Mind the Gap

This system of learning English is aimed at adult beginner learners. It is a very simple but effective method of teaching and learning English.

Mind the Gap in Your English

An award-winning play about the relationship between brothers. Nothing but the Truth is the story of two brothers, of sibling rivalry, of exile, of memory and reconciliation, and the ambiguities of freedom. The play was John Kani's debut as sole playwright and was first performed in the Market Theatre in Johannesburg. It won the 2003 Fleur du Cap Award for best actor and best new South African play. In the same year Kani was also awarded a special Obie award for his extraordinary contribution to theatre in the USA.

Nothing but the Truth

This system of learning and teaching English has been designed to help students learn English as quickly as possible. The system of learning uses the very simple and natural method used by your parents when you were very young children. The mother or father says something to the child and the child repeats it and answers and the action is reinforced because the child gets praise if the sentence is correct. This method acts in exactly the same way. The student simply repeats what the teacher says and is then corrected by the teacher. LISTEN, REPEAT, LEARN x 3 The system consists of a series of questions and answers. The teacher introduces a new word or concept, asks a question and the student and teacher reply together in tandem until the student can reply independently. It's simple, it's effective and it's fast. Saves time and money.

Ignatius Critical Editions (ICE) Study Guides are constructed to aid the reader of ICE classics to achieve a level of critical and literary appreciation befitting the works themselves. They give introductions and summaries, followed up with in-depth considerations of key critical moments and themes, plus lists of points to ponder while reading. Finally, they include questions to test the students' knowledge of the text and ability to go from that knowledge to wider or higher conclusions about the works and their relation to reality. Ideally suited for students themselves and as a guide for teachers, the ICE Study Guides serve as a complement to the treasures of critical appreciation already included in ICE titles.

English in Mind Level 2 Student's Book with DVD-ROM

A band of savage thirteen-year-old boys reject the adult world as illusory, hypocritical, and sentimental, and train themselves in a brutal callousness they call 'objectivity'. When the mother of one of them begins an affair with a ship's officer, he and his friends idealise the man at first; but it is not long before they conclude that he is in fact soft and romantic. They regard this disillusionment as an act of betrayal on his part - and the retribution is deliberate and horrifying.

On Becoming Bilingual

The use of phones in the classroom is a controversial topic that receives a variety of reactions and can have political ramifications. In various school districts across different states, as well as in some countries, cell phone usage has been banned in the classroom to combat what administrators say is a distracted student population. However, research demonstrates that cell phones can have a positive effect on learning and engagement. Instead of banning cell phones, some teachers have found ways to incorporate educational apps, gaming apps, and social media into course materials. Although much research has emerged involving the integration of technology and digital literacies in English language arts (ELA) classrooms, mobile phone use as a discrete construct has not been explored widely. *Affordances and Constraints of Mobile Phone Use in English Language Arts Classrooms* aims to shine a light on the controversial topic of mobile phones in the English language arts classroom, focusing on comparing the opportunities that they afford students, as well as the negative effects they can have on learning. The chapters within this book examine learning outcomes, best practices, and practical applications for using mobile phones in ELA and adds to the body of literature on mobile phone use in secondary classrooms in general, standing as a unique resource on mobile phones in the language arts curriculum. While highlighting topics that include gaming applications, online learning, student engagement, and classroom management, this book is ideally designed for inservice and preservice teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students who are interested in learning more about the pluses and minuses of mobile phone use in ELA.

The Sailor who Fell from Grace with the Sea

The brilliant, controversial, bestselling critique of American culture that “hits with the approximate force and effect of electroshock therapy” (The New York Times)—now featuring a new afterword by Andrew Ferguson in a twenty-fifth anniversary edition. In 1987, eminent political philosopher Allan Bloom published *The Closing of the American Mind*, an appraisal of contemporary America that “hits with the approximate force and effect of electroshock therapy” (The New York Times) and has not only been vindicated, but has also become more urgent today. In clear, spirited prose, Bloom argues that the social and political crises of contemporary America are part of a larger intellectual crisis: the result of a dangerous narrowing of curiosity and exploration by the university elites. Now, in this twenty-fifth anniversary edition, acclaimed author and journalist Andrew Ferguson contributes a new essay that describes why Bloom’s argument caused such a furor at publication and why our culture so deeply resists its truths today.

Affordances and Constraints of Mobile Phone Use in English Language Arts Classrooms

George Orwell set out ‘to make political writing into an art’, and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell’s essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Politics and the English Language*, the second in the Orwell’s Essays series, Orwell takes aim at the language used in

politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's *Politics and the English Language* is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Politics and the English Language

Our pupils' success will be defined by their ability to read fluently and skilfully. But despite universal acceptance of reading's vital importance, the reading gap in our classroom remains, and it is linked to an array of factors, such as parental wealth, education and book ownership, as well as classroom practice. To close this gap, we need to ensure that every teacher has the knowledge and skill to teach reading with confidence. In *Closing the Reading Gap*, Alex Quigley explores the intriguing history and science of reading, synthesising the debates and presenting a wealth of usable evidence about how children develop most efficiently as successful readers. Offering practical strategies for teachers at every phase of their teaching career, as well as tackling issues such as dyslexia and the role of technology, the book helps teachers to be an expert in how pupils 'learn to read' as well as how they 'read to learn' and explores how reading is vital for unlocking a challenging academic curriculum for every student. With a focus on nurturing pupils' will and skill to read for pleasure and purpose, this essential volume provides

practical solutions to help all teachers create a rich reading culture that will enable every student to thrive in school and far beyond the school gates.
