Franziskus - Führen und Entscheiden

Franziskus kommt an. Er wird für seinen Stil geliebt, obwohl er es nicht jedem Recht machen will und klare Entscheidungen nicht scheut. Chris Lowney zeigt, weshalb der Papst so erfolgreich ist und erklärt, wie seine Spiritualität auch für uns hilfreich sein kann. Der Autor zeigt, dass Franziskus ein Vorbild in Sachen Entscheidungsfindung und moderner Menschenführung ist. Wertvoll nicht nur für Manager, sondern auch für Lehrer oder Eltern. Also für jeden, der Verantwortung trägt.

Franziskus - Führen und entscheiden

Das Papsttum hält sich stabil im Strukturwandel der Öffentlichkeit. Seine Fähigkeit, Innovationen der Medienlandschaft aufzugreifen, setzt es dabei ein, um moralische Leitlinien für politisches Handeln und eigene Machtansprüche zu formulieren. Dieser interdisziplinäre Band zeigt, welche Kommunikationsstrategien der Vatikan nutzt, um den Papst im Zusammenspiel von Text und Bild als politischen Akteur zu inszenieren, und wie diese medial aufgegriffen und verwandelt werden.

Wege zum digitalen Papsttum

Womit man bei diesem Papst noch rechnen muss Am 13. März 2013 stieg weißer Rauch auf. Der Argentinier und Jesuit Jorge Mario Bergoglio wurde als erster Südamerikaner zum Papst gewählt. Nach fünf Jahren im Amt fragen viele Menschen: Was hat Franziskus eigentlich getan, zustande gebracht? Gibt es jenseits zu Herzen gehender Predigten und spektakulärer Gesten auch handfeste Ergebnisse der Veränderung in der Kirche? Oder ist alles nur Symbolpolitik? Andreas R. Batlogg schaut auf diese fünf Jahre zurück: Auf das, was war; auf das, was in Gang gesetzt und auf den Weg gebracht wurde. Eine Bilanz, aber keine »Leistungsschau«. Wird sich die Lehre ändern? Oder scheitert der Papst? Resigniert er, weil er, wie manche Beobachter im heißen Frühjahr und Sommer 2017 meinten, zunehmend isoliert ist? Der Jesuit Andreas R. Batlogg gibt überraschende Antworten und zeichnet damit ein neues Bild von Papst Franziskus.

Der evangelische Papst

Die Kirche erlebt eine schwere Krise und Papst Franziskus, der lange als Hoffnungsträger galt, scheint handlungsunfähig. Marco Marzano, einer der besten Vatikankenner, analysiert die Lage der Kirche und den "Mythos Franziskus". Es gebe zwar Erfolge, doch insgesamt zeichnet Marzano das Bild einer bewegungslosen Kirche: "In den fünf Jahren seines Pontifikats hat Franziskus keine einzige Reform durchgesetzt." In seinem Buch nennt Marzano zahlreiche Gründe für diese Tatsache: Franziskus sei

eben kein Liberaler, sondern ein Konservativer und zudem zu sprunghaft. Zugleich deckt der Autor Strukturen und Feinde auf, die den Papst an Reformen hindern, und beschreibt ein Geflecht aus Intrigen. Das Buch ist unverzichtbar für jeden, der verstehen will, was der Papst wirklich plant und warum sich die Kirche nicht endlich bewegt.

The Austrian cultural sector is facing its greatest existential crisis of the Second Republic. The conceptual foundations of Austrian cultural policy date from the 1970s and are approaching their limits due to the pandemic. This book highlights the urgency of renegotiating the relationship between the cultural sector and wider society through artists, mediators, and users. Together with several long-standing cultural observers, Michael Wimmer sets out to find a contemporary cultural policy. His goal is to ensure that art and culture are given the status in society that they deserve. Conceived as a dialogical polemic, the central aspects of a new agenda for cultural policy are negotiated in order to initiate a broader discussion of cultural policy.

Für eine neue Agenda der Kulturpolitik

A behind-the-scenes view of the power struggles within the Vatican and "a look inside the byzantine halls of the institutional Catholic Church."—Publishers Weekly A journalist who has long covered the Vatican, Marco Politi takes us deep inside the struggle roiling the Roman Curia and the Catholic Church worldwide, beginning with Benedict XVI, the pope who famously resigned in 2013, and intensifying with the unexpected election of Jorge Mario Bergoglio, archbishop of Buenos Aires, now known as Pope Francis. Politi's account balances the perspectives of Pope Francis's supporters, Benedict's sympathizers, and those disappointed members of the laity who feel alienated by the institution's secrecy, financial corruption, and refusal to modernize. Politi dramatically recounts the sexual scandals that have rocked the church and the accusations of money laundering and other financial misdeeds swirling around the Vatican and the Italian Catholic establishment, and how Pope Francis's attempts to address these crimes has been met with resistance from entrenched factions. He writes of the decline in church attendance and vocations to the priesthood as the church continues to prohibit divorced and remarried Catholics from receiving Communion. He visits European parishes where women perform the functions of missing male priests—and where the remaining parishioners would welcome the ordination of women, if the church would allow it. Pope Francis's emphasis on pastoral compassion for all who struggle with the burden of family life has also provoked the ire of traditionalists. He knows from experience what life is like for the poor in South America and elsewhere, and highlights the contrast between the vital, vibrant faith of these parishioners and the disillusionment of European Catholics. As Pope Francis and his supporters are locked in battle with the defenders of the traditional hard line and with ecclesiastical corruption, the future of Catholicism is at stake—and it is far from certain Francis will succeed in saving the institution from decline.

Pope Francis Among the Wolves

Cardinal Jorge Bergoglio was chosen as the next Pope in one of the shortest conclaves in history. He is the first Pope Francis, the first Jesuit Pope, the first Pope to come from Latin America. Who is this man, and how did he come to such high position? This book begins with the arrival of Bergoglio's family in Buenos Aires in 1929, travelling from Italy, explores his childhood as one of a family of five, his first job as a factory cleaner and the bout of pneumonia which forced him to reassess his life completely. Then from his early days as a seminarian through his experience as a teacher of psychology and literature, through to his consecration as a cardinal by Pope John Paul II, Bergoglio shares his experiences of faith and life. The difficult subjects are met head on, from the declining numbers of priests to celibacy and even the sex abuse scandals that have rocked the church - and through it all, Bergoglio's humble approach and desire to live an austere and faithful life shine through. This is a Pope who will not allow himself to be fitted to a traditional mould - and the world waits with bated breath to see what his time as leader of the world's largest church will bring.

Czerny, Vertrauter von Franziskus, stellt die Soziallehre dieses Pontifikats anhand der Enzyklika "Fratelli tutti" kritisch vor und erläutert, was es bedeutet, dass der Papst "von den Rändern der Erde" kommt, um die weitere Rezeption des Zweiten Vatikanischen Konzils entscheidend voranzutreiben. Papst Franziskus, der Czerny im Frühjahr 2022 zwei Mal als Abgesandten in die Ukraine geschickt hat, hat das Vorwort geschrieben.

»Kirche« bedeutet für Papst Franziskus, gemeinsam als Volk Gottes in der Geschichte unterwegs zu sein. Wohin die Reise geht und wie dieses gemeinsame Wandern aussehen soll, macht dieses Buch deutlich. Es versammelt die wichtigsten Texte und Aussagen zur Synodalität seit Beginn des Pontifikates und zeigt eine dynamische Vision von Kirche, die in die Zukunft weist. Denn für Franziskus ist »Synodalität« der Weg, den Gott von der Kirche des dritten Jahrtausends erwartet – und indem wir ihn gemeinsam gehen, sind wir alle Teil dieses Weges.

Wir sind alle Geschwister - das Zeichen der Zeit

By any reckoning, the papacy of Pope Benedict XVI was extraordinary, with moments of high drama. Not the least of these was his resignation from office in February 2013, the first papal resignation in 500 years. But who is Joseph Ratzinger? In this definitive biography, based on meticulous historical research and many hours of taped interviews with his subject, Peter Seewald shows the exceptional circumstances in which the exceptionally talented son of a Bavarian policeman became the first German pope for 950 years. In this first volume, covering the years 1927-1965, we witness Joseph Ratzinger's early days, living above his father's police station. Ratzinger came to adulthood through the years of National Socialism. Though hostile to the rise of Hitler, his family knew well about Dachau and Ratzinger himself was conscripted into the Hitler Youth. Joseph Ratzinger proved to be a man of exceptional intellectual gifts and by the time of the Second Vatican Council (1962-1965) he was already noted as one of the outstanding intellects present and was nominated a 'peritus' or theological expert. This was also the time of the start of his friendship with the Swiss theologian Hans Küng who was to become his nemesis. Of his predecessor, Pope Francis has said: 'Pope Benedict was a great Pope, great for the penetration of his intelligence, great for his important contribution to theology, great for his love of the Church and human beings, great for his virtues and faith'. Even in this first volume, we begin to understand how this came to be true.

Spatial and identity research operates with differentiations and relations. These are particularly useful heuristic tools when examining border regions where social and geopolitical demarcations diverge. Applying this approach, the authors of this volume investigate spatial and identity constructions in cross-border contexts as they appear in everyday, institutional and media practices. The results are discussed with a keen eye for obliquely aligned spaces and identities and relinked to governmental issues of normalization and subjectivation. The studies base upon empirical surveys conducted in Germany, France, Belgium and Luxembourg.

Mahatma Gandhi once chided a Christian friend, "All you Christians, missionaries and all, must begin to live more like Jesus Christ." And what Christian among us would disagree with him? After the holy wars and witch-hunts, after persecutions and political machinations, there is a broad sense today that the Church, however well-meaning, is on the wrong side of history. But do we really know our history? In this collaboration with historian Arnold Angenendt, best-selling German author Manfred Lütz dares to show us what contemporary historians actually say about Christianity's track record over the ages. This detailed overview begins with the ancient pagans, passing through Israel, the early Church martyrs, Constantine's Rome, the reign of Charlemagne, the Crusades, the Inquisition, the Reformation, the Borgia popes, the Galileo affair, the conquistadores, the French Revolution, the slave trade, the Holocaust, the sex abuse crisis, and more. *The Scandal of the Scandals* separates myth from fact, giving us a candid portrait of Christendom with its scars and all. Prepare to be amazed at how little you really knew about Christianity.

Die Amazonassynode und "Querida Amazonia" stellen für die Theologie in Europa eine Herausforderung dar. Die Quaestio lotet theologische Konsequenzen aus, die im Rahmen einer weltkirchlichen Rezeption zu ziehen sind. Fragen der Ekklesiologie und Inkulturation stellen sich ebenso wie die einer Weiterentwicklung der Befreiungstheologie im Dialog zwischen südamerikanischer und europäischer Theologie und einer stärkeren Verankerung postkolonialer Denkansätze. So erschließt der Band Wege für eine synodale Kirche in globalen Kontexten.

2022 Catholic Media Association first place award in scripture: academic studies In this book, which covers all of Jesus' parables, award-winning author Gerhard Lohfink takes a closer look at the origins of each one—its shape, its realistic details, but most of all its original message and the situation into which it was once spoken. Jesus' parables speak in bold images of the kingdom of God, making it present to us as they reveal something of the mystery of his own person. Lohfink also offers a review of some of the scholarship in this area—as this topic has sustained research on Jesus since the first telling of these stories—but not for the purposes of debate. His reflections interpret the forty parables and show how they speak of the coming of the reign of God, lead us to Jesus, and reveal the mystery of Jesus himself.

The Scandal of The Scandals

This new collection of essays by West Germany's most distinguished Roman Catholic theologian covers the two broad areas indicated in the title. The first half discusses the Christian understanding of God; the place of Christianity in the modern world; the modern sense of freedom and history and the theological definition of human rights; christology and anthropology; and the possibilities of a new spiritual christology in a trinitarian setting. The second half discusses various aspects of the church: as universal sacrament of salvation; as the place of truth and as communion. Two final studies examine the continuing challenge of the Second Vatican Council and the fundamental form and meaning of the eucharist. An extended introduction considers systematic theology today and the tasks which confront it.

This open access volume assesses the influence of our changing media environment. Today, there is not one single medium that is the driving force of change. With the spread of various technical communication media such as mobile phones and internet platforms, we are confronted with a media manifold of deep mediatization. But how can we investigate its transformative capability? This book answers this question by taking a non-media-centric perspective, researching the various figurations of collectivities and organizations humans are involved in. The first part of the book outlines a fundamental understanding of the changing media environment of deep mediatization and its transformative capacity. The second part focuses on collectivities and movements: communities in the city, critical social movements, maker, online gaming groups and networked groups of young people. The third part moves institutions and organizations into the foreground, discussing the transformation of journalism, religion, politics, and education, whilst the fourth and final part is dedicated to methodologies and perspectives.

Bergson, Politics, and Religion examines the political and religious dimensions of the work of philosopher Henri Bergson. Although best known for his ideas on the nature of time, memory, and evolution, in his final book—*The Two Sources of Morality and Religion* (1932)—Bergson turned his attention to questions of war, moral duty, and spirituality. The essays in this volume reflect on Bergson as a distinctly political thinker and revitalize his ideas for contemporary political philosophy. Contributors include Keith Ansell-Pearson, Claire Colebrook, Leonard Lawlor, Paola Marrati, Philippe Soulez, and Frédéric Worms.

Inge Auerbacher's childhood was as happy and peaceful as that of any other German child—until 1942. By then, the Nazis were in power, and because Inge's family was Jewish, she and her parents with sent to a concentration camp in Czechoslovakia. The Auerbachers defied death for three years, and were finally freed in 1945. In her own words, Inge Auerbacher tells her family's harrowing story—and how they carried with them ever after the strength and courage of will that allowed them to survive. "A

The Eucharist originated at the Last Supper of Jesus with his disciples. It is based on the prayer of thanksgiving that Jesus pronounced over the bread and wine at that meal. "Eucharist" means "thanksgiving", "praise", and "blessing". The Church celebrates the Eucharist as a memorial of the death and Resurrection of Jesus Christ, which is more than a remembrance of the Last Supper of Jesus with his disciples. In the Eucharist the sacrifice of our redemption becomes present sacramentally. In the past, dogmatic theology has treated the meaning of the Eucharist while disregarding the form of its liturgical celebration, whereas liturgical studies have been content with only the latter. Yet the two cannot be separated, any more than liturgy and dogma or pastoral practice and doctrine can be understood without the other. The Church's liturgy is not something external to Christian revelation, but rather, as Joseph Ratzinger said, "revelation accepted in faith and prayer". In this work Helmut Hoping combines the approaches of dogmatic theology and liturgy while examining the Eucharist from a historical and systematic perspective. This new English translation of the second German edition of this major work, revised and expanded, includes a comparative analysis of the Second Eucharistic Prayer and a chapter on the theology of the words of institution.

This collection contains twenty-one thought-provoking essays on the controversies surrounding the moral and legal distinctions between euthanasia and "letting die." Since public awareness of this issue has increased this second edition includes nine entirely new essays which bring the treatment of the subject up-to-date. The urgency of this issue can be gauged in recent developments such as the legalization of physician-assisted suicide in the Netherlands, "how-to" manuals topping the bestseller charts in the United States, and the many headlines devoted to Dr. Jack Kevorkian, who has assisted dozens of patients to die. The essays address the range of questions involved in this issue pertaining especially to the fields of medical ethics, public policymaking, and social philosophy. The discussions consider the decisions facing medical and public policymakers, how those decisions will affect the elderly and terminally ill, and the medical and legal ramifications for patients in a permanently vegetative state, as well as issues of parent/infant rights. The book is divided into two sections. The first, "Euthanasia and the Termination of Life-Prolonging Treatment" includes an examination of the 1976 Karen Quinlan Supreme Court decision and selections from the 1990 Supreme Court decision in the case of Nancy Cruzan. Featured are articles by law professor George Fletcher and philosophers Michael Tooley, James Rachels, and Bonnie Steinbock, with new articles by Rachels, and Thomas Sullivan. The second section, "Philosophical Considerations," probes more deeply into the theoretical issues raised by the killing/letting die controversy, illustrating exceptionally well the dispute between two rival theories of ethics, consequentialism and deontology. It also includes a corpus of the standard thought on the debate by Jonathan Bennet, Daniel Dinello, Jeffrie Murphy, John Harris, Philipa Foot, Richard Trammell, and N. Ann Davis, and adds articles new to this edition by Bennett, Foot, Warren Quinn, Jeff McMahan, and Judith Lichtenberg.
