Intro to the best beginner books; caveats; books that should be taken with a pinch of salt etc. cultural appropriation and inclusivity

Key topics: Wicca, Traditional Witchcraft, Folk Magick; Shadow Work, protection magick, energy, working with the Moon

The book I wish that I had read first

The books my eleven year old self would have wished to have read first

An affirming book for beginner and advanced witches

Two books all witches and magical practitioners need to read

A must for all witches and magical practitioners

An old book I love

A love letter to yourself!

An empowering book for beginner/ intermediate witches

Beginner books on working with the Moon

A delicious comforting journey through the year with a witch

A meditation on animism

Books on Traditional Witchcraft

An essential read on energy and how magic works

A fundamental book about sacred space and energy containers

A Wiccan perspective I would highly recommend

An essential read for working with the Dark Moon and the Dark Goddess

Older books I recommend, with a pinch of salt

Books that were important for my practice, but which I wouldn't necessarily recommend

The first books I read

To be educated around the latest beginner books

Don't Eat Me, Chupacabra! / ¡No Me Comas, Chupacabra!

"AAy caramba!" Can a young goat convince a single-minded Chupacabra there are many yummy things to eat besides him? Set in gorgeous Puerto Rico, this delicious tale of compromise features digestible Spanish vocabulary and a menagerie of animal amigos. Full color.

Monster ABC

Featuring tongue-in-cheek humor for adults and unhinged delight for kids, this hilarious alphabet board book is full of silly monster fun from Alien to Zombie. Full color.

Hush Now, Banshee!

Join Banshee as she discovers the virtues of quiet time in the noisiest counting book in the land.

Stinky Dinky

Wesley Dinky is a stinky boy who loves to fart! Need I say more... this is the perfect book for boys and girls who like stink bombs. But they should beware, lest the same fate of Stinky Dinky be cast upon them! Find out what happens as Stinky Dinky's stinky days become numbered...

Ikklkkk!

A young boy fantasizes about how he might improve his appearance in order to appear a lot more interesting to others. When his imagination runs wild, his friend brings him back to earth and assures him that she likes him just the way he is, with no green hair, monkey tail, laser eyes, or pterodactyl claws.

Get Dressed, Sasquatch!

It's trouble in paradise when a park ranger informs Sasquatch that his au-naturel style will no longer be tolerated. What follows is a charming, humorous game of dress-up as Sasquatch and the ranger struggle to come up with a wardrobe fit for the monster's active lifestyle. With warm illustrations, funny rhymes, and a silly final twist that praises acceptance, Get Dressed, Sasquatch! will have children and parents giggling together again and again.

Boys Only, No Girls Allowed

A collection of delightful tales reminiscing the adventures of grandchildren who loved to play at their grandparents' home.

Wacky Stories (10 Short Stories for Kids)

Enjoy some fun and wacky short stories. Are you ready to hear your kids giggle through some amusing stories? Story 1. Kids will enjoy these strange animal noises. They're fun to make, too. Story 2. The suspense builds as everybody except for Santa comes out of a fireplace. Story 3. There are some funny things in this pond. Story 4. Wacky tastes are the feature of this story. Story 5. Sea creatures are doing something strange. Story 6. You won't believe what's laughing. Story 7. It's the silliest zoo that you'll ever visit. Story 8. What do you do when your reflection won't cooperate? Story 9. A princess saves a knight in distress, but that's not the wacky part. Story 10. Imagine the power of this super remote control. The stories are short enough (around 200 words each) to keep kids focused on the story and to not seem overwhelming. Pictures are kept to a minimum (mostly in the form of story headings) so that children can focus on the storytelling without too many visual clues. Each story is followed by four optional multiple choice questions designed to assess basic reading comprehension and reasoning skills. Answers are tabulated in the back of the book. Each story is followed by a storytelling prompt, with blank lines for writing, which can be used to try and get kids to write their own wacky stories. May your children or students learn to love reading and make it a lifelong habit.

Tiger Vs. Nightmare

Tiger always has been protected from nightmares by her friend, the monster under her bed, but some nightmares are so big they require teamwork.

Dirty Wicked Prince

He's the elite's dark prince. I had the audacity of breathing his air. Dirty. Rotten. Savages. The Legacy boys are Windsor Preparatory Academy's most privileged. No one crosses the devil spawn of this town's upper echelon, but I managed. I call one of them out my first day, and no one hears it louder than their blond prince. Evil. Wicked. Twisted. Dorian Prinze is as cruel as he is beautiful and once he sets his sights on me, he refuses to let go. Apparently, I bother him by simply existing at my new school and no matter what I do, I can't stay off the radar of him and his boys. He says I make too much noise and stupid me for not caring. Some really messed up stuff brought my brother and me to this town, and I won't bow down to these elitist pricks. Something tells me going to war with the cruel prince of Maywood Heights may level both our foundations, but I won't go down without a fight. I'll do whatever it takes to win Dorian's devious and twisted games. Even if he promises I'll scream for him by the end. Warning: Dirty Wicked Prince is a dark high school romance that contains dubious content and situations some may find triggering. It's recommended for readers 18+ and is the first book in an all new series by Eden O'Neill titled Court Legacy. Dirty Wicked Prince is not a standalone and does end in a cliff hanger. Author's Note: Court Legacy is a spin-off series about the children of characters featured in Eden O'Neill's Court High and Court University series. It's not necessary to read the previously released series in order to enjoy Court Legacy. This is a new series that can be read completely on its own.

Goodnight Krampus

Santa's biggest challenge on Christmas Eve is convincing little Krampus to go to bed in this delightful Christmas bedtime story.

An Eagle Love Story

Do eagles really fall in love? The answer is yes! They literally fall thousands of feet through the air to prove their love, even risking death for each other. This easy-to-read children's book is based on the true courtship of eagles. This love can also be compared to Jesus's sacrificial love for us as well as how we should have a sacrificial love for each other. No one has greater love [nor stronger commitment] than to lay down his life for his friends. (Jesus, John 15:13 AMP)

The Wind Whisperer

At fifteen, Anaii is the most important member of her tribe-and the most mysterious. Ever since Anaii can remember, the spirits of the wind have whispered of fertile hunting grounds and imminent enemy attacks. But when her people are ambushed by a brother clan without any apparent cause, the spirits remain eerily silent. As the village prepares to retaliate, Anaii is pressured by her best friend, Elan, to marry him. It's an old plea-Elan has spent a lifetime loving her, but Anaii only sees a childhood playmate out of an imposing warrior. Stifled by Elan's insistence, Anaii escapes into the forest where she meets Jayttin, the beautiful son of the enemy chief. Enamored by Jayttin's carefree spirit and hope for peace, she repeatedly sneaks away to be with him, but when her deception is discovered, Elan is devastated. Pledging his lifelong affection, Elan gives her a passionate kiss, and Anaii begins to see her friend in a new light. While Anaii is tormented over which man she must choose, the wind whispers of a new threat that could destroy both tribes. Only a union will afford a chance at survival, but the reality of that union is based on one thing-which man Anaii chooses to die.

But Remember

"But Remember" is a rhyming book where mom tells Billy things he needs to remember in a very silly way. With this book you can teach how to rhyme while you enjoy the laughter that will come from your children as you read this wonderful book, "But Remember."

Where's Walrus?

In this wordless picture book, follow Walrus on a happy-go-lucky spree through the big city, as he tries on different hats to disguise himself from the chasing zookeeper.

Hleo

Our choices seal our fate. Hannah Reed is about to learn just how important one little decision can be. Hannah's plans for a nice, quiet senior year of high school are rapidly disintegrating. It all starts when she innocently bursts in on Ethan Flynn in the change room of the clothing store where she works. Ethan's presence in Hannah's world is subtle but constant, and when he saves her life, they become linked by the workings of an ancient society and Ethan's sworn duty to protect Hannah. Working together to figure out what destiny wants with Hannah, the two of them stumble on a baffling mystery that leaves even Ethan questioning what is in store for her future. With Ethan's help, Hannah learns there is far more to this life, to her life, than she ever realized. As they attempt to untangle Hannah's unique past and emerging abilities, an unknown danger from Ethan's past looms ever closer. While racing to put together the pieces of the puzzle before it's too late, Hannah wrestles with the idea that she is anything but average, and that perhaps she is also more to Ethan than just a job. Hleo is the first book in the series with the same name. A story of destiny and how one decision can change everything. When you buy a copy of Hleo, your one decision also has the ability to change the lives of others across the globe. \$3.00CAD from every copy of Hleo purchased goes towards the amazing efforts of the Because I am a Girl Education initiative. Fighting to bring literacy and safe learning resources to girls living in some of the poorest nations in this world.

So Much Snow!

A blizzard is coming, but Jasmine loves snow! So off she goes to school, as the snow gets deeper, and deeper, and deeper...

Dragons Get Colds Too

For fans of *Dragons Love Tacos* comes a fresh, funny story that deals with everyone's least favorite thing: a cold. Is your dragon sleepy? Does he have a runny nose? Does he keep sneezing fire? Unfortunately, it sounds like your dragon has a cold. But luckily, this guide will help anxious dragon owners through the challenges of caring for their sick dragon! Balancing tongue-in-cheek humor through Charles Santoso's illustrations with gentle reassurance, this story proves that laughter really is the best medicine and will appeal to anyone who has felt under the weather.

I'm Bored

When a bored girl meets a potato who finds children tedious, she tries to prove him wrong by demonstrating all of the things they can do, from turning cartwheels to using their imaginations. Full color.

Dragons

For thousands of years, human beings have wondered if they're alone in this universe. Well, you're not. The space aliens have been here since the dawn of Mankind, and, for the first time ever (probably), a general guide to them is being released. Aren't you lucky. This (painfully short) guide to AN ENTIRE ALIEN PEOPLES tells you everything you need to know before the world is turned upside down, and you learn that werewolves and vampires are also real.

Fun Dog, Sun Dog

Although Tinka the dog can be described in many ways, she is always the right kind of canine for her owner.

The Essential Cult TV Reader

The Essential Cult TV Reader is a collection of insightful essays that examine television shows that amass engaged, active fan bases by employing an imaginative approach to programming. Once defined by limited viewership, cult TV has developed its own identity, with some shows gaining large, mainstream audiences. By exploring the defining characteristics of cult TV, The Essential Cult TV Reader traces the development of this once obscure form and explains how cult TV achieved its current status as legitimate television. The essays explore a wide range of cult programs, from early shows such as *Star Trek*, *The Avengers*, *Dark Shadows*, and *The Twilight Zone* to popular contemporary shows such as *Lost*, *Dexter*, and *24*, addressing the cultural context that allowed the development of the phenomenon. The contributors investigate the obligations of cult series to their fans, the relationship of camp and cult, the effects of DVD releases and the Internet, and the globalization of cult TV. The Essential Cult TV Reader answers many of the questions surrounding the form while revealing emerging debates on its future.

The Skeptics' Guide to the Universe

'A fantastic compendium of skeptical thinking and the perfect primer for anyone who wants to separate fact from fiction.' Richard Wiseman, author *59 Seconds* 'Thorough, informative, and enlightening... If this book does not become required reading for us all, we may well see modern civilization unravel before our eyes.' Neil deGrasse Tyson, author of *Astrophysics for People in a Hurry* In this tie-in to their popular 'The Skeptics Guide to the Universe' podcast, Steven Novella, along with 'Skeptical Rogues' Bob Novella, Cara Santa Maria, Jay Novella and Evan Bernstein explain the tenets of skeptical thinking and debunk some of the biggest scientific myths, fallacies and conspiracy theories (anti-vaccines, homeopathy, UFO sightings, and many more.) They'll help us try to make sense of what seems like an increasingly crazy world using powerful tools like science and philosophy. The Skeptics' Guide to the Universe is your guide through this maze of modern life. It covers essential critical thinking skills, as well as giving insight into how your brain works and how to avoid common pitfalls in thinking. They discuss the difference between science and pseudoscience, how to recognize common science news

tropes, how to discuss conspiracy theories with that crazy colleague of yours, and how to apply all of this to everyday life. As fascinating as it is entertaining, this page turner is your essential guide to seeing through the fake news and media manipulation in our increasingly confusing world.

The Ice Cream Truck at Midnight

From the creator of *Let There Be Owls Everywhere* and *Gnomes of the Cheese Forest and Other Poems* comes a collection of short stories and sketches to haunt and delight you. Here there be tales about used books, giraffes, space invaders, whispers from an Egyptian pharaoh, and many other mysterious happenings...including an ice cream truck that appears at midnight.

Chicken Butt!

You know what? What? Chicken butt! The classic schoolyard joke has been recast as an irreverent picture book, with call-and-response parts for parent and child. The word repetition in Erica S. Perl's text, and wonderfully comic illustrations by beloved artist Henry Cole, make this a particularly inviting book for new readers, as does the opportunity to "trick†? a parent or other adult into participating in a very silly joke. The humor builds to a surprising and satisfying conclusion. Warning: Kids will want to read this one over and over and over again! "An unhinged piece of slap-happy rhyming...rocket-propelled artwork...the romp is a powerful piece of cacophony, more frenetic by the moment.†?—Kirkus Reviews

Things That Sometimes Happen

Here are a few things that sometimes happen: **HAPPY THINGS** An unpopular Black Crayon proves to a Little Girl how useful he really is. **SAD THINGS** On a very hot day, an Ice-Cream Cone waits...and waits...to be eaten. **EXCITING THINGS** A Papa catches cold, so his Little Boy gets to go to work instead! These nine very short stories for very young readers -- culled from Newbery Honor author Avi's first book and illustrated by Caldecott Honor artist Marjorie Priceman -- ingeniously capture the funny, surprising spirit of a child's imagination.

The Ice Cream Machine

Don't miss the #1 New York Times bestseller everyone is raving about! From the wild and wonderful imagination of the author of *Dragons Love Tacos* comes this hilarious, irresistible debut collection of six totally different stories with the same exact name. In these six stories, set in six distinct worlds, you'll meet a boy and his robot nanny traveling the globe in search of the world's tastiest treat, a child mechanical prodigy who invents the freshest dessert ever, and an evil ice cream truck driver who strikes fear in the heart of every kid in town. You'll be transported to a beachside boardwalk with an ice cream stand run by a penguin, a hilltop realm ruled by a king with a sweet tooth, and a giant alien space lab with a lone human subject who longs for a taste of home. Each story features black-and-white interior illustrations from a different artist, including Daniel Salmieri, Charles Santoso, Liniers, Emily Hughes, Nicole Miles, and Seaerra Miller, making this book unlike any you've ever seen. So grab a cup or a cone, and watch out for brain freeze! You'll definitely want to save room for this treat.

Hobgoblin and the Seven Stinkers of Rancidia

Named a Best Book of 2019 by Kirkus Reviews, this pungent parody of *Snow White* modernizes (and stinks up) the themes of the classic fairy tale to serve as a timely parable of the virtues of inclusive democracy versus the evils of corrupt regimes. Set in the faraway land of Rancidia, where it's good to smell bad and bad to smell good, this acclaimed middle-grade adventure follows a profoundly stinky Hobgoblin as he flees the jealous wrath of a monstrous, democracy-hating ogre tyrant named Fiddlefart.

The Real Science Behind the X-Files

Could an alien organism really survive a centuries-long trip on a meteor and remain virulent enough to attack a human being? How would a scientist know she was peering at a microbe from another planet? What's the possibility of a genetically mutated monster actually developing? In a gripping exploration of the facts behind the science fiction that has enthralled millions of X-philes, Anne Simon -- the respected virologist who comes up with the science for many intriguing episodes -- discusses telomeres, cloning, the Hayflick limit, nanotechnology, endosymbionts, lentiviruses, and other strange phenomena that have challenged the intellect and threatened the lives and sanity of America's favorite FBI agents. With Simon's extraordinary gift for explaining complicated, cutting-edge science in a light, accessible style,

and her behind-the-scenes commentary on the development of various plot lines, *The Real Science Behind the X-Files* will appeal to science buffs and X-Files aficionados alike.

The Cyclops Witch and the Heebie-Jeebies

The Cyclops Witch never backs down from adventure or the medley of monsters she meets along the way. But one spooky night, the only thing in the world that gives her the heebie-jeebies walks right up to her door--and it's not what you're expecting.

Zombie, Or Not to Be

This topical and hilarious parody of Shakespeare's *Hamlet* follows a young science-minded zombie teenager named Edda as she deals with a myriad of death-altering problems including a climate crisis caused by the anti-science humans in Ignorway and the conniving takeover of her country by her villainous Aunt Agonista.

The Areas of My Expertise

In the great tradition of the American almanac, *The Areas of My Expertise* is a brilliant and hilarious compendium of handy reference tables, fascinating trivia, and sage wisdom on all topics large and small. Although bestsellers such as *Poor Richard's Almanack* and *The Book of Lists* were certainly valuable, they also were largely true. Here is a different kind of handy desk reference, one in which all of the historical oddities and amazing true facts are sifted through the singular, illuminating imagination of John Hodgman—which is the nice way of saying: He made it all up. John Hodgman brings his considerable expertise to bear in answering all of the questions book buyers have been asking: -What are the mottoes of the 51 United States? THE ANSWER IS PROVIDED -Who were the U.S. presidents who had hooks for hands? THE ANSWER IS PROVIDED -What role does the Yale secret society “Skull and Bones” play in the secret world government? THERE IS NO SECRET WORLD GOVERNMENT -What was the menu at the first Thanksgiving, and did it include eels? Technically, that is two questions, but do not apologize, for John Hodgman shall answer them both . . . LATER. -Aside from a compendium of fake trivia, what is the best kind of book to write? A SIMPLE TABLE OF THE 55 MOST DRAMATIC LITERARY SITUATIONS PROVIDES THE ANSWER, and John Hodgman is the author of that table. Imagine if *The Book of Lists* had been rewritten by Peter Cook and Jorge Luis Borges under the pseudonym of “John Hodgman” and then renamed *The Areas of My Expertise*, and you will only begin to have a sense of the dizzying, uproarious, sublimely weird, and strangely wise journey that is contained within this book (along with all the pages and words). Perfect for anyone who thirsts for knowledge, and especially for collectors of books of fake trivia, *The Areas of My Expertise* offers through absurdity a better understanding of the world we share—and recognizes that while the truth may be stranger than fiction, it is never as strange as lies . . . or as true. Look out for John Hodgman's latest book, *Vacationland*, available from Viking in Fall 2017.

Shadowrun Howling Shadows

Howling Shadows is a core rulebook for *Shadowrun*, Fifth Edition, with a wealth of dangerous creatures, sprits, artificial intelligence, and more to add variety and fun to *Shadowrun* games. The critters were designed with both players and GMs in mind - they can be added as a resource for players to use or obstacles to overcome. The critters also have plot hooks built in to fuel plenty of adventures and campaigns. With full color art, this book displays the bizarre and dangerous critters of the Sixth World in their full glory.

Hot Chicks with Douchebags

Greasy foreheads. Spiky frosted hair. Oiled-up faces dripping with Tag Body Shot spray. Armani Exchange T-shirts and rank cologne wafting off their backs like fetid pollen clouds as they pump their fists and attempt to grind into any hotties nearby. Young beauties oblivious to the hulking monstrosity clutching at their butts like snapping turtles on Red Bull. From sea to douche sea, ours is a culture plagued by this festering blight. By the dark forces of über-douchebaggery. How did this happen? What can we do to confront the douchebag/hottie plague that rots our collective souls like boils sent by a wrathful and angry God? And how can you recover if you or your loved one is 'bag? Now, for the first time, there is an answer to those questions that haunt our collective will and sap our culture of any claim to societal advance: Why hottie/douchebaggery? Why now? And why are douche-faces so silly? In this

book we dissect, analyze, contemplate and mock the rank douchescrotes that pollute our country's hottie supply on a daily basis. Every branch of the douche-tree will be examined. Every corner of our cultural rot will be exposed. And if we can lust after their hotties along the way, then all the better.

First Timers and Old Timers

"The Texas Folklore Society has been alive and kicking for over one hundred years now, and I don't really think there's any mystery as to what keeps the organization going strong. The secret to our longevity is simply the constant replenishment of our body of contributors. We are especially fortunate in recent years to have had papers given at our annual meetings by new members--young members, many of whom are college or even high school students. "These presentations are oftentimes given during sessions right alongside some of our oldest members. We've also had long-time members who've been around for years but had never yet given papers; thankfully, they finally took the opportunity to present their research, fulfilling the mission of the TFS: to collect, preserve, and present the lore of Texas and the Southwest. "You'll find in this book some of the best articles from those presentations. The first fruits of our youngest or newest members include Acayla Haile on the folklore of plants. Familiar and well-respected names like J. Rhett Rushing and Kenneth W. Davis discuss folklore about monsters and the classic 'widow's revenge' tale. These works--and the people who produced them--represent the secret behind the history of the Texas Folklore Society, as well as its future."--Kenneth L. Untiedt

Werewolf? There Wolf!

Sink your teeth into Werewolf? There Wolf!, a gorgeously illustrated and rhythmic picture book revitalization of the Little Red Riding Hood fairy tale. Packed with wolves, weirdness, and witty word play, Werewolf? There Wolf! features a modern and irreverent twist that gives Red more agency than ever before. Distracted by her smart phone, Red wanders into a forest filled with wolves of all types, shapes, and sizes. When she's confronted by the biggest and baddest wolf of them all, Red has to keep her wits and remember her inherent power if she's going to make it to grandma's house alive.

The Rhesus Chart

LONDON CAN DRAIN THE LIFE OUT OF YOU . . . Bob Howard is an intelligence agent working his way through the ranks of the top secret government agency known as 'the Laundry'. When occult powers threaten the realm, they'll be there to clean up the mess - and deal with the witnesses. There's one kind of threat that the Laundry has never come across in its many decades, and that's vampires. Mention them to a seasoned agent and you'll be laughed out of the room. But when a small team of investment bankers at one of Canary Wharf's most distinguished financial institutions discovers an arcane algorithm that leaves them fearing daylight and craving O positive, someone doesn't want the Laundry to know. And Bob gets caught right in the middle.

Night Horrors

Less than Kindred, more than Kind Vampires call each other Kindred. Living dead playing at being a big, happy family. But not everything gets invited to the reunion. Some creatures are too grisly, too monstrous, too goddamn strange to be part of the family. These are the vampires that vampires fear. Meet the Wicked Dead. An Antagonist Book for Vampire: The Requiem * Details on the Strix, strange nemeses from the nights of Rome * The horrifying consequences of Kindred sins, including larvae and the Dampyr * New lineages of vampire, from the horrifying Jiang Shi to the grotesque Cymothoa Sanguinaria

The Culinary Bro-Down Cookbook

The Culinary Bro-Down Cookbook is full of irreverent essays and anecdotes, but running throughout is a deep sense of soul and self that strives to answer the question: Why can't the deep-fried nonsense you eat with your bros at 2 a.m. have the same emotional gravitas as an intimate family dinner? There was never anything wrong with instant ramen. But there was never anything wrong with not being on the moon, either. That didn't stop Neil Armstrong, Buzz Aldrin, and that other guy* from changing the course of human history with a few daring steps and a super dope catchphrase. So too shall journalist and blogger Josh Scherer change the course of late-night, often-insane, sometimes-smart-but-always-monstrous munchie food that puts your MSG packet garbage to shame. You'll find more than seventy creations broken into the ten "brossential" food groups like: Beer, Fried Things,

Tacos, and Struggle Snacks (because money is hard). Josh's recipes range from indulgent eats like Beer-Poached Bratwurst Party Subs and Mac 'n' Cheese Nachos to hell-a-classy dishes like Broccolini with Burnt Lemon Hollandaise and Pork Belly Tacos with Fish Sauce Caramel. Sprinkled in are the unholy commandments for bro cooking, such as "bagged wine is the only wine you need," and Josh's expert advice on how to beat a hangover (it's mostly just pastrami and emotionally purging movies). Oh and there's bacon, too. Like, a lot of it.
