Intro

What happens when we die?

What is the soul? Where is it? How big is it?

Are there any realms the soul travels to, after death?

Does the soul continue to evolve between lifetimes?

Where does the soul exit the body from?

Does the breath impact the way we die, and what happens after we die?

Is it possible to choose the time of death?

Is it true that we won't be reborn if we die after the age of 84?

How does Shradh (offerings to the departed) affect the soul if it's already reborn?

Is the journey after death different from what is described in the Garuda Purana if you have a Guru?

Will you get liberated if you think of God in the last few seconds of your life?

Do we get liberated if we die in a place like Kashi?

How do we choose a body for rebirth?

What happens to a soul when someone commits suicide?

What is the significance of the last rites performed after death?

Why do some cultures cremate the dead?

Can spirits possess a person? Can Gods possess someone?

How can we overcome the fear of death?

Is it possible to bring the dead back to life?

How did Savitri bring her dead husband back to life?

Why do people come back from a near death experience?
