking Door

In this book, the authors analyze big data on global interdependence caused by the flows of commodities, money, and people, using a network science approach to obtain differing views of globalization and to clarify the facts on isolation of communities. Globalization reduces international economic inequality, i.e., it allows emerging countries to catch up while it increases relative poverty in some advanced countries. How should this trade-off between international and domestic inequalities be resolved? At the same time, the reduction of biocultural diversity caused by globalization needs to be avoided. What kind of change is required in local communities to conserve biocultural diversity? On the issue of commodity flow, research results of the supply-chain network, isolation in industry, and resource flows and stocks are presented in this book. For monetary flow, ownership networks, value-added networks, and profit shifting were studied; and regarding the flow of people, linkage of ethnic groups, immigrant assimilation, and refugees were examined. Based on the resulting view of globalization and isolation, the development of the isolation index using machine learning is discussed. Finally, recommendations for evidence-based policymaking in the United Nations are considered.

Politicised Cinema demonstrates how taking a collection of seemingly apolitical films and using them as an instrument for serving explicit political aims can be used as a force for good. Through an analysis of *Orient: A Survey of Films Produced in Countries of Arab and Asian Culture*, a film catalogue published by UNESCO and the BFI in 1959 to promote intercultural understanding between the East and the West, this book argues for the importance of studying the ways the interpretation of films can be guided to serve a specific political agenda, even when the films themselves were originally produced with very different aims in mind. The author focuses on how the catalogue positions culture and its cinematic representations as a marker of difference between the Eastern and Western worlds, and shows that even major cultural conflicts such as the Cold War and the decolonisation process can be reframed in service of UNESCO's cultural diplomatic agenda. The book explores the ways in which the catalogue of Eastern films deemed suitable for Western audiences became a weapon to fight against prejudice, intolerance, and bigotry in a politicised battle over dismantling the proclaimed link between difference and conflict. This book will be of interest to students, researchers, and academics in visual politics, cinematic international relations, cultural diplomacy, global governance, and international cultural politics, as well as film studies, Asian studies, and cultural studies. In addition, policymakers and practitioners in the fields of cultural diplomacy and cultural policy will find the empirical case study to be of use in practical work.
