Our Domestic Animals

Excerpt from Our Domestic Animals: Their Habits, Intelligence and Usefulness Our many domestic animals have played an important role in the civilization of man. Without them - especially the dog, the horse, the cow, and the sheep - man's development onward and upward would have been slow and uncertain. Those countries in which the problem of domestication did not enter remained ever near to barbarism, never progressing beyond a certain limit. The American red man, brave, cunning, persevering, could not overstep the boundaries that limited his civilization, because he had no animal that he might domesticate, and no beast of burden to aid him in doing certain kinds of fatiguing work. This book is concerned with these helpers of civilization. It is to teach something about their value to man, so that they may receive more appreciative attention and more kindly consideration from the resident of the city and of the country, that this book appears. For many photographs that are reproduced on the following pages grateful appreciation is expressed to Mr. John F. Cunningham, Cleveland, Ohio; to Mr. Joseph E. Wing, Mechanicsburg, Ohio; and to the Ohio Farmer, Cleveland, Ohio. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1918 edition. Excerpt: ... chapter xxxix the ass our uncle's partiality, you have already X been able to see, my friends, is for the weak, the ill-treated, the unfortunate. I did not try to eulogize the horse, the valiant animal commending itself sufficiently to our esteem without that; but very gladly will I enumerate the good qualities of the ass, sad victim of our brutality despite the service it renders us. To give my words more authority I will add Buff on's testimony to my own. "'The ass, ' says the illustrious historian of animals, 'is not a degenerate horse, as many imagine; it is neither a foreigner nor an intruder nor a bastard; like all animals it has its family, its species, and its rank. Although its nobility is less illustrious, it is quite as good, quite as ancient, as that of the horse. Briefly, the ass is an ass, nothing more, nothing less.'"This initial fact is of no slight importance. In considering the ass as a degenerate horse we are led to compare it with its assumed origin, and the comparison is not favorable to it: the long-eared donkey makes but a pitiful showing beside the brisk and noble courser. But as it is in reality a separate animal let us expect of it only the qualities of its speoies, the qualities of the ass, without depreciating the animal by comparisons with others that are stronger and better endowed. Do we despise rye because it is not so good as wheat? We thank Heaven for both, the first as the valued crop of the mountains, the second as that of the plains. Let us not, then, despise the ass because it is inferior to the horse. It possesses the good qualities of its species, and cannot possess others. We fail to recognize that the ass would be our foremost, our finest, our best made, our most distinguished domestic animal if...

Our Domestic Animals in Health and Disease;

The principal domestic animals reared for economical purposes in the United States, are Horned or neat cattle, the Horse, the Mule, Sheep, and Swine. A few Asses are bred, but for no other object than to keep up the supply of jacks for propagating mules. We have also goats, rabbits, and the house domestics, the dog and cat; the two former, only in very limited numbers, but both the latter much beyond our legitimate wants. There have been a few specimens of the Alpaca imported, and an arrangement is now in progress for the introduction of a flock of several hundred, which, if distributed among intelligent and wealthy agriculturists, as proposed, will test their value for increasing our agricultural resources. We shall confine ourselves to some general considerations, connected with the first-mentioned and most important of our domestic animals. Their number as shown by the agricultural statistics collected in 1839, by order of our General Government, was 15,000,000 neat cattle; 4,335,000 horses and mules, (the number of each not being specified;) 19,311,000 sheep; and 26,300,000 swine. There is much reason to question the entire accuracy of these returns, yet there is doubtless an approximation to the truth. Sheep have greatly increased since that period, and would probably number, the present year, (1848,) not less than 30,000,000; and if our own manufactures continue to thrive, and we should moreover become wool exporters, of which there is now a reasonable prospect, an accurate return for 1850, will undoubtedly give us not less than 33,000,000 for the entire Union. There has been a great increase in the value of the other animals enumerated, but not in a ratio corresponding with that of sheep. This is not only manifest in their augmented numbers, but in the gradual and steady improvement of the species

Chubbs

In the early 20th century, a man named Charlie Hudson raised racing pigeons in Derby, England. In 1913, he entered his best bird in a race all the way from Rome. A devastating storm came through on the day of the race and all the pigeons disappeared -- all but Charlie Hudson's pigeon, which found international acclaim as the "King of Rome." This lovely picture book follows the true story of Charlie and his amazing pigeon, and the hope they brought to his working class world. Gorgeous pencil and crayon illustrations capture both the era and the sense of flight.

This five-volume work consists in biographies of the most important writers and thinkers of their time, since 14th until 19th century. Most of them were written by the Romantic writer Mary Shelley. Her extensive knowledge of history and languages, her ability to tell a gripping biographical narrative, and her interest in the burgeoning field of feminist historiography are reflected in these works. She wrote in a style that combined secondary sources, memoir, anecdote, and her own opinions. Her political views are most obvious in the Italian Lives, where she supports the Italian independence movement and promotes republicanism; in the French Lives she portrays women sympathetically, explaining their political and social restrictions and arguing that women can be productive members of society if given the proper educational and social opportunities. For the first time, Jethro Tull founder, singer, songwriter and photographer Ian Anderson has gathered together the complete lyrics from all of the Tull and solo albums in one volume. This hardback book is illustrated throughout with new, original and previously unpublished photographs taken by Ian to accompany certain lyrics. Ian has combed through everything from This Was in 1968 to unreleased 2021 songs, taking in all of his solo albums and tracks released only on box sets and compilations, to collate more than 300 song lyrics. After listening to original masters, checking notebooks and song sheets, Ian is confident that this book represents the complete, collected lyrics of his more than six decade-long career.

Antiquarian Bookman

THE MIND-BENDING CULT CLASSIC ABOUT A HOUSE THAT'S LARGER ON THE INSIDE THAN ON THE OUTSIDE • A masterpiece of horror and an astonishingly immersive, maze-like reading experience that redefines the boundaries of a novel. "Simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —Michiko Kakutani, *The New York Times* "Thrillingly alive, sublimely creepy, distressingly scary, breathtakingly intelligent—it renders most other fiction meaningless." —Bret Easton Ellis, bestselling author of *American Psycho* "This demonically brilliant book is impossible to ignore." —Jonathan Lethem, award-winning author of *Motherless Brooklyn* Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth—musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies—the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices, the story remains unchanged. Similarly, the cultural fascination with *House of Leaves* remains as fervent and as imaginative as ever. The novel has gone on to inspire doctorate-level courses and masters theses, cultural phenomena like the online urban legend of "the backrooms," and incredible works of art in entirely unreal mediums from music to video games. Neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of the impossibility of their new home, until the day their two little children wandered off and their voices eerily began to return another story—of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

Net Guide

A collection of fantasy, science fiction, and horror films in various languages listed in title order referencing the crew for each production. For the purpose of this work, fantastic films are defined as those motion pictures depicting or strongly implying significant exceptions to man's conception of natural reality.

Our Day Out

A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

The Zog Activity Book

Brief text and illustrations introduce various breeds of cats.

The Standard Value Guide

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Dirty Rotten Scoundrels (Songbook)

The Naming of Cats is a difficult matter, It isn't just one of your holiday games; You may think at first I'm as mad as a hatter When I tell you, a cat must have THREE DIFFERENT NAMES. The first poem in Eliot's *Old Possum's Book of Practical Cats* is a brilliant introduction to the fabulous world of Cats, featuring names such as Bombalurina and Munkustrap - made famous by the recent film! The seventh gorgeous Cats picture book with lively and colourful illustrations by Arthur Robins. Perfect for reading aloud, singing or performing!

Cassell's Biographical Dictionary, etc. [With plates. Edited by T. T. Shore.]

Selected and arranged by the author, and with a new introduction by novelist David Mitchell, *How To Be Invisible* presents the lyrics of Kate Bush published together for the first time. 'For millions around the world, Kate is way more than another singer-songwriter: she is a creator of musical companions that travel with you through life. One paradox about Kate is that while her lyrics are proudly idiosyncratic, those same lyrics evoke emotions and sensations that feel universal. Literature works in similar mysterious ways. Kate's the opposite of a confessional singer-songwriter ... You don't learn much about Kate from her songs. She's fond of masks and costumes - lyrically and literally - and of yarns, fabulations and atypical narrative viewpoints. Yet, these fiercely singular songs, which nobody else could have authored, are also maps of the heart, the psyche, the imagination. In other words, art.' David Mitchell

Inane Ramblings of an Absent Loon

Monograph on the economic implications, legal aspects and political aspects of pension scheme funds in the USA - discusses the struggle for control of capital resources among trade unions, local governments, banks and insurance companies, and suggests that a renewed economic growth and a reduction in unemployment will be possible upon shifting capital flow from the South atlantic states to the northern states. Bibliography pp. 233 to 274.
